DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

[Docket No. TSA-2005-21866]

Extension of Agency Information Collection Activity Under OMB Review: Enhanced Security Procedures at Ronald Reagan Washington National Airport

AGENCY: Transportation Security Administration, DHS.

ACTION: 30-Day notice.

SUMMARY: This notice announces that the Transportation Security Administration (TSA) has forwarded the Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652-0035, abstracted below to OMB for review and approval of an extension of the currently approved collection under the Paperwork Reduction Act (PRA). TSA requires general aviation (GA) aircraft operators who wish to fly into or out of Ronald Reagan Washington National Airport (DCA) to designate a security coordinator and adopt the DCA Access Standard Security Program (DASSP). The collection also involves obtaining information for Armed Security Officers (ASOs).

DATES: Send your comments by June 23, 2022. A comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” and by using the find function.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh, TSA PRA Officer, Information Technology (IT), TSA-11, Transportation Security Administration, 6595 Springfield Center Drive, Springfield, VA 20598-6011; telephone (571) 227-2062; email TSAPRA@tsa.dhs.gov.

SUPPLEMENTARY INFORMATION: TSA published a **Federal Register** notice, with a 60-day comment period soliciting comments, of the following collection of information on February 17, 2022, 87 FR 9080.

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <http://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Title: Enhanced Security Procedures at Ronald Reagan Washington National Airport.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652-0035.

Forms(s): DASSP Aircraft Operator Application Form and Fixed Based Operator Application Form; and TSA Forms 3411 through 3416.

Affected Public: GA aircraft operators and passengers, ASOs, flight crewmembers, fixed base operators, and gateway airport operators.

Abstract: TSA is requesting an extension of this information collection. In accordance with 49 CFR part 1562, subpart B, TSA requires GA aircraft operators who wish to fly into or out of DCA to designate a security coordinator and adopt the DASSP. Once aircraft operators have complied with the DASSP requirements, they must request a slot reservation from the Federal Aviation Administration and request authorization from TSA for each flight into and out of DCA. This information collection is approved under OMB

control number 1652-0033, TSA Airspace Waiver Applications.

As part of the DASSP requirements, individuals designated as security coordinators, ASOs, and flight crewmembers assigned to duty on a GA aircraft flying into and out of DCA must submit fingerprints for a Criminal History Records Check (CHRC). In addition, GA aircraft operators must also maintain CHRC records of all employees and authorized representatives for whom a CHRC has been completed.

Under the Armed Security Officer Program (ASOP), DASSP approved entities can nominate candidates through an online nomination form. This form includes submitting various application materials to TSA, including fingerprints, so that TSA can vet the candidates for suitability for the ASOP. As part of TSA's vetting process, TSA conducts a law enforcement employment verification check and CHRC. TSA then adjudicates the application and issues a final determination of eligibility. All qualified applicants must then successfully complete a TSA-approved training course.

Number of Respondents: 160.

Estimated Annual Burden Hours: An estimated 174 hours annually.

Dated: May 18, 2022.

Christina A. Walsh,

*TSA Paperwork Reduction Act Officer,
Information Technology.*

We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered under the ESA.

Background

With some exceptions, the ESA prohibits activities that constitute take of listed species, unless a Federal permit is issued that allows such activity. The ESA's definition of "take" includes such activities as pursuing, harassing, trapping, capturing, or collecting, in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment
