SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270-0088, OMB Control No. 3235-0083]

Submission for OMB Review; Comment Request: Extension: Rule 15Ba2-1 and Form MSD

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for extension of the previously approved collection of information provided for in Rule 15Ba2-1 (17 CFR 240.15Ba2-1) and Form MSD (17 CFR 249.1100) under the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78a *et seq.*).

Rule 15Ba2-1 provides that an application for registration with the Commission by a bank municipal securities dealer must be filed on Form MSD. The Commission uses the information obtained from Form MSD filings to The Commission uses the information obtained from Form MSD filings to determine whether bank municipal securities dealers meet the standards for registration set forth in the Exchange Act, to make information about particular bank municipal securities dealers available to customers and members of the public, and to develop risk assessment information about bank municipal securities dealers.

Form MSD is a one-time registration form that must be amended only if it becomes inaccurate. Based upon past submissions of zero initial filings and 14 amendments in 2019, zero initial filings and three amendments in 2020, zero initial filings and one amendment in 2021, and zero initial filings and zero amendments so far in 2022, the Commission estimates that on an annual basis approximately one respondent will use Form MSD for an initial registration application, and that approximately six respondents will

utilize Form MSD for an amendment, for a total of seven respondents per year. The time required to complete Form MSD varies with the size and complexity of the bank municipal securities dealer's proposed operations. Bank personnel that prepare Form MSD filings previously indicated that it can take up to 15 hours for a bank with a large operation and many employees to complete the form, but that smaller banks with fewer personnel can complete the form in one to two hours. We believe that most recent applications have come from smaller banks. Also, amendments to form MSD are likely to require significantly less time. We estimate that the total annual burden is currently approximately 11 hours at an average of 1.5 hours per respondent. (7 respondents/year × 1.5 hours/respondent = 10.5 hours/year rounded up to 11). The staff estimates that the average internal compliance cost per hour is approximately \$406.¹ Therefore, the estimated total annual internal cost of compliance is approximately \$4,263 per year (10.5 hours/year × \$406/hour = \$4,263/year).

Rule 15Ba2-1 does not contain an explicit recordkeeping requirement, but the rule does require the prompt correction of any information on Form MSD that becomes inaccurate, meaning that bank municipal securities dealers need to maintain a current copy of Form MSD indefinitely. In addition, the instructions for filing Form MSD state that an exact copy should be retained by the registrant. Providing the information on the application is mandatory in order to register with the Commission as a bank municipal securities dealer. The information contained in the application will not be kept confidential.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-95278; File No. SR-NSCC-2022-010]

Self-Regulatory Organizations; National Securities Clearing Corporation; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Adopt Fees for the Securities Financing Transaction Clearing Service

July 14, 2022.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 8, 2022, National Securities Clearing Corporation (“NSCC”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the clearing agency. NSCC filed the proposed rule change pursuant to Section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(2) thereunder.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency’s Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change consists of amendments to Addendum A (Fee Structure) (“Addendum A”) of NSCC’s Rules & Procedures (“Rules”) to adopt fees for NSCC’s securities financing transaction (“SFT”) clearing service (“SFT Clearing Service”), as described below.⁵

II. Clearing Agency’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the clearing agency included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The clearing agency has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

(A) Clearing Agency’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Overview of the Proposed Rule Change

The purpose of this proposed rule change is to adopt fees for NSCC’s new SFT Clearing Service.⁶ The SFT Clearing Service provides central clearing for SFTs, which are, broadly speaking, transactions where the parties exchange equity securities against cash and simultaneously agree to exchange the same securities and cash, plus or minus a rate payment, on a future date. The SFT Clearing Service established new membership categories and requirements for Sponsoring Members and Sponsored Members whereby existing Members would be permitted to sponsor certain institutional firms into membership.⁷ The SFT Clearing Service also established a new membership category and requirements for Agent Clearing Members whereby existing Members would be permitted to submit, on behalf of their customers, transactions to NSCC for novation.⁸ The SFT Clearing Service is available for SFTs entered into between (i) a Member and another Member, (ii) a Sponsoring Member and its Sponsored Member (“Sponsored Member Transaction”), and (iii) an Agent Clearing Member acting on behalf of a Customer and either (x) a Member or (y) the same or another Agent Clearing Member acting on behalf of a Customer.⁹

⁶ See Securities Exchange Act Release No. 95011 (May 31, 2022), 87 FR 34339 (June 6, 2022) (SR-NSCC-2022-003) (Order Approving Proposed Rule Change to Introduce Central Clearing for Securities Financing Transaction Clearing Service). NSCC also filed the proposal as advance notice SR-NSCC-2022-801. See Securities Exchange Act Release No. 94998 (May 27, 2022), 87 FR 33528 (June 2, 2022) (SR-NSCC-2022-801) (Notice of No Objection to Advance Notice to Introduce Central Clearing for Securities Financing Transaction Clearing Service).

⁷ See *id.* and Rule 2C, *supra* note 5.

⁸ See *supra* note 6 and Rule 2D, *supra* note 5.

⁹ See *supra* note 6 and Section 1 of Rule 56, *supra* note 5.

In connection with the SFT Clearing Service, NSCC would establish two new fees for the clearance of SFT transactions: (i) a fee of \$1.00 per side of each new SFT submitted (excluding any Linked SFT¹⁰ and Sponsored Member Transactions) and (ii) a fee of \$0.14 per million of outstanding SFT notional balance.¹¹ Under the proposed fee structure, Sponsoring Members would be liable for any fees and charges arising from Sponsored Member Transactions.

In general, fee levels for NSCC are set by NSCC after periodic reviews of a number of factors, including revenues, operating costs, and potential service enhancements. In the case of fees associated with new services such as SFT, however, there are no current or historical data points to use in the analysis. Fees for such services are determined based on an evaluation of the costs associated with developing the service, the projected costs of operating the service on an ongoing basis, and the projected revenues for the service over time under various assumptions.¹² In determining the proposed SFT Clearing Service fees, NSCC attempted to balance a combination of factors, which included maintaining a competitive market level price while also factoring in the enhanced value that the SFT Clearing Service offered to Members (e.g., multiple models for clearing SFTs for Members and their clients, and the associated balance sheet and capital efficiency opportunities) and the ability to achieve the payback of NSCC’s investment costs within an appropriate timeframe. The proposed SFT Clearing Service fees are designed to be risk-based in that open interest would be charged to the lender and borrower at a

¹⁰ A “Linked SFT” is an SFT entered into by the pre-novation SFT Member parties to an SFT that has been previously novated by NSCC, the Final Settlement of which is scheduled to occur on that Business Day (“Settling SFT”), and has the same Transferor, Transferee and subject SFT Securities (including CUSIP) as the Settling SFT. See Rule 1, *supra* note 5.

¹¹ For purposes of determining the proposed outstanding SFT notional balance fee, the outstanding SFT notional balance would be calculated using the settlement value of the SFT.

¹² NSCC has in place procedures to control costs and to regularly review pricing levels against costs of operation. NSCC’s fees are generally cost-based plus a markup as approved by its Board of Directors. This markup is applied to recover development costs and operating expenses and to accumulate capital sufficient to meet regulatory and economic requirements. The SFT Clearing Service and proposed associated fees, once implemented, would be reviewed and re-evaluated regularly under this framework.
