

SUPPLEMENTARY INFORMATION: In December 2011, the ODNI accepted responsibility from the Information Security Oversight Office (ISOO) to manage the continuation in existence of Standard Form 714: Financial Disclosure Report, in accordance with the responsibilities assigned to the Director of National Intelligence (DNI) as Security Executive Agent for all departments and agencies of the U.S. Government. Pursuant to the responsibilities assigned to the Director of National Intelligence as the Security Executive Agent under Executive Order 13467, Executive Order 12968, and Section 803 of the National Security Act (50 U.S.C. 3162a), the SF-714 collects information that is used to assist in making determinations regarding access to specifically designated types of classified information. The information will be used to help make personnel security determinations, including whether to grant a security clearance; to allow access to classified information, sensitive areas, and equipment; or to permit assignment to sensitive national security positions. The data may later be used as part of a review process to evaluate continued eligibility for access to classified information or as evidence in legal proceedings.

The renewal notice was posted in the **Federal Register** for 60 days, from November 30, 2021 to January 31, 2022 for public comment. No public comments were received during that period.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “10 CFR part 55, Operators’ Licenses.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on February 1, 2022, 87 FR 5519.

1. *The title of the information collection:* “10 CFR part 55, Operators’ Licenses.”

2. *OMB approval number:* 3150–0018.

3. *Type of submission:* Extension.

4. *The form number, if applicable:*

Not applicable.

5. *How often the collection is required or requested:* As necessary for the NRC to meet its responsibilities to determine the eligibility for applicants and operators.

6. *Who will be required or asked to respond:* Holders of, and applicants for, facility (*i.e.*, nuclear power and non-power research and test reactor) operating licenses and individual operator licensees.

7. *The estimated number of annual responses:* 437 (345 reporting responses + 92 recordkeepers).

8. *The estimated number of annual respondents:* 92.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 170,928 hours (149,619 hours reporting + 21,309 hours recordkeeping).

10. *Abstract:* Part 55 of title 10 of the *Code of Federal Regulations* (10 CFR), “Operators’ Licenses,” specifies information and data to be provided by applicants and facility licensees so that the NRC may make determinations concerning the licensing and requalification of operators for nuclear reactors, as necessary to promote public health and safety. The reporting and recordkeeping requirements contained in 10 CFR part 55 are mandatory for the affected facility licensees and applicants. In addition, the information collection includes two online forms for requesting exemptions from requirements for Part 55 Exemption Request and Part 55 Research and Test Reactor Exemption Request related to the COVID–19 Public Health Emergency (PHE). The information collected by the

online form is the minimum needed by NRC to make a determination on the acceptability of the licensee’s request for an exemption.

Dated: May 25, 2022.

For the Nuclear Regulatory Commission.

NRC Clearance Officer, Office of the Chief Information Officer.
