## **CBI Substantiation**

Claim: Chemical Identification

Applicable Only to Chemical Identification CBI Claims	Yes	No	СВІ			
A person may assert a claim of confidentiality for the specific chemical identity of a chemical substance as described in § 711.15(b)(3) of this part only if the identity of that chemical substance is treated as confidential in the Master Inventory File as of the time the report is submitted for that chemical substance. Generic chemical identities and accession numbers may not be claimed as confidential. To assert a claim of confidentiality for the identity of a reportable chemical substance, you must submit with the report detailed written answers to the questions from subsection (b) and to the following questions.						
(i) Is this chemical substance publicly known (including by your competitors) to be in U.S. commerce? If yes, please explain why the specific chemical identity should still be afforded confidential status (e.g., the chemical substance is publicly known only as being distributed in commerce for research and development purposes, but no other information about the current commercial distribution of the chemical substance in the United States is publicly available). If no, please complete the certification statement:  I certify that on the date referenced I searched the internet for the chemical substance identity (i.e., by both chemical substance name and CASRN). I did not find a reference to this chemical substance that would	х					
indicate that the chemical is being manufactured or imported by anyone for a commercial purpose in the United States. [provide date].						
test						
(ii) Does this specific chemical substance leave the site of manufacture (including import) in any form, e.g., as a product, effluent, emission? If yes, please explain what measures have been taken to guard against the discovery of its identity.		х				
test						
(iii) If the chemical substance leaves the site in a form that is available to the public or your competitors, can the chemical identity be readily discovered by analysis of the substance (e.g., product, effluent, emission), in light of existing technologies and any costs, difficulties, or limitations associated with such technologies? Please explain why or why not.		х				
test						
(iv) Would disclosure of the specific chemical identity release confidential process information? If yes, please explain.	х

## **CBI Substantiation**

**Claim: Submitter Information** 

**Applicable to All CBI Claims** 

••			
A person may assert a claim of confidentiality for the specific chemical identity of a chemical substance as described in § 7 only if the identity of that chemical substance is treated as confidential in the Master Inventory File as of the time the report chemical substance. Generic chemical identities and accession numbers may not be claimed as confidential. To assert a claim the identity of a reportable chemical substance, you must submit with the report detailed written answers to the questions for to the following questions.  (i) Will disclosure of the information claimed as confidential likely cause substantial harm to your business's	rt is sul m of co	bmitted onfident	for that iality for
competitive position? If you answered yes, describe the substantial harmful effects that would likely result to your competitive position if the information is disclosed, including but not limited to how a competitor could use such information, and the causal relationship between the disclosure and the harmful effects.	X		
test			
(ii) Has your business taken precautions to protect the confidentiality of the disclosed information? If yes, please explain and identify the specific measures, including but not limited to internal controls, that your business has taken to protect the information claimed as confidential. If the same or similar information was previously reported to EPA as non-confidential (such as in an earlier version of this submission), please explain the circumstances of that prior submission and reasons for believing the information is nonetheless still confidential.		х	
test			
(iii) A. Is any of the information claimed as confidential required to be publicly disclosed under any other Federal law? If yes, please explain.		Х	
test			
(iii) B. Does any of the information claimed as confidential otherwise appear in any public documents, including (but not limited to) safety data sheets; advertising or promotional material; professional or trade publications; state, local, or Federal agency files; or any other media or publications available to the general public? If yes, please explain why the information should be treated as confidential.	х		
test			
(iii) C. Does any of the information claimed as confidential appear in one or more patents or patent applications? If yes, provide the associated patent number or patent application number (or numbers) and explain why the information should be treated as confidential.		Х	
test			
(iv) Is the claim of confidentiality intended to last less than 10 years (see TSCA section 14(e)(1)(B))? If yes, please indicate the number of years (between 1-10 years) or the specific date after which the claim is withdrawn.	X		
test			
(v) Has EPA, another federal agency, or court made any confidentiality determination regarding information associated with this chemical substance? If yes, please provide the circumstances associated with the prior determination, whether the information was found to be entitled to confidential treatment, the entity that made		х	

## **Paperwork Reduction Act Notice**

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2070-0030). Responses to this collection of information are mandatory for certain persons, as specified at 40 CFR 707 Subpart D. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to be 0.62 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

the decision, and the date of the determination.
