CBI SUBMISSION

Form Approved. O.M.B. No. 2070-0012. Approval Expires 12/31/2022

U.S. ENVIRONMENTAL PROTECTION AGENCY		AGENCY USE ONLY	
 EPA	PREMANUFACTURE NOTICE		Date of receipt: _____
	FOR NEW CHEMICAL SUBSTANCES		
When completed, send this form to:	If sending by Courier: Office of Pollution Prevention and Toxics Document Control Office (7407M) US EPA, 1201 Constitution Ave NW WASHINGTON, D.C. 20460 Contact Numbers: 202-564-8930/8940	If sending by US Mail: Office of Pollution Prevention and Toxics Document Control Office (7407M) US EPA, 1200 Pennsylvania Ave NW WASHINGTON, D.C. 20460	Submission Report Number
Total Number of Pages		TS Number	
20		123456	
GENERAL INSTRUCTIONS			
<ul style="list-style-type: none"> You must provide all information requested in this form to the extent that it is known to or reasonably ascertainable by you. Make reasonable estimates if you do not have actual data. Before you complete this form, you should read the "Instructions Manual for Premanufacture Notification" (the Instructions Manual is available from the Toxic Substances Control Act (TSCA) Information Service by calling 202-554-1404, or faxing 202-554-5603). If a fee has been remitted for this notice (40 CFR 700.45), indicate in the boxes above the TS fee identification number you have generated. Remember, your fee ID number must also appear on your corresponding fee remittance. For mailing address information see the Help instructions in the e-PMN tool. 			
Part I – GENERAL INFORMATION		TEST DATA AND OTHER DATA	
<p>You must provide the currently correct Chemical Abstracts (CA) Name of the new chemical substance, even if you claim the identity as confidential. You may authorize another person to submit chemical identity information for you, but your submission will not be complete and the review will not begin until EPA receives this information. A letter in support of your submission should reference your TS fee identification number. For all Section 5 Notice submissions (paper or electronic) you must submit an original notice including all test data; if you claimed any information as confidential, an original sanitized copy must also be submitted.</p>		<p>You are required to submit all test data in your possession or control and to provide a description of all other data known to or reasonably ascertainable by you, if these data are related to the health and environmental effects on the manufacture, processing, distribution in commerce, use, or disposal of the new chemical substance. Standard literature citations may be submitted for data in the open scientific literature. <u>Complete test data (written in English), not summaries of data, must be submitted if they do not appear in the open literature.</u> You should clearly identify whether test data is on the substance or on an analog. Also, the chemical composition of the tested material should be characterized. Following are examples of test data and other data. Data should be submitted according to the requirements of §720.50 of the Premanufacture Notification Rule (40 CFR Part 720).</p>	
Part II – HUMAN EXPOSURE AND ENVIRONMENTAL RELEASE		Test Data (Check Below any included in this notice)	
<p>If there are several manufacture, processing, or use operations to be described in Part II, sections A and B of this notice, reproduce the sections as needed.</p>		<input checked="" type="checkbox"/> Environmental fate data <input type="checkbox"/> Other Data <input type="checkbox"/> Health effects data <input checked="" type="checkbox"/> Risk Assessments <input type="checkbox"/> Environmental effects data <input type="checkbox"/> Structure/activity relationships <input type="checkbox"/> Physical/Chemical Properties (A physical and chemical properties worksheet is located on the last page of this form.) <input type="checkbox"/> Test data not in the possession or control of the submitter	
Part III – LIST OF ATTACHMENTS		TYPE OF NOTICE (Check Only One)	
<p>For paper submissions, attach additional sheets if there is not enough space to answer a question fully. Label each continuation sheet with the corresponding section heading. In Part III, list these attachments, any test data or other data and any optional information included in the notice.</p>		<input checked="" type="checkbox"/> PMN (Premanufacture Notice) <input type="checkbox"/> SNUN (Significant New Use Notice) <input type="checkbox"/> TMEA (Test Marketing Exemption Application) <input type="checkbox"/> LVE (Low Volume Exemption) @ 40 CFR 723.50(c)(1) <input type="checkbox"/> LOREX (Low Release/Low Exposure Exemption) @ 40 CFR 723.50(c)(2) <input type="checkbox"/> LVE Modification <input type="checkbox"/> LOREX Modification <input type="checkbox"/> Mock Submission <input type="checkbox"/> Mark (X) if pending Letter of Support	
OPTIONAL INFORMATION		<input type="checkbox"/> IS THIS A CONSOLIDATED PMN (Y/N)? N _____	
<p>You may include any information that you want EPA to consider in evaluating the new substance. On page 11 of this form, space has been provided for you to describe pollution prevention and recycling information you may have regarding the new substance. "Binding" boxes are included throughout this form for you to indicate your willingness to be bound to certain statements you make in this section, such as use, production volume, protective equipment . . . The intention is to reduce delays that routinely accompany the development of consent orders or Significant New Use Rules. Checking a "binding" box in a PMN does not by itself prohibit the submitter from later deviating from the information (except chemical identity) reported in the form; however, in the case of exemption applications (such as TMEA, LVE, LOREX) certain information provided in such notifications is binding on the submitter when the Agency approves the exemption application, especially if the production volume "binding" box is chosen in a LVE.</p>		# of chemicals or polymers (Prenotice Communication # required, enter # on p. 3). 1 _____	
CONFIDENTIALITY CLAIMS		<input checked="" type="checkbox"/> Mark (X) if any information in this notice is claimed as confidential.	
<p>You may claim any information in this notice as confidential. To assert a claim on the form, mark (X) the confidential box next to the information that you claim as confidential. To assert a claim in an attachment, circle or bracket the information you claim as confidential. <u>If you claim information in the notices as confidential, you must also provide a sanitized version of the notice, (including attachments).</u> For additional instructions on claiming information as confidential, read the Instructions Manual.</p>			

