(“OMB”) a request for approval of extension of the previously approved collection of information provided for in Rule 18a-1 (17 CFR 240.18a-1), under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*) (“Exchange Act”).

Rule 18a-1 establishes net capital requirements for nonbank security-based swap dealers that are not also broker-dealers registered with the Commission (“stand-alone SBSBs”). First, under paragraphs (a)(2) and (d) of Rule 18a-1, a stand-alone SBSB may apply to the Commission to be authorized to use internal value-at-risk (“VaR”) models to compute net capital and a stand-alone SBSB authorized to use internal models must review and update the models it uses to compute market and credit risk, as well as back-test the models. Second, under paragraph (f) of Rule 18a-1, a stand-alone SBSB is required to comply with certain requirements of Exchange Act Rule 15c3-4 (17 CFR 240.15c3-4). Rule 15c3-4 requires OTC derivatives dealers and firms subject to its provisions to establish, document, and maintain a system of internal risk management controls to assist the firm in managing the risks associated with business activities, including market, credit, leverage, liquidity, legal, and operational risks. Third, for purposes of calculating “haircuts” on credit default swaps, paragraph (c)(1)(vi)(B)(1)(iii) of Rule 18a-1 requires stand-alone SBSBs that are not using internal models to use an industry sector classification system that is documented and reasonable in terms of grouping types of companies with similar business activities and risk characteristics. Fourth, under paragraph (h) of Rule 18a-1, stand-alone SBSBs are required to provide the Commission with certain written notices with respect to equity withdrawals. Fifth, under paragraph (c)(5) of Appendix D to Rule 18a-1 (17 CFR 240.18a-1d), stand-alone SBSBs are required to file with the Commission two copies of any proposed subordinated loan agreement (including nonconforming subordinated loan agreements) at least 30 days prior to the proposed execution date of the agreement. Finally, under paragraph (c)(1)(ix)(C) of Rule 18a-1, a nonbank SBSB may treat collateral held by a third-party custodian to meet an initial margin requirement of a security-based swap or swap customer as being held by the nonbank SBSB for purposes of the capital in lieu of margin charge provisions of the rule if certain conditions are met. In particular, the SBSB must execute an account control agreement and must maintain written documentation of its analysis that in the

event of a legal challenge the account control agreement would be held to be legal, valid, binding, and enforceable under the applicable law.

[Release No. 34-95725; File No. SR-NSCC-2022-006]

Self-Regulatory Organizations; National Securities Clearing Corporation; Order Instituting Proceedings To Determine Whether To Approve or Disapprove a Proposed Rule Change To Amend the Stress Testing Framework and Liquidity Risk Management Framework

September 9, 2022.

I. Introduction

On May 26, 2022, National Securities Clearing Corporation (“NSCC”) filed with the Securities and Exchange Commission (“Commission”) proposed rule change SR-NSCC-2022-006 (the “Proposed Rule Change”) pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) ¹ and Rule 19b-4 thereunder.² The Proposed Rule Change was published for comment in

the **Federal Register** on June 15, 2022,³ and the Commission has received no comments regarding the changes proposed in the Proposed Rule Change.

On July 14, 2022, pursuant to Section 19(b)(2) of the Act,⁴ the Commission designated a longer period within which to approve, disapprove, or institute proceedings to determine whether to approve or disapprove the Proposed Rule Change.⁵ This order institutes proceedings, pursuant to Section 19(b)(2)(B) of the Act,⁶ to determine whether to approve or disapprove the Proposed Rule Change.

II. Summary of the Proposed Rule Change

As described in the Notice, NSCC proposes to amend the Clearing Agency Stress Testing Framework (Market Risk) (“ST Framework”) and the Clearing Agency Liquidity Risk Management Framework (“LRM Framework,” and, together with the ST Framework, the “Frameworks”) of NSCC and its affiliates, The Depository Trust Company (“DTC”) and Fixed Income Clearing Corporation (“FICC,” and together with NSCC and DTC, the “Clearing Agencies”).⁷

First, the proposed changes would amend both the ST Framework and the LRM Framework to move descriptions of the Clearing Agencies’ liquidity stress testing activities from the LRM Framework to the ST Framework. In connection with this proposed change, the Clearing Agencies propose to recategorize the stress scenarios used for liquidity risk management, such that all such stress scenarios are described as either regulatory or informational scenarios.

Second, the proposed changes would amend the ST Framework to (1) enhance stress testing for the Government Securities Division of FICC (“GSD”) to obtain certain data utilized in stress testing from external vendors and implement a back-up stress testing calculation that would be utilized in the event such data is not supplied by its vendors, and amend the ST Framework to reflect these practices for both GSD
