Survey of Data Sharing Initiatives for Year 2 Case Study Site Selection

Thank you for taking the time to answer the following questions. Before we begin, I need to tell you that a Federal agency may not conduct or sponsor, and no individual or entity is required to respond to, nor shall an individual or entity be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act of 1995, unless that collection of information displays a currently valid OMB Control Number. The OMB number for this information collection is 0970-0531 and the expiration date is 7/31/2022.

How long has your data sharing initiative been operational?

1)

5)

non-governmental entities?

	years months
2)	Are operations ongoing? • Yes • No
3) (Sele	From which sectors does your data sharing initiative receive data? ect all that apply.)
	Human services
	Health care
	 Education
	 Criminal justice
	Other, specify
4)	Does your system connect data from people in different generations of the same family (e.g., parent-child, grandparent-child)? • Yes
	• No
	Comments (if any):

Do your data-contributing partners include both governmental and

	YesNoComments (if any):
6)	How many entities have contributed data to your data sharing initiative in total? Number:
	Comments (if any):
7) acros	Does your data sharing initiative share data across jurisdictions (i.e., as states, counties, or with tribal organizations)? • Yes (GO TO #8) • No (SKIP to #9)
8)	If yes, is the cross-jurisdictional data sharing (check all that apply) • Across state lines • Across county lines • With tribal organizations • Other, specify
	Comments (if any):
9)	Has your data sharing initiative been used to help service providers respond to the needs arising from the COVID-19 pandemic? • Yes • No Comments (if any):
10)	Do you have both internal and external data users?

- - Yes, we have both internal and external data users
 - No, we only have internal data users (SKIP TO #12)

	Comments (if any):	
l1) data	Approximately how many external data users are given access to yo in a typical year?	our
	Number:	
	Comments (if any):	
L2)	Does your data sharing program add value through analysis of data and development of data products, such as public use data sets or data tables and graphs for publication?	
	YesNo	
	Comments (if any):	
L3) circur	Do you feel your operations can be emulated by others or are your mstances unique?	
	 Yes, our operations can be emulated by others No, our circumstances are unique 	
	Comments (if any):	
L4)	Does your system have virtual data access and sharing? • Yes • No	
	Comments (if any):	

Data virtualization involves creating virtual views of data stored in existing databases. The physical data doesn't move but you can still get an integrated view of the data in the new virtual data layer. This is often called data federation (or virtual database), and the underlying databases are the federates.