The public reporting and recordkeeping burden for this collection of information is estimated to average 93 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed EPA Form 7710-25 to this address.

CERTIFICATION -- A printed copy of this signature page, with original signature, must be submitted with CD or paper submission.

I hereby certify to the best of my knowledge and belief that all information entered on this form is complete and accurate. I further certify that, pursuant to 15 U.S.C. § 2613(c), for all claims for protection for any confidential information made with this submission, all information submitted to substantiate such claims is true and correct, and that it is true and correct that the person submitting the claim has:

- (i) taken reasonable measures to protect the confidentiality of the information;
- (ii) determined that the information is not required to be disclosed or otherwise made available to the public under any other Federal law
- (iii) a reasonable basis to conclude that disclosure of the information is likely to cause substantial harm to the competitive position of the person; and
- (iv) a reasonable basis to believe that the information is not readily discoverable through reverse engineering.

Any knowing and willful misrepresentation is subject to criminal penalty pursuant to 18 U.S.C. § 1001.

Additional Certification Statements:

If you are submitting a PMN, SNUN, LoREX, LVE, or TMEA, check the following Fees Certification statement that applies:

- The Company named in Part I, Section A is a "small business concern" as defined under 40 CFR 700.43 and will remit the fee as specified in 40 CFR 700.45(c).
- The Company named in Part I, Section A will remit the fee as specified in 40 CFR 700.45(c).
- This joint submission includes at least one Company which is a "small business concern" and at least one Company which is not a "small business concern," as defined under 40 CFR 700.43. The fee will be remitted with the joint submission. Any remaining balance due for this joint submission is to be paid by the secondary submitter(s).
- The company named in Part I, Section A is submitting a sustainable futures TME. The company has graduated from EPA's Sustainable Futures program and is therefore exempt from fees for this sustainable futures TME.

If you are submitting a **Low Volume Exemption (LVE)** application in accordance with 40 CFR 723.50(c)(1) or a **Low Release and Low Exposure Exemption (LoRex)** application in accordance with 40 CFR 723.50(c)(2), check the following certification statements:

- The manufacturer submitting this notice intends to manufacture or import the new chemical substance for commercial purposes, other than in small quantities solely for research and development, under the terms of 40 CFR 723.50.
- The manufacturer is familiar with the terms of this section and will comply with those terms; and
- The new chemical substance for which the notice is submitted meets all applicable exemption conditions.
- If this application is for an LVE in accordance with 40 CFR 723.50(c)(1), the manufacturer intends to commence manufacture of the exempted substance for commercial purposes within 1 year of the date of the expiration of the 30 day review period.

