

PURPOSE: This short survey will be used to assess child welfare staff perceptions of the outcomes of brief courses of tailored services provided by Centers. The survey will be administered to tribal child welfare jurisdiction staff and CIP staff who were directly engaged in tailored service brief projects, at the close of those services. The Center for States administers a similar instrument that includes these same items, plus additional items that are specific to states, which is listed separately in the instruments table. (That instrument is named CBCS – Tailored Services Brief Project Survey.)

Evaluation of the Child Welfare Capacity Building Collaborative Brief Tailored Services Survey

Thank you for considering participation in this survey! The Children’s Bureau funded James Bell Associates (JBA) and ICF to conduct a cross-center evaluation of the Capacity Building Collaborative. As part of that evaluation, this survey is an opportunity to learn about your experiences with tailored services your [state/tribe/Court Improvement Program (CIP)] received from the [Center] as part of the [name of project] in which you engaged. We realize how limited your time is; the survey should take an average of 3 minutes to complete. Your participation in the survey is voluntary. You may refuse to take part in the survey or exit the survey at any time. You may decline to answer any question you do not wish to answer. There are no risks involved in participating in the survey. While you will not receive any direct benefits from participating in this survey, your responses provide information which will support Center improvements.

Your survey responses will be stored in a password-protected electronic database. Only JBA team members will be able to access survey data. Your name or any other personally identifying information will not appear in any report. Your survey responses will remain private to the extent permitted by law. Data will be shared with the [Center]. Survey data will be kept by the JBA through MONTH YEAR.

If you have questions or concerns about the survey or evaluation, you may contact Project Director James DeSantis at desantis@jbassoc.com
