**B. AUTHORIZED OFFICER.** The authorized officer is the Forest or Grassland Supervisor, a District Ranger, or the Station, Institute, or Area Director with delegated authority pursuant to Forest Service Manual 2700.

**C. TERM.** This permit shall expire at midnight on #EXPIRATION\_DATE#. Expiration of this permit shall not require notice, a decision document, or any environmental analysis or other documentation.

**D. CONTINUATION OF USE AND OCCUPANCY.** This permit is not renewable. Prior to expiration of this permit, the holder may apply for a new permit for the use and occupancy authorized by this permit. Applications for a new permit must be submitted at least 6 months prior to expiration of this permit. Issuance of a new permit is at the sole discretion of the authorized officer. At a minimum, before issuing a new permit, the authorized officer shall ensure that (1) the use and occupancy to be authorized by the new permit are consistent with the standards and guidelines in the applicable land management plan; (2) the type of use and occupancy to be authorized by the new permit is the same as the type of use and occupancy authorized by this permit; and (3) the holder is in compliance with all the terms of this permit. The authorized officer may prescribe new terms when a new permit is issued.

**E. AMENDMENT.** This permit may be amended in whole or in part by the Forest Service when, at the discretion of the authorized officer, such action is deemed necessary or desirable to incorporate new terms that may be required by law, regulation, directive, the applicable land management plan, or projects and activities implementing the land management plan pursuant to 36 CFR Part 218.

**F. COMPLIANCE WITH LAWS, REGULATIONS, AND OTHER LEGAL REQUIREMENTS.** In exercising the rights and privileges granted by this permit, the holder shall comply with all present and future federal laws and regulations and all present and future state, county, and municipal laws, regulations, and other legal requirements that apply to the permit area, to the extent they do not conflict with federal law, regulation, or policy. The Forest Service assumes no responsibility for enforcing laws, regulations, and other legal requirements that fall under the jurisdiction of other governmental entities.

**G. NON-EXCLUSIVE USE.** The use or occupancy authorized by this permit is not exclusive. The Forest Service reserves the right to use or cross upon, over, or under the private road and authorize others to use or cross upon, over, or under the private road in any way that is not inconsistent with the holder's rights and privileges under this permit, after consultation with all parties involved, provided that:

(a) When the Forest Service uses the private road for commercial hauling, other than removal of timber cut during construction or maintenance of the private road or other occasional incidental use, the Forest Service shall pay or perform its pro-rata share of maintenance and construction costs of the private road; and

(b) The Forest Service shall require users to pay the holder or perform their pro-rata share of the current replacement cost of the private road, less depreciation, to reconstruct the private road as necessary to accommodate their use and perform road maintenance commensurate with their use.

The Forest Service reserves the right of access to the permit area, including a continuing right of physical entry to the permit area for inspection, monitoring, or any other purpose consistent with any right or obligation of the United States under any law or regulation, including ensuring compliance with the terms of this permit. The Forest Service reserves the right to relocate the private road to the extent necessary to accommodate the management needs of the National Forest System. The centerline of this permit shall shift to follow the centerline of the relocated private road and shall be accepted as the new centerline of this permit. Except for any restrictions that the holder and the authorized officer agree are necessary to protect the installation and operation of authorized temporary improvements, the lands and waters covered by this permit shall remain open to the public for all lawful purposes.

**H. ASSIGNABILITY.** This permit is not assignable or transferable.

## **I. TRANSFER OF TITLE TO THE IMPROVEMENTS**

1. Notification of Transfer. The holder shall notify the authorized officer when a transfer of title to the private property accessed by the private road is planned.

2. Transfer of Title. Any transfer of title to the private property accessed by the private road shall result in termination of this permit. The party who acquires title to the private property must submit an application for a permit. The Forest Service is not obligated to issue a new permit to the party who acquires title to the private property accessed by the private road. The authorized officer shall determine that the applicant meets requirements under applicable federal regulations.

## **II. IMPROVEMENTS**

**A. LIMITATIONS ON USE.** Nothing in this permit gives or implies permission to build or maintain any structure or facility or to conduct any activity unless specifically provided for in this permit. Any use not specifically authorized by this permit must be proposed in accordance with 36 CFR 251.54 or 251.61. Approval of such a proposed use through issuance of a new permit or permit amendment is at the sole discretion of the authorized officer.

**B. DRAWINGS.** All drawings for construction or reconstruction of the private road, as well as revisions to those drawings, must be prepared by a professional engineer, architect, landscape architect, or other qualified professional acceptable to the authorized officer. These drawings and drawing revisions must have written approval from the authorized officer before they are implemented. The authorized officer may require the holder to furnish as-built drawings, maps, or surveys upon completion of the work.

**C. RELOCATION.** This permit is issued with the express understanding that should future location of federally owned improvements or road rights-of-way require relocation of the private road, the relocation will be conducted by and at the expense of the holder within a reasonable period specified by the authorized officer.

### **III. OPERATIONS**

**A. OPERATING PLAN.** The holder shall prepare by [date] an operating plan and shall revise it as needed to address changes in operations. The operating plan and any revisions to the operating plan shall be prepared in consultation with the authorized officer or the authorized officer's designated representative and shall cover such items as snow removal, road maintenance, commercial hauling, dust abatement, a traffic control plan, and the names of the holder's employees, contractors, and subcontractors who will use the private road on behalf of the holder under this permit. The operating plan shall be submitted by the holder and approved by the authorized officer or the authorized officer's designated representative prior to commencement of operations under this permit and shall be attached to this permit as an appendix.

