d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The PII is used for authentication and verification of the user's identity and administratively granting the appropriate access to the system.

e. Do individuals have the opportunity to object to the collection of their PII? Yes No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

The information is required to identify and verify the individual's need for access and permission to the proprietary cost data in the system. Lacking this data, the account will not be set up and you can not proceed.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

Page visits and session IDs may also be associated with a user's account.

You can view your profile information at any time from the Update Your Profile (linked under 'My Account' on the CADE Portal home page). If you wish to request the information this system has stored that is identifiably associated with your account, you may use the Contact Us form. Requests to delete information may also be sent through the Contact Us form.

- (c) If direct or indirect authority does not exist, DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component must be identified.

Section 2334g of Title 10 requires CAPE to create policies and procedures for cost data collection. The DoDI 5000.73, Cost Analysis Guidance and Procedures, dated March 13, 2020, establishes the policies for cost data collection in the DoD. The Trade Secrets Act is the statutory basis for restricting the access of the information collected and verifying user need to know for accessing the information.