CBI SUBMISSION

Part I – GENERAL INFORMATION -- Continued

Section B – CHEMICAL IDENTITY INFORMATION:		You must provide a currently correct Chemical Abstracts (CA) name of the substance based on current CA index nomenclature rules and conventions.		
Mark (X) the "Confidential" box next to any item you claim as confidential				
Complete either item 1 (Class 1 or 2 substances) or 2 (Polymers) as appropriate. Complete all other items.				
If another person will submit chemical identity information for you (for either Item 1 or 2), mark (X) the box at the right. Identify the name, company, and address of that person in a continuation sheet.				<input type="checkbox"/>
1. Class 1 or 2 chemical substances (for definitions of class 1 and class 2 substances, see the Instructions Manual)		Class 1	Class 2	CBI
a. Class of substance - Mark (X)		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Chemical name (Currently correct Chemical Abstracts (CA) Name that is consistent with TSCA Inventory listings for similar substances. For Class 1 substances a CA Index Name must be provided. For Class 2 substances either a CA Index Name or CA Preferred Name must be provided, which ever is appropriate based on current CA index nomenclature rules and conventions).				<input type="checkbox"/>
2-Propanol, 1-[(2-aminoethyl)amino]-				
CAS Registry Number (if a number already exists for the substance)		123-84-2		
c. Please identify which method you used to develop or obtain the specified chemical identity information reported in this notice: (check one).				
Method 1 (CAS Inventory Expert Service - a copy of the Identification report obtained from the CAS Inventory Expert Services must be submitted as an attachment to this notice)		IES Order Number	Method 2 (Other Source)	
<input type="checkbox"/>			<input checked="" type="checkbox"/>	
Enter Attachment filename for Part I, Section B, 1. c.				<input type="checkbox"/>
d. Molecular formula	00123			<input checked="" type="checkbox"/>
e. For a class 1 substance, provide a complete and correct chemical structure diagram. For a class 2 substance, provide a correct representative or partial chemical structure diagram, as complete as can be known, if one can be reasonably ascertained.				<input checked="" type="checkbox"/>
See Attachment (Original Document: 1 cgi-logo.png)				
Enter Attachment filename for Part I, Section B, 1. e.				<input type="checkbox"/>

PMN2021P4A

PMN Page 4a

CBI SUBMISSION

For a class 2 substance - (1) List the immediate precursor substances with their respective CAS Registry Numbers. (2) Describe the nature of the reaction or process. (3) Indicate the range of composition and the typical composition (where appropriate).

Confidential

e. (1) List the immediate precursor substance names with their respective CAS Registry Numbers.

Enter Attachment filename for Part I, Section B, 1. e. (1)

e. (2) Describe the nature of the reaction or process.

Enter Attachment filename for Part I, Section B, 1. e. (2)

e. (3) Indicate the range of composition and the typical composition (where appropriate).

Enter Attachment filename for Part I, Section B, 1. e. (3)

Section B -- CHEMICAL IDENTITY INFORMATION -- Continued

3. Impurities

- (a) - Identify each impurity that may be reasonably anticipated to be present in the chemical substance as manufactured for commercial purpose. Provide the CAS Registry Number if available. If there are unidentified impurities, enter "unidentified."
 (b) - Estimate the maximum weight % of each impurity. If there are unidentified impurities, estimate their total weight %.

Impurity (a)	CAS Registry Number (a)	Maximum Percent % (b)	Confidential
Propanoic acid, 2-hydroxy-, sodium salt (1:1)	72-17-3	70.0	

Mark (X) this box if the data continues on the next page. Enter Attachment filename for Part I, Section B, 3. 4. Synonyms - Enter any chemical synonyms for the new chemical identified in subsection 1 or 2.
Synonym Test, Enter Attachment filename for Part I, Section B, 4. Original Document: 2 epa-logo.png 5. Trade identification - List trade names for the new chemical substance identified in subsection 1 or 2.
Trade Name Test, Enter Attachment filename for Part I, Section B, 5.

