Building Indigenous Resilience in Communities & Homes

Seeking Participants for Research Study!

We are looking for participants for a new research study funded by the Centers for Disease Control and Prevention. Through this project, we hope to learn more about ways that your community supports children and families to be healthy and well.

What will you be asked to do?

- Join a group or individual discussion that will last up to two hours.
- Complete a short survey.

What will you receive for your participation?

- \$75 for the costs associated with your participation, such as childcare and/or transportation.

Where will the discussions take place?

- Participants will be asked to travel to a meeting location within the community or join virtually (e.g., Zoom or phone).

Participants must be:

- 18 years or older
- Affected by opioids (either by self-use or use by someone you know)

Interested?

Please contact the study team to learn more and enroll:

- [insert phone number]
- [insert email address]
