INTRODUCTION

Mathematica is conducting the Early Care and Education Leadership Study (ExCELS) with the Institute for Early Education Leadership and Innovation at the University of Massachusetts Boston for the Office of Planning, Research, and Evaluation within the Administration for Children and Families in the U.S. Department of Health and Human Services.

Thank you in advance for your participation in ExCELS!

The survey asks about the people in your center who make decisions about what happens in the center, center operations, how staff work together in the center, how your center works with families and the community, and your center's culture and work environment. We will also ask about your background, work experience, and your job satisfaction and stress.

Taking part in this study is voluntary. You may refuse to answer any questions you are not comfortable answering. The purpose of this study is to learn about leadership in early care and education centers. There are no risks or direct benefits from taking part in the study. We will use the information the study collects only for research purposes and in ways that will not reveal who you are or identify your center or its staff. We have a certificate of confidentiality from the National Institutes of Health. It helps us protect your privacy. This means no one can force the study team to give out information that identifies you, even in court. However, in some cases federal or state laws might require us to show information to government officials (or sponsors) who monitor the safety of this study. Publications about the study will not identify anyone from the center. Nor will they identify the center itself. We will share some of information the study collects with qualified individuals for research purposes. Nothing we share will identify people or specific centers. If you have questions about ExCELS, please contact Annalee Kelly, the survey director, at [STUDY PHONE] or by email at [STUDY EMAIL].

The survey will take about 60 minutes to complete. The survey invitation packet we sent you had a \$5 gift card as a thank you for helping us. We will offer you a \$35 electronic gift card after you complete the survey!

We hope that you will take part in ExCELS. Please place an "X" in the box below if you agree to take the survey.

By placing an "X" in the box to the left, I agree that I understand the purposes of this study, including any privacy assurances, and that my participation is voluntary.

The next page provides you with general instructions on how to complete the survey.

HOW TO COMPLETE THE SURVEY

There are no right or wrong answers to the questions. Please answer questions in the order they appear, regardless of the question number. You may be asked to skip some questions that don't apply to you.