6. Generic chemical name - If you claim chemical identify as confidential, you must provide a generic name for your substance that reveals the specific chemical identity of the new chemical substance to the maximum extent possible. Refer to the TSCA Chemical Substance Inventory, 1985 Edition, Appendix B for guidance on developing generic names.

Enter Attachment filename for Part I, Section B, 6.

7. Byproducts - Describe any byproducts resulting from the manufacture, processing, use, or disposal of the new chemical substance. Provide the CAS Registry Number if available.

Byproduct (1)	CAS Registry Number (2)	Confidential
Benzenethiol, 4-bromo-	106-53-6	

Mark (X) this box if the data continues on the next page.

PMN Page 6

Part I -- GENERAL INFORMATION -- Continued

Section B -- CHEMICAL IDENTITY INFORMATION -- Continued

2. Polymers (For a definition of polymer, see the Instructions Manual.) Confidential

a. Indicate the number-average weight of the lowest molecular weight composition of the polymer you intend to manufacture. Indicate maximum weight percent of low molecular weight species (not including residual monomers, reactants, or solvents) below 500 and below 1,000 absolute molecular weight of that composition.

Describe the methods of measurement or the basis for your estimates:

GPC Other (Specify Below)

Specify Other:

Table with 3 columns: (i) lowest number average molecular weight, (ii) maximum weight % below 500 molecular weight, (iii) maximum weight % below 1000 molecular weight.

Enter Attachment filename for Part I, Section B, 2. a.

b. You must make separate confidentiality claims for monomer or other reactant identity, composition information, and residual information. Mark (X) the "Confidential" box next to any item you claim as confidential

- (1) - Provide the specific chemical name and CAS Registry Number (if a number exists) of each monomer or other reactant used in the manufacture of the polymer.
(2) - Mark (X) this column if entry in column (1) is confidential.
(3) - Indicate the typical weight percent of each monomer or other reactant in the polymer.
(4) - Choose "yes" from drop down menu if you want a monomer or other reactant used at two weight percent or less to be listed as part of the polymer description on the TSCA Chemical Substance Inventory.
(5) - Mark (X) this column if entries in columns (3) and (4) are confidential.
(6) - Indicate the maximum weight percent of each monomer or other reactant that may be present as a residual in the polymer as manufactured for commercial purposes.
(7) - Mark (X) this column if entry in column (6) is confidential.

Table with 7 columns: Monomer or other reactant specific chemical name (1), CBI (2), Typical composition (3), Include in identity (4), CBI (5), Max residual (6), CBI (7). Includes rows for CAS Registry Number (1).

Mark (X) this box if the data continues on the next page.

Section C -- PRODUCTION, IMPORT, AND USE INFORMATION:

The information on this page refers to consolidated chemical number(s): 1 2 3 4 5 6

Mark (X) the "Confidential" box next to any item you claim as confidential.

1. Production volume -- Estimate the **maximum** production volume during the first 12 months of production. Also estimate the maximum production volume for any consecutive 12-month period during the first three years of production. Estimates should be on 100% new chemical substance basis. For a Low Volume Exemption application, if you choose to have your notice reviewed at a lower production volume than 10,000 kg/yr, specify the volume and mark (x) in the binding box. If granted, you are bound to this volume.

Maximum first 12-month production (kg/yr) (100% new chemical substance basis)	Maximum 12-month production (kg/yr) (100% new chemical substance basis)	Binding Option Mark (X)	Confidential
5000	50000	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Enter Attachment filename for Part I, Section C, 1.		Original Document: 3 Hazard Logo.jpg	CBI <input checked="" type="checkbox"/>

2. Use Information -- You must make separate confidentiality claims for the description of the category of use, the percent of production volume devoted to each category, the formulation of the new substance, and other use information. Mark (X) the "Confidential" Box next to any item you claim as confidential.

