

**MARINE TERMINALS (29 CFR PART 1917)
AND LONGSHORING (29 CFR PART 1918)
OMB Control Number: 1218-0196
Expiration Date: July 31, 2022**

**SUPPORTING STATEMENT FOR
THE INFORMATION COLLECTION REQUIREMENTS OF
THE STANDARDS ON MARINE TERMINALS (29 CFR PART 1917)¹
AND LONGSHORING (29 CFR PART 1918)
OFFICE OF MANAGEMENT AND BUDGET (OMB)
CONTROL NO. 1218-0196 (June 2022)**

This ICR is requesting the extension of a currently approved data collection.

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.

The main purpose of the Occupational Safety and Health Act (“OSH Act”) is to “assure so far as possible every working man and woman in the Nation safe and healthful working conditions and to preserve our human resources” (29 U.S.C. 651). To achieve this objective, the OSH Act specifically authorizes “the development and promulgation of occupational safety and health standards” (29 U.S.C. 651).

Section 6(b)(7) of the OSH Act states that “[a]ny standard promulgated under this subsection shall prescribe the use of labels or other appropriate forms of warning as are necessary to insure that employees are apprised of all hazards to which they are exposed, relevant symptoms and appropriate emergency treatment, and proper conditions and precautions of safe use or exposure” (29 U.S.C. 655). The OSH Act also specifies that “[e]ach employer shall make, keep and preserve, and make available to the Secretary . . . such records . . . as the Secretary . . . may prescribe by regulation as necessary or appropriate for the enforcement of this Act . . .” (29 U.S.C. 657).

Under the authority granted by the OSH Act, the Occupational Safety and Health Administration (“OSHA” or “the Agency”) published standards on Marine Terminal Operations (29 CFR part 1917) and Longshoring (29 CFR part 1918). The standards contain requirements related to the testing, certification and marking of specific types of cargo lifting appliances and associated cargo handling gear and other cargo handling equipment such as conveyors and industrial trucks. The collections of information required from employers by OSHA are necessary to reduce employee injuries and fatalities associated with cargo lifting gear, transfer of vehicular cargo, manual cargo

¹The purpose of this Supporting Statement is to analyze and describe the burden hours and costs associated with provisions of the standards that contain paperwork requirements; this Supporting Statement does not provide information or guidance on how to comply with, or how to enforce, the standards.

**MARINE TERMINALS (29 CFR PART 1917)
AND LONGSHORING (29 CFR PART 1918)
OMB Control Number: 1218-0196
Expiration Date: July 31, 2022**

handling, and exposure to hazardous atmospheres. Item 12 below describes the specific information collection requirements of the Standards.

2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.

The collections of information required by the standards are used by employers to ensure that employees are informed properly about the safety and health hazards associated with marine terminal operations and longshoring. OSHA uses the records developed in response to the collection of information requirements to find out if the employer is complying adequately with the provisions of the standards. The collections of information requirements contain in the Marine Terminals and Longshoring Standards are found in Tables 2 and 3.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also, describe any consideration of using information technology to reduce burden.

Employers may use automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology (e.g., electronic submission of responses), when establishing and maintaining the required records. The Agency wrote the paperwork requirements of the standards in performance-oriented language, i.e., in terms of what data to collect, not how to record the data.

4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item A.2 above.

OSHA coordinated the preparation of its standards, including the information collection requirements, with appropriate individuals from other Federal OSHA programs, state OSHA programs, and the U.S. Coast Guard (USCG) to avoid duplication of effort. OSHA reviewed standards addressing similar operations in industries regulated by other parts of title 29 (i.e., part 1910 for general industry and part 1926 for the construction industry) to ensure that there was no duplication of effort.

5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden.

**MARINE TERMINALS (29 CFR PART 1917)
AND LONGSHORING (29 CFR PART 1918)
OMB Control Number: 1218-0196
Expiration Date: July 31, 2022**

The information collection requirements of the standards on Marine Terminals and Longshoring do not have a significant impact on a substantial number of small entities.

6. Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

The frequencies for collecting information under these requirements are the necessary minimums. The Agency believes that the failure of the employer to collect and distribute the information required by the information collection requirements in the regulations will significantly affect the cooperative effort between OSHA and the employer to ensure employee safety through controlling or reducing injuries and fatalities in marine terminal operations and longshoring. Likewise, any Federal program or policy activities or decisions that would reduce or eliminate the collections of information required in these standards would also affect OSHA's efforts to ensure employee safety and health in the workplace.

