Check for spelling mistakes. The title to the HH section appendix in the list of appendices is misspelled. There's an extra A in Appleseed.

Part A:

A1: no comments

A2: "Should any of the four States decline to participate, the project team will recruit two alternative States." Will the project team recruit two alternative states for each state that declines to participate? That's the way that reads, but doesn't seem to be what is meant.

A3-A18: no comments

Part B:

B1-B5: no comments