- a. (1) --Describe each intended category of use of the new chemical substance by function and application.
 (2) --Indicate your willingness to have the information provided in column (1) binding.
 (3) --Mark (X) this column if entry column (1) is confidential business information (CBI).
 (4) --Estimate the percent of total production for the first three years devoted to each category of use.
 (5) --Mark (X) this column if entry in column (4) is confidential business information (CBI).
 (6) --Estimate the percent of the new substance as formulated in mixtures, suspensions, emulsions, solutions, or gels as manufactured for commercial purposes at sites under your control associated with each category of use.
 (7) --Mark (X) this column if entry in column (6) is confidential business information (CBI).
 (8) --Indicate % of product volume expected for the listed "use" sectors. Mark more than one box if appropriate. Mark (X) to indicate your willingness to have the use type provided in (8) binding.
 (9) --Mark (X) this column if entry(ies) in column (8) is (are) confidential business information (CBI).

Category of use (1) (by function and application i.e. a dispersive dye for finishing polyester fibers)	Binding Option Mark (X) (2)	CBI (3)	Prod uction % (4)	CBI (5)	% in Form- ulation (6)	CBI (7)	% of substance expected per use (8)					CBI (9)

Testing Category of Use		X	100.0	X	100.0	X	10.0	50.0	15.0	25.0		X

* If you have identified a "consumer" use, please provide on a continuation sheet a detailed description of the use(s) of this chemical substance in consumer products. In addition include estimates of the concentration of the new chemical substance as expected in consumer products and describe the chemical reactions by which this substance loses its identity in the consumer product.

Mark (X) this box if the data continues on the next page.

- b. Generic use description If you claim any category of use description in subsection 2a as confidential, enter a generic description of that category. Read the Instruction Manual for examples of generic use descriptions.

Testing Testing Test Test

Enter Attachment filename for Part I, Section C, 2. b.	CBI	<input type="checkbox"/>
3. Hazard Information -- Include in the notice a copy of reasonable facsimile of any hazard warning statement, label, material safety data sheet, or other information which will be provided to any person who is reasonably likely to be exposed to this substance regarding protective equipment or practices for the safe handling, transport, use, or disposal of the new substance. List in part III hazard information you include.		Binding Option Mark (X)
Mark (X) this box if you attach hazard information.		<input type="checkbox"/>

Part II-- HUMAN EXPOSURE AND ENVIRONMENTAL RELEASE

Section A -- INDUSTRIAL SITES CONTROLLED BY THE SUBMITTER

Mark (X) the "Confidential" box next to any item you claim as confidential

The information on pages 8 and 8a refer to consolidated chemical number(s): [X] 1 [] 2 [] 3 [] 4 [] 5 [] 6

Complete section A for each type of manufacture, processing, or use operation involving the new chemical substance at industrial sites you control. Importers do not have to complete this section for operations outside the U.S.; however, you may still have reporting requirements if there are further industrial processing or use operations after import. You must describe these operations. See instructions manual

1. Operation description
a.1 Identity -- Enter the identity of the site at which the operation will occur. Confidential

Table with site details: Name (1A), Site address (804 E ST MARY BLVD), City (LAFAYETTE), County (LAFAYETTE PARISH), State (LA), ZIP code (70503). Confidential box checked.

1.a.2 If the same operation will occur at more than one site, enter the number of sites. Identify the additional sites on a continuation sheet, and if any of the sites have significantly different production rates or operations, include all the information requested in this section for those sites as attachments. 1 Confidential

Mark (X) this box if the data continues on the next page. []

b. Type -- Manufacturing [] Processing [X] Use [] Confidential

c. Amount and Duration -- Complete 1 or 2 as appropriate Confidential

Table with 4 columns: Batch type, Maximum kg, Hours, Batches/Days per year. Row 1: Batch, 1500.0 kg, 120.0 hours, 60.0 batches/year. Row 2: Continuous, blank, blank, blank. Confidential box checked.

d. Process description Mark (X) to indicate your willingness to have your process description binding. [X] Confidential

- (1) Diagram the major unit operation steps and chemical conversions. Include interim storage and transport containers (specify- e.g. 5 gallon pails, 55 gallon drum, rail car, tank truck, etc.).
(2) Provide the identity, the approximate weight (by kg/day or kg/batch on a 100% new chemical substance basis), and entry point of all starting materials and feedstocks (including reactants, solvents, catalysts, etc.), and of all products, recycle streams, and wastes. Include cleaning chemicals (note frequency if not used daily or per batch.).
(3) Identify by number the points of release, including small or intermittent releases, to the environment of the new chemical substance. If releasing to two media at the same step, assign a second release number for the second medium.

