Audit Review Period:		

Issue of non-compliance:	Provision of services

Scope:	• The scope of this Impact Analysis is limited to 50% of the participants enrolled during the audit review period who were not included in the provision of services sample selection. • The auditor will select the participants to be reviewed and enter their identifying information on the Participant Impact tab.	

Instructions:	• Review only the participant medical records selected by the auditor. The selected participants are identified in the Participant Impact tab. • Review the selected medical records (e.g., medical record documentation) to determine if any necessary services were not provided. POs should consider any documentation and/or evidence that shows provision of services including the medical record, invoices, outside specialist notes, etc. • A 'service' means all Medicare-covered services, all Medicaid-covered services, and other services determined necessary by the interdisciplinary team to improve and maintain the participant's overall health status, including items and drugs. • Respond to the questions in the participant impact tab. If a participant was not impacted by the condition (i.e., they received all services in a timely manner), the PO should enter No in column G and then NA in all additional blue fields. After completing the Impact Analysis, if any changes need to be made to the Root Cause Analysis, please update the RCA tab.
