### Instruction for Survey Development and Administration

For each peer to peer event hosted by the Center for States, a survey will be created in on-line survey software to gather feedback that can inform project planning. Given the customization of each event, it is important to be able to get feedback from recipients without creating undue burden by answering excessive questions that only marginally apply. To address this, the survey will be tailored to the unique information needs of each event to ensure low burden while informing high quality service provision. When creating each on-line survey, event developers in collaboration with the evaluation team will use the required questions listed below and choose up to 9 context-specific optional questions that can be added to the survey, as needed. This will allow for unique information needs to be met.

It is expected that each tailored survey will have no more than 25 questions, including 16 required questions and a maximum of 9 optional questions, with a burden of no more than 5 minutes.

#### Survey Introduction Text

The Capacity Building Collaborative is committed to continuously improving the relevance and utility of services provided. Please take a few minutes to provide your feedback on the peer exchange. Your comments will be incorporated into future activities planning and will help strengthen Capacity Building Collaborative services to better meet your needs. Your participation in this survey is entirely voluntary, and your responses will be reported in the aggregate. The survey should take about 5 minutes to complete. If you have any questions, please contact Christine Leicht, Capacity Building Center for States Evaluation Lead at <a href="https://creativecommons.org/linearized-commons