Process Description testing. Confidential

Enter Attachment filename for Part II, Section A, 1. d.

Part II-- HUMAN EXPOSURE AND ENVIRONMENTAL RELEASE – Continued

Section B -- INDUSTRIAL SITES CONTROLLED BY OTHERS

The information on pages 10 and 10a refer to consolidated chemical number(s): 1 2 3 4 5 6

Complete section B for typical processing or use operations involving the new chemical substance at sites you do not control. Importers do not have to complete this section for operations outside the U.S.; however, you must report any processing or use activities after import. See the Instructions Manual. Complete a separate section B for each type of processing, or use operation involving the new chemical substance. If the same operation is performed at more than one site describe the typical operation common to these sites. Identify additional sites on a continuation sheet.

1(a). Operation Description -- To claim information in this section as confidential, bracket (e.g. {}) the specific information that you claim as confidential.

- (1) -- Diagram the major unit operation steps and chemical conversions, including interim storage and transport containers (specify - e.g. 5 gallon pails, 55 gallon drums, rail cars, tank trucks, etc). On the diagram, identify by letter and briefly describe each worker activity.
- (2) -- Either in the diagram or in the text field 1(b) below, provide the identity, the approximate weight (by kg/day or kg/batch, on an 100% new chemical substance basis), and entry point of all feedstocks (including reactants, solvents and catalysts, etc) and all products, recycle streams, and wastes. Include cleaning chemicals (note frequency if not used daily or per batch).
- (3) -- Either in the diagram or in the text field 1(b) below, identify by number the points of release, including small or intermittent releases, to the environment of the new chemical substance.
- (4) -- Please enter the # of sites (remember to identify the locations of these sites on a continuation sheet):

	Number of Sites		Confidential <input type="checkbox"/>

1(b). (Optional) This space is for a text description to clarify the diagram above. Confidential

Enter Attachment filename for Part II, Section B on the bottom of page 10a.

2. Worker Exposure/Environmental Release

- (1) -- From the diagram above, provide the letter for each worker activity. Complete 3-13 for each worker activity described.
- (2), (4), (6), (8), (10), (12), (14), (17), (19) and (21) -- Mark (X) this column if any of the preceding entries are confidential business information (CBI).
- (3) -- Estimate the number of workers exposed for all sites combined.
- (5) -- Estimate the typical duration of exposure per worker in (5a) hours per day and (5b) days per year.
- (7) -- Describe physical form of exposure and any protective equipment and engineering controls, if any, used to protect workers.
- (9) -- Provide the physical form of exposure.
- (11) -- Enter the % new chemical substance (if in mixture).
- (13) -- Estimate the percent of the new substance as formulated when packaged or used as a final product
- (15) -- From the process diagram above, enter the number of each release point. Complete 9-13 for each release point identified.
- (15) -- Estimate the amount of the new substance released (a) directly to the environment or (b) into control technology to the environment (in kg/day or kg/batch).
- (19) -- Describe media of release i.e. stack air, fugitive air (optional-see Instructions Manual), surface water, on-site or off-site land or incineration, POTW, or other (specify) and control technology, if any, that will be used to limit the release of the new substance to the environment.
- (14) -- Identify byproducts which may result from the operation.

OPTIONAL POLLUTION PREVENTION INFORMATION

To claim information in the following section as confidential, bracket (e.g. {}) the specific information that you claim as confidential.