7. Explain any special circumstances that would cause an information collection to be conducted in a manner:

- **Requiring respondents to report information to the agency more often than quarterly;**
- **Requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;**
- **Requiring respondents to submit more than an original and two copies of any document;**
- **Requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years;**
- **In connection with a statistical survey, that is not designed to produce valid and reliable results that can be generalized to the universe of study;**
- **Requiring the use of a statistical data classification that has not been reviewed and approved by OMB;**

**MARINE TERMINALS (29 CFR PART 1917)
AND LONGSHORING (29 CFR PART 1918)
OMB Control Number: 1218-0196
Expiration Date: July 31, 2022**

- **That includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or**
- **Requiring respondents to submit proprietary trade secret, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.**

No special circumstances exist which require employers to collect information in the manner or using the procedures specified by this item. The information collection requirements are consistent with the guidelines provided in 5 CFR 1320.5.

8. If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the agency's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection before submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to those comments specifically address comments received on cost and hour burdens.

Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, revealed, or reported.

Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every three years -- even if the collection of information activity is the same as in prior periods. There may be circumstances that mitigate against consultation in a specific situation. These circumstances should be explained.

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), OSHA published a notice in the *Federal Register* on March 29, 2022 (87 FR 18041) under docket number OSHA-2012-0016, requesting public comment on its proposed extension of the information collection requirements specified by the Standards on Marine Terminal Operations (29 CFR part 1917) and Longshoring (29 CFR part 1918). This notice is part of a preclearance consultation program that provides those interested parties the opportunity to comment on OSHA's request for an extension by the Office of Management and Budget (OMB) of previous approval of the information collection requirements found in the Standards. The agency did not receive any comments in response to this request.

**MARINE TERMINALS (29 CFR PART 1917)
AND LONGSHORING (29 CFR PART 1918)
OMB Control Number: 1218-0196
Expiration Date: July 31, 2022**

9. Explain any decision to provide any payments or gift to respondents, other than remuneration of contractors or grantees.

The Agency does not provide payments or gifts to the respondents.

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy.

No elements of confidentiality are involved.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the Agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.

None of the provisions in the regulations requires sensitive information.

12. Provide estimates of the hour burden of the collection of information. The statement should:

- **Show the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated hour burdens, and explain the reasons for the variance. General estimates should not include burden hours customary and usual business practices.**
- **If this request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burden.**
- **Provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection**

**MARINE TERMINALS (29 CFR PART 1917)
AND LONGSHORING (29 CFR PART 1918)
OMB Control Number: 1218-0196
Expiration Date: July 31, 2022**

activities should not be included here. Instead, this cost should be included in Item 14.

Respondent Burden Hour and Cost Determinations

OSHA's estimates of the burden hours for each information collection requirement are shown below. The estimates are based on data from the United States Census Bureau-- County Business Patterns (CBP) from 2019, the Bureau of Labor Statistics (BLS), and other Department of Labor staff expertise.

Marine terminal means wharves, bulkheads, quays, piers, docks, and other berthing locations and adjacent storage or adjacent areas and structures associated with the primary movement of cargo or materials from vessel to shore to vessel including structures which are devoted to receiving, handling, holding, consolidating, and loading or delivery of waterborne shipments or passengers, including areas devoted to the maintenance of the terminal or equipment. The term does not include production or manufacturing areas nor does the term include storage facilities directly associated with production or manufacturing areas.

Longshoring operations mean the loading, unloading, moving, or handling of cargo, ship's stores, gear, or any other materials, into, in, on, or out of any vessel.

OSHA identifies all the affected establishments in the industry profile (see Tables 2 and 3); the port and harbor operations (NAICS 488310) has 350 establishments affected,² the deep sea freight transportation (NAICS 483111) has 286 establishments affected,³ and coastal and great lakes freight transportation (NAICS 483113) has 544 establishments affected.⁴ Overall, OSHA estimated that there are 350 marine cargo-handling facilities in Marine Terminals, and 830 in longshoring.

Many of the requirements in 29 CFR part 1918 have been in existence as Federal requirements for 30 years or more and are the result of international agreements required under the Longshore and

²This ICR will use establishment data for port and harbor operations, marine cargo handling, using the NAICS 488310.

