

Risk Evaluation and Mitigation Strategy (REMS) Programs to Promote Appropriate Medication Use and Knowledge: Patient Experiences with REMS Programs

Recruitment Messages

Research Match-Clozapine and Pegvaliase-pqpz (2000 Characters)

The purpose of this research study is to assess the impact of FDA risk evaluation and mitigation strategy (REMS) programs on health care delivery. One-hour interviews with patients or caregivers of patients enrolled in select REMS program will be used to assess patient experiences. Participants who complete an interview will receive a \$50 Amazon gift card as a token of appreciation.