In this section you may provide information not reported elsewhere in this form regarding your efforts to reduce or minimize potential risks associated with activities surrounding manufacturing, processing, use and disposal of the PMN substance. Please include new information pertinent to pollution prevention, including source reduction, recycling activities and safer processes or products available due to the new chemical substance. Source reduction includes the reduction in the amount or toxicity of chemical wastes by technological modification, process and procedure modification, product reformulation, and/or raw materials substitution. Recycling refers to the reclamation of useful chemical components from wastes that would otherwise be treated or released as air emissions or water discharges, or land disposal. Quantitative or qualitative descriptions of pollution prevention, source reduction and recycling should emphasize potential risk reduction in addition to compliance with existing regulatory requirements. The EPA is interested in the information to assess overall net reductions in toxicity or environmental releases and exposures, not the shifting of risks to other media (e.g., air to water) or nonenvironmental areas (e.g., occupational or consumer exposure). To the extent known, information about the technology being replaced will assist EPA in its relative risk determination. In addition, information on the relative cost or performance characteristics of the PMN substance to potential alternatives may be provided.

Describe the expected net benefits, such as

- (1) an overall reduction in risk to human health or the environment;
- (2) a reduction in the generation of waste materials through recycling, source reduction or other means;
- (3) a reduction in the use of hazardous starting materials, reagents, or feedstocks;
- (4) a reduction in potential toxicity, human exposure and/or environmental release; or
- (5) the extent to which the new chemical substance may be a substitute for an existing substance that poses a greater overall risk to human health or the environment.

Information provided in this section will be taken into consideration during the review of this substance. See PMN Instructions Manual and Pollution Prevention Guidance manual for guidance and examples.

PHYSICAL AND CHEMICAL PROPERTIES WORKSHEET

The information on this page refers to chemical number(s): 1 2 3 4 5 6

To assist EPA's review of physical and chemical properties data, please complete the following worksheet for data you provide and include it in the notice. Identify the property measured, the value of the property, the units in which the property is measured (as necessary), and whether or not the property is claimed as confidential. Give the attachment number (found on page 12) in column (b). The physical state of the neat substance should be provided. These measured properties should be for the neat (100% pure) chemical substance. Properties that are measured for mixtures or formulations should be so noted (% PMN substance in ___). You are not required to submit this worksheet; however, EPA strongly recommends that you do so, as it will simplify the review and ensure that confidential information is properly protected. You should submit this worksheet as a supplement to your submission of test data. This worksheet is not a substitute for submission of test data.

Part IV -- CBI Substantiation

This substantiation contains CBI: Yes No

Pursuant to TSCA section 14(c)(3), you must substantiate any CBI claims for information elements other than specific chemical identity at the time this notice is submitted. EPA guidance for complying with TSCA section 14(c)(3) may be found at https://www.epa.gov/tsc-cbi/substantiating-cbi-claims-under-tsc-time-initial-submission. You may also substantiate a request to maintain an existing CBI claim for a specific chemical identity at the time this notice is submitted, but this is not required. Rather, you must substantiate the existing CBI claim for the specific chemical identity by the deadline established in a forthcoming Review Plan, to be promulgated at a later date in accordance with TSCA section 8(b)(4)(C).

If you do not assert a CBI claim at time of submission of this form, or otherwise fail to assert a proper CBI claim (i.e., by failing to substantiate your CBI claim or not providing a certification statement), the information shall be treated as not subject to a CBI claim, and may be made public without further notice. If a single substantiation response applies for all or a class of information claimed as CBI, you should indicate this in your substantiation response. If different substantiation responses are necessary to support CBI claims for different information types, you should provide separate substantiation responses for each information type, clearly identifying the information for which each substantiation applies in the free text boxes (e.g. Question A.1. or 2) or in the additional information box at the end of this form.

Information element(s) that you identified as CBI in previous parts:

- Name of Authorized Official/Mailing address (Part I)
 Company Name/Mailing Address (Part I)
 Technical Contact/Telephone Number (in U.S.) (Part I)
 Specific Confidential Chemical Identity (as listed on the TSCA Inventory) (Part II/III)

Submitting Official Confidential Business Information Substantiation

Table with 4 columns: Question, Yes, No, CBI. Contains questions (i) through (iv) regarding disclosure of confidential information and its treatment.

