We are collecting information on practices and costs used to produce rice and need your help to make the information as accurate as possible. The information you provide will be used for statistical purposes only. Your responses will be kept confidential and any person who willfully discloses any identifiable information about you or your operation is subject to a jail term, a fine, or both. This survey is conducted in accordance with the Confidential Information Protection provisions of Title V, Subtitle A, Public Law 107-347 and other applicable Federal laws. For more information on how we protect your information please visit: https://www.nass.usda.gov/confidentiality. Response is voluntary. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB number is 0535-0218. The time required to complete this information collection is estimated to average 75 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

RICE FIELD SELECTION

Α

	Total Planted Acres
1. How many acres of rice did this operation plant for the 2020 crop year?	0050
[If no acres planted, review Screening Information Form, make notes, then go to Conclusion on back page	.]

a. Of the total (item 1) acres, how many were planted with the intention of harvesting--

i.	Long grain?	0051	+	0056
	Medium grain?	0052	+	0057
	Short grain?	0053	+	0058

I will follow a simple procedure to make a random selection from the cotton fields planted for the 2020 crop.

	Total Number of Fields Planted

2. What is the total number of rice fields that were planted on this operation?	
[If only one field enter "1" and go to item 5.]	

3. Please list the field(s) according to identifying name/number or describe each field. Then I will tell you which field has been selected.

[If there are more than 18 fields, make sure item 2 is total fields planted and list only the 18 fields closest to the operator's permanent residence. If respondent is unable to identify or describe the fields, use the Field Selection Grid Supplement.]

4. The field selected is ______ (field name/number/description). During this interview, the rice questions will be about this selected rice field. [Be sure the operator can identify the selected field.]

5. For the randomly selected field above, please provide the Farm Service Agency (FSA):

[If the physical field in this survey spans multiple FSA administrative fields, please include the farm, tract, and field number for the largest administrative field. These numbers are field identifiers that USDA uses to administer farm programs like crop insurance, commodity programs, and conservation programs. Having this information helps USDA make better use of other data you have provided to USDA and will improve the types of statistical analysis that can be done with the responses from this survey.]

		Acres				
1. How many acres in the selected field were irrigated for the 2020 rice crop?						
[If none, go to Conclusion]						
 Now I have some questions about the irrigation system and water that covers the most acres on the selected field for the 2020 rice crop. 						
	Unit	System				
a. What type(s) of irrigation system(s) was (or were used to irrigate the selected field? [Show System Type Codes in the Respondent Booklet. Enter System Type Code for system that applied the most water.]	System Type Code	1161				
b. What was the total quantity of water applied to the selected field during the entire growing season? INCLUDE all water used from both on-farm and off-farm sources and applied by any irrigation system	Inches per Acre OR Total Acre Feet	1162 1163				
[If operator cannot provide item 2b, ask (i) and (ii), otherwise go to 2c]		4404				
i. What is the total number of hours this system was used to apply water to the selected field during the rice growing season?	Total Hours	1164				
ii. How many gallons per minute were applied?	Gallons per Minute	1165				
c. What percent of the water used to irrigate the selected field through this system came from surface water sources?	Percent	1166				
d. What was the number of times the selected field was irrigated during the rice growing season using any system? INCLUDE any pre-plant irrigation	Number of Irrigations	1167				
e. What was the pump type? [If more 1 Turbine

CONCLUSION

[Enumerator Action: Mark map to indicate where the selected rice field is located. Be sure the "X" marked on map is in the county identified above.]

We will need additional information to complete this study. We will contact you in February or March 2021 to collect it. I'll call you then to set up a time that is good for you.
