SUPPORTING STATEMENT

Internal Revenue Service

(Form 7004) Application for Automatic Extension of Time To File Certain Business Income Tax, Information, and Other Returns

OMB #1545-0233

1. CIRCUMSTANCES NECESSITATING COLLECTION OF INFORMATION

Section 6081(b) of the Internal Revenue Code allows a C corporation an automatic extension of 5, 6, or 7 months for filing an income tax return. The extension will be allowed if Form 7004 is filed properly by the due date and if the required tax is deposited.

2. USE OF DATA

This data is used by IRS to ascertain whether Form 7004 was timely filed, and the proper amount of tax was computed and deposited. The Form 7004 is used to request an automatic extension of time to file certain business income tax, information, and other returns.

3. <u>USE OF IMPROVED INFORMATION TECHNOLOGY TO REDUCE BURDEN</u>

We are currently offering electronic filing for Form 7004.

4. EFFORTS TO IDENTIFY DUPLICATION

The information obtained through this collection is unique and is not already available for use or adaptation from another source.

5. <u>METHODS TO MINIMIZE BURDEN ON SMALL BUSINESSES OR OTHER</u> SMALL ENTITIES

There is no flexibility to reduce burden on small businesses or other small entities because the statutes apply to small businesses and small entities.

6. <u>CONSEQUENCES OF LESS FREQUENT COLLECTION ON FEDERAL PROGRAMS OR POLICY ACTIVITIES</u>

Consequences of less frequent collection on federal programs or policy activities would result in taxpayers attempting to file certain business returns that are ineligible for the automatic extension of time to file; and inaccurately compute or deposit the amount of tax due.

7. SPECIAL CIRCUMSTANCES REQUIRING DATA COLLECTION TO BE INCONSISTENT WITH GUIDELINES IN 5 CFR 1320.5(d)(2)

There are no special circumstances requiring data collection to be inconsistent with Guidelines in 5 CFR 1320.5(d)(2).

8. CONSULTATION WITH INDIVIDUALS OUTSIDE OF THE AGENCY ON AVAILABILITY OF DATA, FREQUENCY OF COLLECTION, CLARITY OF INSTRUCTIONS AND FORMS, AND DATA ELEMENTS

In response to the Federal Register notice dated April 19,2022 (87 FR 23322), we received no comments during the comment period regarding Form 7004.

9. <u>EXPLANATION OF DECISION TO PROVIDE ANY PAYMENT OR GIFT TO RESPONDENTS</u>

No payment or gift will be provided to any respondents.

10. ASSURANCE OF CONFIDENTIALITY OF RESPONSES

Generally, tax returns and tax return information are confidential as required by 26 USC 6103.

11. JUSTIFICATION OF SENSITIVE QUESTIONS

A privacy impact assessment (PIA) has been conducted for information collected under this request as part of the "Business Master File (BMF)" and Privacy Act System of Records notices (SORN) has been issued for these systems under Treasury/IRS 24.046—Business Master File (BMF); Treasury/IRS 24.030-Customer Account Data Engine Master File; IRS 34.037–IRS Audit Trail and Security Records System. The Department of Treasury PIAs can be found at https://www.irs.gov/uac/Privacy-Impact-Assessments-PIA.

Title 26 USC 6109 requires inclusion of identifying numbers in returns, statements, or other documents for securing proper identification of persons required to make such returns, statements, or documents and is the authority for social security numbers (SSNs) in IRS systems.

12. ESTIMATED BURDEN OF INFORMATION COLLECTION

| Authority | Description | # of Respondent S | #Responses per Respondent | Annual Responses | Hours per Response | Total Burden |
|--------------|-------------|-------------------------|------------------------------|---------------------|-----------------------|-----------------|
| IRC §6081(b) | Form 7004 | 1,818,037 | 1 | 1,818,037 | 6.78 | 12,326,291 |
| Totals | | 1,818,037 | | | | 12,326.291 |

13. ESTIMATED TOTAL ANNUAL COST BURDEN TO RESPONDENTS

To ensure more accuracy and consistency across its information collections, IRS is currently in the process of revising the methodology it uses to estimate burden and costs. Once this methodology is complete, IRS will update this information collection to reflect a more precise estimate of burden and costs.

14. ESTIMATED ANNUALIZED COST TO THE FEDERAL GOVERNMENT

The Federal government cost estimate is based on a model that considers the following three cost factors for each information product: aggregate labor costs for development, including annualized start up expenses, operating and maintenance expenses, and distribution of the product that collects the information.

The government computes cost using a multi-step process. First, the government creates a weighted factor for the level of effort to create each information collection product based on variables such as: complexity, number of pages, type of product and frequency of revision. Second, the total costs associated with developing the product such as labor cost, and operating expenses associated with the downstream impact such as support functions, are added together to obtain the aggregated total cost. Then, the aggregated total cost and factor are multiplied together to obtain the aggregated cost per product. Lastly, the aggregated cost per product is added to the cost of shipping and printing each product to IRS offices, National Distribution Center, libraries and other outlets. The result is the Government cost estimate per product.

The government cost estimate for this collection is summarized in the table below.

| Product | Aggregate Cost per Product (factor applied) | | Printing and Distribution | | Government Cost Estimate per Product | | |
|---|--|---|------------------------------|---|---|--|--|
| Form 7004 | 26,633 | + | 0 | = | 26,633 | | |
| Instructions | 4,390 | + | 0 | = | 4,390 | | |
| Grand Total | 31,023 | | | | 31,023 | | |
| Table costs are based on 2021 actuals obtained from IRS Chief Financial Office and Media and Publications | | | | | | | |
| * New product costs will be included in the next collection update. | | | | | | | |

15. REASONS FOR CHANGE IN BURDEN

There are no material changes in the paperwork burden previously approved by OMB. However, the burden for Form 7004 has increase due to better estimates based on the number of taxpayers filing the form. This increases the burden by 1,164,287 (from 653,750 to 1,818,037) responses and 7,893,866 (from 4,432,425 to 12,326,291) hours due to adjustment in Agency Estimates.

| | | | | Potential Violation | Previously Approved |
|--|--|--|--|---------------------|------------------------|
|--|--|--|--|---------------------|------------------------|

| Annual Number of Responses | 1,818,037 | 0 | 0 | 1,164,287 | 0 | 653,750 |
|-----------------------------|------------|---|---|-----------|---|-----------|
| Annual Time Burden (Hr.) | 12,326,291 | 0 | 0 | 7,893,866 | 0 | 4,432,425 |

16. PLANS FOR TABULATION, STATISTICAL ANALYSIS AND PUBLICATION

There are no plans for tabulation, statistical analysis and publication.

17. <u>REASONS WHY DISPLAYING THE OMB EXPIRATION DATE IS</u> INAPPROPRIATE

IRS believes that displaying the OMB expiration date is inappropriate because it could cause confusion by leading taxpayers to believe that the form sunsets as of the expiration date. Taxpayers are not likely to be aware that the IRS intends to request renewal of the OMB approval and obtain a new expiration date before the old one expires.

18. EXCEPTIONS TO THE CERTIFICATION STATEMENT

There are no exceptions to the certification statement.

Note: The following paragraph applies to all of the collections of information in this submission:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.