**MARINE TERMINALS (29 CFR PART 1917)
AND LONGSHORING (29 CFR PART 1918)
OMB Control Number: 1218-0196
Expiration Date: July 31, 2022**

Harbor Workers’ Compensation Act (33 U.S.C. 901 et seq.). These requirements have become usual and customary practices, especially where labor-management contracts exist.

OSHA has identified several requirements in the 1917 and 1918 standards that are subject to approval by OMB under the Paperwork Reduction Act of 1995. Tables 2 and 3 provide a listing of each information collection requirement and the estimated burden hours associated with the requirement.

OSHA is presenting the burden for 100% compliance even though many of these collections are one-time collections, such as posting signs, charts, etc. In many instances, the burdens were completed many years ago, maybe as many as over 30 years ago. For those collections that OSHA assumes as one-time events, OSHA is reflecting no burden. However, collections that recur on an annual basis will be calculated on that basis. OSHA has also indicated, where appropriate, a burden for information that may become lost, damaged, or otherwise in need of replacement during the period covered by this approval. All estimates are based on staff expertise and experience. In addition, the Agency uses the following wage rates⁵ in making the cost determinations for this Information Collection Request:

Table 1 – Estimated Wage Rates

Occupation	Standard Occupation Code (SOC)	Mean Hourly Wage A	Fringe Benefit B	Loaded Wage⁶ C= [A(1/1-B)]
First-Line Supervisor/Manager	53-1047	\$32.99	.292	\$46.60
Transportation Worker	53-5000	\$32.78	.292	\$46.30

⁵

May 2020, National Industry-Specific Occupational Employment and Wage Estimates for employees under NAICS 483000 – Water Transportation, U.S. Department of Labor, BLS, at . OSHA used OES code 53-1047 for the supervisor/manager, \$28.03, OES code 53-5000 for the transportation worker, \$32.78, and OES code 43-9061 for the office clerk, general, \$21.53. Wage rates include fringe benefits of 29.2% from *Employer Costs for Employee Compensation, September 2021*, <https://www.bls.gov/news.release/pdf/ecec.pdf>.

⁶ Wage rates include fringe benefits of 29.2% from *Employer Costs for Employee Compensation, September 2021*, <https://www.bls.gov/news.release/pdf/ecec.pdf>.

TOTALS FOR PART 1918				162,881		35,548			\$1,632,925	-3,656	

13. Provide an estimate of the total annual cost burden to respondents or recordkeepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14.)

The cost determinations made under Item 12 account for the total annual cost burden to respondents or recordkeepers resulting from these collection of information requirements.

14. Provide estimates of annualized cost to the Federal government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.

There are no costs to the Federal Government.

15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14.

OSHA is requesting an adjustment decrease in the number of burden hours from 57,797 hours to 55,030 hours, a difference of 2,767 hours. This adjustment is attributed to a change in the number of establishments engaged in longshoring and port and harbor operations. The number of longshoring operations decreased from 916 to 830 establishments, while the number of port and harbor operations increased from 332 to 350 establishments. Tables 2 and 3 summarize the burden hours and cost for each collection of information.

Table 4 – Summary of Estimated Adjusted Burden Hours

	Total Number of Responses	Total Requested Burden Hours	Total Current Burden Hours	Adjusted Burden Hour
TOTALS FOR PART 1917	74,139	19,482	18,593	889
TOTALS FOR PART 1918	162,881	35,548	39,204	-3,656
TOTALS FOR BOTH PARTS 1917 AND 1918	237,020	55,030	57,797	-2,767

16. For collections of information whose results will be published, outline plans for tabulation, and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection information, completion of report, publication dates, and other actions.

OSHA will not publish the information collected under the Standards.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be appropriate.

OSHA lists current valid control numbers in §§1910.8, 1915.8, 1917.4, 1918.4, and 1926.5 and publishes the expiration date in the Federal Register notice announcing OMB approval of the

OMB Control Number: 1218-0196
Expiration Date: July 31, 2022**

information collection requirement. (see 5 CFR 1320.3(f)(3)). OSHA believes that this is the most appropriate and accurate mechanism to inform interested parties of these expiration dates.

18. Explain each exception to the certification statement identified.

OSHA is not seeking an exception to the certification statement.

B. COLLECTION OF INFORMATION EMPLOYING STATISTICAL METHODS

The supporting statement does not contain any collection of information requirements that employ statistical methods.
