

MC&FP: Family Advocacy Program Initial Entry Point Environmental Scan

Stakeholder Engagement Script May 2022

Stakeholder Conversation Plan

OVERVIEW

- Deloitte will have conversations with DoD stakeholders at nine (9) installations to gain
 insight into known, unknown and potentially new entry points through which military
 family members may seek information and support for domestic abuse and child abuse
 and neglect. Installations were identified according to criteria (e.g. Service, size, location,
 mission focus) aimed at yielding a representative set of observations.
- Conversations will be conducted via phone call and last approximately 5-10 minutes.
- Questions will be closed-ended and limited to fact-based queries that do not elicit stakeholders' personal beliefs, values, or attitudes.

OUTREACH PROCEDURES

- MC&FP will distribute a memo about the Environmental Scan and procedures to the Services and installations to ensure their awareness.
- Deloitte will identify contact information for the identified entry sites using publicly available sources like installation websites and will initiate direct contact.
- Only government employees will be interviewed; information will not be collected from servicemembers or government contractors.
- Two members from the Deloitte team will join each call. One person will be a designated notetaker while the other person guides the conversation using the Stakeholder Engagement Questions reviewed by MC&FP.
- To ensure consistency, Deloitte will initiate all calls using the Stakeholder Engagement Script reviewed by MC&FP.
- Calls will not be recorded.
- Participation is strictly voluntary.
