SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270-258, OMB Control No. 3235-0268]

Proposed Collection; Comment Request; Extension: Rule 2a-7

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Rule 2a-7 (17 CFR 270.2a-7) under the Investment Company Act of 1940 (15 U.S.C. 80a) (the "Act") governs money market funds. Money market funds are open-end management investment companies that differ from other open-end management investment companies in that they seek to maintain a stable price per share, usually \$1.00. The rule exempts money market funds from the valuation requirements of the Act, and, subject to certain risk-limiting conditions, permits money market funds to use the "amortized cost method" of asset valuation or the "penny-rounding method" of share pricing.

Rule 2a-7 also imposes certain recordkeeping and reporting obligations on money market funds. The board of directors of a money market fund, in supervising the fund's operations, must establish written procedures designed to stabilize the fund's net asset value ("NAV"); establish written procedures to test periodically the ability of the fund to maintain a stable NAV based on certain hypothetical events ("stress testing"); review, revise, and approve written procedures to stress test a fund's portfolio; and create a report to the fund

board documenting the results of stress testing. The board must also adopt guidelines and procedures relating to certain responsibilities it delegates to the fund's investment adviser. These procedures and guidelines typically address various aspects of the fund's operations. The fund must maintain and preserve for six years a written copy of both these procedures and guidelines. The fund also must maintain and preserve for six years a written record of the board's considerations and actions taken in connection with the discharge of its responsibilities, to be included in the board's minutes, including determinations to impose any liquidity fees or temporary suspension of redemptions. In addition, the fund must maintain and preserve for three years written records of certain credit risk analyses, evaluations with respect to securities subject to demand features or guarantees, evaluations with respect to asset-backed securities not subject to guarantees, and determinations with respect to adjustable rate securities and asset-backed securities. If the board takes action with respect to defaulted securities, events of insolvency, or deviations in share price, the fund must file with the Commission an exhibit to Form N-CR describing the nature and circumstances of the action. If any portfolio security fails to meet certain eligibility standards under the rule, the fund also must identify those securities in an exhibit to Form N-CR. After certain events of default or insolvency relating to a portfolio security, the fund must notify the Commission of the event and the actions the fund intends to take in response to the situation.

A fund must also post certain periodic information on its website including disclosure of portfolio holdings, disclosure of daily and weekly liquid assets and net shareholder flow, disclosure of daily current NAV, and disclosures of financial support received by the fund, the imposition and removal of liquidity fees, and the suspension and resumption of fund redemptions. Lastly, for funds that elect to be retail funds, they must create written policies and procedures reasonably designed to limit all beneficial owners of the fund to natural persons.

The recordkeeping requirements in rule 2a-7 are designed to enable Commission staff in its examinations of money market funds to determine compliance with the rule, as well as to ensure that money market funds have established procedures for collecting the information necessary to make adequate credit reviews of securities in their portfolios. The reporting requirements of rule 2a-7 are intended to assist

Commission staff in overseeing money market funds and reduce the likelihood that a fund is unable to maintain a stable NAV.

Commission staff estimates that there are 320 money market funds (80 fund complexes), all of which are subject to rule 2a-7. Commission staff further estimates that there will be approximately 10 new money market funds established each year. Commission staff estimates that rule 2a-7 contains the following collection of information requirements:

- Record of credit risk analyses, and determinations regarding adjustable rate securities, asset-backed securities, asset-backed securities not subject to guarantees, securities subject to a demand feature or guarantee, and counterparties to repurchase agreements. Commission staff estimates a total annual hour burden for 320 funds to be 260,440 hours.

- Establishment of written procedures designed to stabilize NAV and guidelines and procedures for board delegation of authority. Commission staff estimates a total annual hour burden for 10 new money market funds to be 155 hours.

- Board review of procedures and guidelines of any investment adviser or officers to whom the fund's board has delegated responsibility under rule 2a-7 and amendment of such procedures and guidelines. Commission staff estimates a total annual hour burden for 80 funds to be 400 hours.

- Records of the board's determination for imposing any liquidity fees or temporary suspension of redemptions. Commission staff estimates a total annual hour burden for 2 funds to be 14 hours.

- Records of the board's determinations and actions related to failure of a security to meet certain eligibility standards or an event of default or insolvency. Commission staff estimates a total annual hour burden for 20 funds to be 50 hours.

- Establishment of written procedures to test periodically the ability of the fund to maintain a stable NAV per share based on certain hypothetical events ("stress testing"). Commission staff estimates a total annual hour burden for 10 new money market funds to be 220 hours.

- Review, revise, and approve written procedures to stress test a fund's portfolio. Commission staff estimates a total annual hour burden for 80 fund complexes to be 960 hours.

- Reports to fund boards on the results of stress testing. Commission staff estimates a total annual hour
