

UNITED STATES FOOD AND DRUG ADMINISTRATION

Registration of Food Facilities

OMB Control Number 0910-0502

Expiration Date: August 31, 2022

JUSTIFICATION MEMORANDUM FOR NON-SUBSTANTIVE CHANGE REQUEST

The Food and Drug Administration (FDA) is requesting a nonmaterial/non-substantive change request (83-C) to OMB control no. 0910-0502, “*Registration of Food Facilities.*” We are requesting to make two updates to Form FDA 3537, “*DHHS/FDA Food Facility Registration*” with the electronic version called the Food Facility Registration Module. The first update involves adding a data field for a United States Agent identification number. This field has been considered and approved by OMB in its last extension of the approval. The second update involves adding a data field for a Unique Facility Identifier (UFI), which FDA recognizes the DUNS number as acceptable. Most respondents already have this information readily available as part of its reporting activities required under 21 CFR 1.232(a)(2) considered in this collection and OMB control no. 0910-0752, “*Foreign Supplier Verification Programs for Importers of Food for Humans and Animals.*” FDA will use the DUNS number to verify that a facility’s specific address associated with the DUNS number is the same address associated with the facility’s registration. Accordingly, we are providing screenshots of the system interface for OMB approval.
