

FFIEC 031 Draft Reporting Form and Instructions for Call Report Revisions Related to the Standardized Approach for Counterparty Credit Risk (SA-CCR)

The following draft reporting form and draft instructions, both of which are subject to change, present the pages from the FFIEC 031 Call Report as they are proposed to be revised as of the December 31, 2021, report date. These proposed revisions related to SA-CCR are described in the federal banking agencies' [initial 60-day Paperwork Reduction Act \(PRA\) Federal Register notice](#) published on July 22, 2021. As discussed in the agencies' final PRA *Federal Register* notice published in the Federal Register on November 4, 2021, the agencies are proceeding with the SA-CCR related revisions to the FFIEC 031 Call report as proposed, subject to final approval by the U.S. Office of Management and Budget.

The banking agencies issued the [Standardized Approach on Counterparty Credit Risk](#) (SA-CCR) final rule on January 24, 2020. The proposed revisions include a new item that would be added to Schedule RC-R, Part I to identify institutions that have chosen to early adopt or voluntarily elect to use SA-CCR.

The initial and final PRA *Federal Register* notice is available on the FFIEC's webpage for the [FFIEC 031 Call Report](#).

Draft as of November 4, 2021

Part I. (cont.)**Item No. Caption and Instructions**

NOTE: Item 31.b is to be completed by non-advanced approaches institutions that elect to use the Standardized Approach for Counterparty Credit Risk (SA-CCR) for purposes of the standardized approach and supplementary leverage ratio (as applicable) and advanced approaches institutions that adopt SA-CCR prior to the mandatory compliance date. Other institutions should leave this item blank.

31.b Standardized Approach for Counterparty Credit Risk opt-in election: A non-advanced approaches institution may continue to use Current Exposure Method or elect to use SA-CCR for purposes of the standardized approach and supplementary leverage ratio (as applicable). Where a banking institution has the option to choose among the approaches applicable to such institution under the capital rule, it must use the same approach for all purposes. For advanced approaches institutions, adoption of the SA-CCR methodology is mandatory beginning January 1, 2022 and voluntary prior to that date. The SA-CCR rule provides advanced and non-advanced approaches institutions the option to adopt SA-CCR for purposes of standardized total risk-weighted assets and, if applicable, the supplementary leverage ratio, beginning with the first quarter of 2020.¹

Non-advanced approaches institutions that elect to use SA-CCR and advanced approaches institutions that adopt SA-CCR prior to the mandatory compliance date must notify their appropriate federal supervisor. These institutions would complete this item as prescribed below:

An advanced approaches institution that elects to early adopt SA-CCR prior to the mandatory compliance date would enter “1” for “Yes” in this item 31.b. An advanced approaches institution that does not early adopt SA-CCR should leave item 31.b blank.

A non-advanced approaches institution that adopts SA-CCR would enter “1” for “Yes” in item 31.b. A non-advanced approaches institution that does not make a SA-CCR opt-in election should leave item 31.b blank. A non-advanced approaches institution must use the same methodology to calculate the exposure amount for all its derivative contracts and, if a banking institution has elected to use SA-CCR, a banking institution may change its election only with prior approval of its appropriate federal supervisor.
