Fellowship Application

Now Accepting Fellowship Applications

The CFPF is now accepting fellowship applications for the cohort entering in June 2023.

The deadline for all applications is 11:59 pm, U.S. Eastern Daylight Time on August 1, 2022. To apply, you must create a fellowship application by following the instructions provided below.

The deadline for all supporting documentation (Letters of Reference, Letters of Assurance, Proof of Employment) is 11:59 pm U.S. Eastern Daylight Time on August 15, 2022. All supporting documentation must be requested through your application account.

For more information about completing a fellowship application, please see [How to Apply](#).

Creating a Fellowship Application

To create a fellowship application, you must first establish a Login Service Account. Once you have an account, you may complete your application.

Step 1: Request a Login Service Account

To begin a fellowship application, you must first have a Login Service Account. The account allows you to manage your username and password and provides greater security for your personal information.

- If you do not already have a Login Service Account, then you must request an account. If you have a Login Service Account, then proceed to step 2.
- Please allow 1-2 business days for your account to be approved. You should allow sufficient time to create the account before the August 1, 2022 deadline.
- You will be notified by e-mail when your request has been approved.
- **You will need to activate your account by clicking a link provided in the approval email. If the activation e-mail does not arrive in your inbox, please be sure to check your spam or junk folder.** The activation e-mail contains an activation link that is valid for only one day. If the link has expired, please reply to the activation email and request that the activation link be resent.

[Request a Login Service Account](#)

Step 2: Begin Your Fellowship Application

Once your Login Service Account has been created, you may begin your fellowship application.

- If this is your **first time** creating a fellowship application, then you will log in, complete a brief form, and begin your application.
- If you are a **returning user** who created a fellowship application in a past year, then you will log in. If you have not previously done so, you will then link your Login Service account to your application, and begin. Once the link is made, you will not be asked to do it again.

[First Time Applicant](#)

[Returning Users: Log In](#)

Technical support is available Monday through Friday from 9:00 AM to 5:00 PM U.S. Eastern Time. For help, please contact cfpf@imsweb.com.

Application System

OMB No.: 0925-0761

Expiration Date: 07/31/2025

Collection of this information is authorized by The Public Health Service Act, Section 411 (42 USC 285a). Rights of participants are protected by The Privacy Act of 1974. Participation is voluntary, and there are no penalties for not participating or withdrawing at any time. Refusal to participate will not affect your benefits in any way. The information collected will be kept private to the extent provided by law. Names and other identifiers will not appear in any report. Information provided will be combined for all participants and reported as summaries. You are being asked to complete this instrument so that we can assess the effectiveness of it.

Public reporting burden for this collection of information is estimated to average 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0761). Do not return the completed form to this address.

[IMS Login Service](#)

The image shows a screenshot of the IMS Login Service sign-in page. At the top center is the IMS logo, which consists of the letters "ims" in a bold, italicized font, with "LOGIN SERVICE" in a smaller, all-caps font below it. Below the logo is the heading "Sign In". There are two input fields: "Username" and "Password". The "Username" field is currently active, indicated by a blue border and a vertical cursor. Below the "Password" field is a checkbox labeled "Remember me". A dark blue button labeled "Sign In" is positioned below the checkbox. Below this button is a horizontal line with the word "OR" centered between two short horizontal dashes. Underneath this is another dark blue button labeled "Forgot Password?". At the bottom of the form is the text "Need help signing in?".

Education

Please provide information on degrees conferred or expected to be conferred. Additionally, we would like to know if you have received postdoctoral training at the National Institutes of Health.

Degrees Awarded or Expected

- Provide each *graduate and undergraduate degree* awarded or expected.
- Do not include postdoctoral fellowships, internships, certifications, or other training. These experiences may be described in your *curriculum vitae*.
- If you are currently enrolled in an accredited doctoral degree program but have not yet fulfilled all degree requirements, you must request a Letter of Assurance stating that all degree requirements will be completed before the start of the CFPF, June 2023. You can exit this application and go to the Assurance Letters tab to request a Letter of Assurance.
- You must upload UNOFFICIAL transcripts for each graduate and undergraduate degree listed below. You do not need to upload your transcripts to proceed with your application. However, they must be provided before you can *submit* your application.
- Upload your transcripts in PDF format (preferable) or as a Word document.
- Certified transcripts cannot be processed by this system. If you have a certified transcript, please scan it and upload the scanned version as a PDF.