CBI SUBMISSION

(v) Has EPA, another federal agency, or court made any confidentiality determination regarding information associated with this chemical substance? If yes, please provide the circumstances associated with the prior determination, whether the information was found to be entitled to confidential treatment, the entity that made the decision, and the date of the determination.	X		
test			
Additional comments:			
B. APPLICABLE ONLY TO A SPECIFIC CHEMICAL IDENTITY CBI CLAIM			
Chemical Claim: Chemical Substance Identity – Applicable only to LVE/LOREX/Mock PMN submissions	Yes	No	CBI
(i) Is this chemical substance publicly known (including by your competitors) to be in U.S. commerce? If yes, please explain why the specific chemical identity should still be afforded confidential status (e.g., the chemical substance is publicly known only as being distributed in commerce for research and development purposes, but no other information about the current commercial distribution of the chemical substance in the United States is publicly available). If no, please complete the certification statement: I certify that on the date referenced I searched the internet for the chemical substance identity (i.e., by both chemical substance name and CASRN). I did not find a reference to this chemical substance that would indicate that the chemical is being manufactured or imported by anyone for a commercial purpose in the United States. [provide date].	X		
test			
(ii) Does this specific chemical substance leave the site of manufacture (including import) in any form, e.g., as a product, effluent, emission? If yes, please explain what measures have been taken to guard against the discovery of its identity.	X		X
test			
(iii) If the chemical substance leaves the site in a form that is available to the public or your competitors, can the chemical identity be readily discovered by analysis of the substance (e.g., product, effluent, emission), in light of existing technologies and any costs, difficulties, or limitations associated with such technologies? Please explain why or why not.	X		
test			
(iv) Would disclosure of the specific chemical identity release confidential process information? If yes, please explain.	X		X
test			
Additional comments:			
C. CERTIFICATION			
<p>I certify that all claims for confidentiality made or sought to be maintained with this submission are true and correct, and all information submitted herein to substantiate such claims is true and correct. I further certify that it is true and correct that:</p> <ul style="list-style-type: none"> i. My company has taken reasonable measures to protect the confidentiality of the information; ii. I have determined that the information is not required to be disclosed or otherwise made available to the public under any other Federal law; iii. I have a reasonable basis to conclude that disclosure of the information is likely to cause substantial harm to the competitive position of my company; and iv. I have a reasonable basis to believe that the information is not readily discoverable through reverse engineering. <p>Any knowing and willful misrepresentation is subject to criminal penalty pursuant to 18 U.S.C. § 1001.</p>			
Signature of authorized official		Date	

ⁱ **TSCA Section 14(c)(2) states:**

Information generally not subject to substantiation requirements

Subject to subsection (f), the following information shall not be subject to substantiation requirements under paragraph (3):

- (A) Specific information describing the processes used in manufacture or processing of a chemical substance, mixture, or article.
- (B) Marketing and sales information.
- (C) Information identifying a supplier or customer.
- (D) In the case of a mixture, details of the full composition of the mixture and the respective percentages of constituents.
- (E) Specific information regarding the use, function, or application of a chemical substance or mixture in a process, mixture, or article.
- (F) Specific production or import volumes of the manufacturer or processor.
- (G) Prior to the date on which a chemical substance is first offered for commercial distribution, the specific chemical identity of the chemical substance, including the chemical name, molecular formula, Chemical Abstracts Service Registry number, and other information that would identify the specific chemical substance, if the specific chemical identity was claimed as confidential at the time it was submitted in a notice under section 2604 of this title.

ⁱⁱ **TSCA section 14(e)(1)(B) states**

- (B) in the case of information other than information described in subsection (c)(2)—
 - (i) for a period of 10 years from the date on which the person asserts the claim with respect to the information submitted to the Administrator; or
 - (ii) if applicable before the expiration of such 10-year period, until such time as—
 - (I) the person that asserted the claim notifies the Administrator that the person is withdrawing the claim, in which case the information shall not be protected from disclosure under this section; or
 - (II) the Administrator becomes aware that the information does not qualify for protection from disclosure under this section, in which case the Administrator shall take any actions required under subsections (f) and (g).
