SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Standards for Success Reporting.
OMB Approval Number: 2501-0034.
Type of Request: Regular.
Type of Information Collection: Renewal.

Form Numbers: HUD-PRL.
Description of the need for the information and proposed use:

This request is for the continued clearance of data collection and reporting requirements to enable the Department of Housing and Urban Development (HUD) Office of the Chief Financial Officer (OCFO) to better assess the effectiveness of discretionary-funded programs included in this information collection request (ICR). The discretionary-funded programs included in this ICR are the Multifamily Housing Service Coordinator Grant Program, the Multifamily Housing

Budget-based Service Coordinator Program, and the Resident Opportunity and Self Sufficiency Service Coordinator Grant Program (ROSS).

This proposed collection, titled Standards for Success, has three key tenets which improves data collection and reporting for participating programs. First is the standardization of data collection and reporting requirements across programs which increases data comparability and utilization. Second is the ability to report on measurable outcomes and aligning them with higher-level agency objectives. And third is the collection of record-level data, instead of aggregate data. Collecting de-identified data at the level of the service recipient allows for more meaningful analysis, improved management, and the ability to demonstrate the progress and achievements of the funding recipients and the programs. Standards for Success accepts data submission by direct data input through the HUD-funded GrantSolutions online data collection and reporting tool (OLDC) and by data file upload, accommodating file formats in Microsoft Excel or Extensible Markup Language (XML).

Currently across HUD, there are several reporting models in place for its discretionary programs. The reporting models provide information on a wide variety of outputs and outcomes and are based on unique data definitions and outcome measures in program-specific performance and progress reports. In Federal Fiscal Year 2013, nine program offices at HUD used six systems and 15 reporting tools to collect over 700 data elements in support of varied metrics to assess the performance of their funding recipients. The proposed data collection and reporting requirements described in this notice are designed to provide HUD programs a tested alternative to their existing disparate reporting methodologies, forms, systems, and requirements.

The lack of standardized data collection and reporting requirements imposes an increased burden on funding recipients with multiple HUD funding streams. The need for a comprehensive standardized reporting approach is underscored by reviews conducted by external oversight agencies, including the HUD Office of Inspector General (OIG) and the Government Accountability Office (GAO). These oversight agencies have questioned the soundness and comparability of data reported by HUD prior to Standards for Success. To address these issues, HUD is using its statutory and regulatory authority to improve and strengthen performance