Add a Degree

 To: John Smith <j.smith@example.com>
 From: Cancer Prevention Fellowship Program <cpfp@imsweb.com>
 Subject: Letter of Reference requested for CPFP application

Dear John Smith,

App Taufred has requested that you provide a letter of reference for her application to the NCI Cancer Prevention Fellowship Program. You were chosen by this applicant because of your knowledge of her scientific accomplishments, motivation, skills, and potential for leadership.

Please go to <https://www555.dev01.imsweb.com/fellowship/contribute.php?code=XXXXX> for further instructions and to upload your letter. **Your letter must be uploaded on or before 11:59 PM, August 15, 2022 U.S. Eastern Daylight Time.**

Technical Support is available Monday - Friday, from 9:00 am to 5:00 pm U.S. Eastern Daylight Time. If you have any problems with uploading your letter, please contact cpfp@imsweb.com immediately.

Thank you for your assistance.

Sincerely,
 Program Coordinator
 Cancer Prevention Fellowship Program
 National Cancer Institute
 Telephone: (+1) 240-276-5626
 Fax: (+1) 240-276-7883
 Email: cpfpcoordinator@mail.nih.gov

- You will see information about this request on the References tab.
- Once the individual submits the requested document, you will receive an email at app.taufred@gmail.com confirming that the documentation has been received.
- You are responsible for verifying that this documentation been submitted in time to meet the **August 15, 2022** deadline for supporting documentation.

Policies

Privacy Policy

The following is the Privacy Act Notification Statement for the Cancer Prevention Fellowship Program (CPFP), National Cancer Institute, NIH, DHHS

1. Government Authorization for the CPFP is as follows:

• **Purpose**

Cancer prevention and control is defined as the reduction of cancer incidence, morbidity, and mortality through an orderly sequence from research on interventions and their impact in defined populations to the broad systematic application of the research results. The National Cancer Institute's aim is to reduce the rate of cancer incidence, morbidity, and mortality in the whole population. Achievement of a reduction in cancer mortality rates mandates that scientists and health workers from relevant disciplines and fields be appropriately trained in cancer prevention and control research and applications. The Cancer Prevention Fellowship Program (CPFP) and NCI Summer Curriculum in Cancer Prevention have been developed to provide scientists and other health professionals with advanced training and practical research experiences in cancer prevention and control.

These training programs are authorized by Section 413(b)(3) of the Public Health Service Act, 42 U.S.C. 285a-2(b)(3) as modified by the Health Research Extension Act of 1985 pertaining to the NCI, which states that the Director of the Institute shall "...support appropriate programs of education and training (including continuing education and laboratory and clinical research training)," and Section 412(2), 42 U.S.C. 285a-1(2) which specifically requires that programs be established for "...the demonstration of and the education of students of the health professions and health professionals in..." areas related to cancer prevention and control.

• **Rationale/Justification:**

Development of these training programs is mandated by an insufficient number of physicians and scientists who are specifically trained for and prepared to devote their efforts to cancer prevention and control research and practice. While some states, cancer centers, and academic institutions are allocating funds for cancer programs, trained personnel to conduct these initiatives are sorely lacking. Increased technological breakthroughs in epidemiological, basic, and clinical research demand that experienced personnel be in place to build on this explosion of basic knowledge and to research its applicability to cancer prevention and control to reduce disease rates in human populations. At present, academic institutions do not offer specific and/or in-depth training of more than short-term duration in cancer prevention and control and only sporadic workshops and symposia have been developed. The Cancer Prevention Fellowship Program and NCI Summer Curriculum in Cancer Prevention are designed to address this need and expects to train highly qualified physicians and other doctoral level scientists and to promote their introduction to the field of cancer prevention and control.

2. Purpose of Information Collection

The primary use of this information collection is to evaluate an applicant's qualifications for training at the National Cancer Institute's Cancer Prevention Fellowship Program and NCI Summer Curriculum in Cancer Prevention and to process the applications.

3. Routine Uses for Information Disclosure

- In rare circumstances, information may be used to respond to congressional inquiries regarding constituents who have applied to the Cancer Prevention Fellowship Program or NCI Summer Curriculum in Cancer Prevention.
- Information may be used to respond to hospitals and other healthcare organizations seeking verification of training for physicians and other scientists who enroll in the Cancer Prevention Fellowship Program or NCI Summer Curriculum in Cancer Prevention.
- Some requested information will be used for internal program evaluation -- to improve the program and the application process -- and will not be used in the evaluation of the applicant. Information that will not be used in applicant evaluation is indicated in the online application.

4. Is the request voluntary or mandatory?

Application for this program is voluntary; however, for us to process your application, you must complete the required fields.