**B. USE OF THE PRIVATE ROAD.** The holder shall have the right to use the private road without cost, other than the consideration provided for in this permit, for all purposes deemed necessary or desirable by the holder in connection with the protection, administration, management, and utilization of the holder's lands and other property.

**C. HOLDER'S RESPONSIBILITY FOR ROAD MAINTENANCE.** Any road maintenance performed by the holder shall be authorized by and shall be conducted in accordance with a maintenance plan approved in writing by the authorized officer. Maintenance, construction, or reconstruction of the private road to accommodate the holder's needs must have prior written approval from the authorized officer and shall be performed at the holder's expense.

**D. RESOURCE PROTECTION DURING ROAD MAINTENANCE.** The holder shall conduct any maintenance of the private road so as to avoid damaging adjacent National Forest System lands. The holder shall construct and maintain lead-off drainage and water barriers as necessary to prevent erosion.

**E. CUTTING, DISPOSAL, AND PLANTING OF VEGETATION.** This permit does not authorize the cutting of trees, brush, shrubs, and other plants ("vegetation"). Vegetation may be cut, destroyed, or trimmed only after the authorized officer or the authorized officer's designated representative has approved in writing and marked or otherwise identified what may be cut, destroyed, or trimmed. The holder shall notify the authorized officer when approved cutting, destruction, or trimming of vegetation has been completed. The Forest Service shall determine in advance of felling the method of disposal of trees felled in the permit area that meet utilization standards. Disposal may be by sale or without charge per 36 CFR Part 223, as may be most advantageous to the United States. Debris from felling that does not meet utilization standards shall also be disposed of according to methods determined by the Forest Service. Planting of vegetation in the permit area must have prior written approval from the authorized officer.

### **F. PESTICIDE USE**

1. Authorized Officer Concurrence. Pesticides may not be used in the permit area to control pests, including undesirable woody and herbaceous vegetation (including aquatic plants), insects, birds, rodents, or fish without prior written concurrence of the authorized officer. Only those products registered or otherwise authorized by the U.S. Environmental Protection Agency and appropriate State authority for the specific purpose planned shall be authorized for use within areas on National Forest System lands.

2. Pesticide-Use Proposal. Requests for concurrence of any planned uses of pesticides shall be provided in advance using the Pesticide-Use Proposal (form FS-2100-2). Annually the holder shall, on the due date established by the authorized officer, submit requests for any new, or continued, pesticide usage. The Pesticide-

Use Proposal shall cover a 12-month period of planned use. The Pesticide-Use Proposal shall be submitted at least 60 days in advance of pesticide application. Information essential for review shall be provided in the form specified. Exceptions to this schedule may be allowed, subject to emergency request and approval, only when unexpected outbreaks of pests require control measures which were not anticipated at the time a Pesticide-Use Proposal was submitted.

3. **Safety Plan.** Before applying pesticides in the permit area, the holder shall submit to the authorized officer a safety plan that includes, at a minimum, a precise statement of the treatment objectives; a description of equipment, materials, and supplies to be used, including pesticide formulation, quantities, and application methods; a description of the lines of responsibility for project planning, project monitoring, and after-action review; a description of any necessary interagency coordination; a copy of the current Pesticide-Use Proposal for the permit; a description of the process by which treatment effectiveness will be determined; and a spill plan, communications plan, security plan, and, when required by applicable local requirements, a provision for prior notification to sensitive individuals.

4. **Reporting.** By September 30th annually, the holder shall submit to the authorized officer a written report of each pesticide application project completed during the previous 12-month period. The report shall contain information pertaining to the pesticide application projects as requested by the authorized officer.

5. **Labeling, Laws, and Regulations.** Label instructions and all applicable laws and regulations shall be strictly followed in the application of pesticides and disposal of excess materials and containers. No pesticide waste, excess materials, or containers shall be disposed of in any area administered by the Forest Service.

**G. MONITORING BY THE FOREST SERVICE.** The Forest Service shall monitor the holder's operations and reserves the right to inspect the permit area and authorized facilities and improvements at any time for compliance with the terms of this permit. The holder shall comply with inspection requirements deemed appropriate by the authorized officer. The holder's obligations under this permit are not contingent upon any duty of the Forest Service to inspect the permit area or authorized facilities or improvements. A failure by the Forest Service or other governmental officials to inspect is not a justification for noncompliance with any of the terms of this permit.

#### **IV. RIGHTS AND LIABILITIES**

**A. VALID EXISTING RIGHTS.** This permit is subject to all valid existing rights. Valid existing rights include those derived from mining and mineral leasing laws of the United States. The Forest Service is not liable to the holder for the exercise of any such right.

**C. NO WARRANTY OF ACCESS, SITE SUITABILITY, OR SERVICES.** This permit authorizes the use and occupancy of National Forest System lands for the purposes identified in this permit. The Forest Service does not make any express or implied warranty of access to the permit area, of the suitability of the permit area for the authorized uses, or for the furnishing of road or trail maintenance, other than as expressly provided for in this permit; water; fire protection services; search and rescue services; or any other services by a government agency, utility, association, or individual.

Loss of use and occupancy of the permit area may result from but is not limited to theft, vandalism, fire and any fire-fighting activities (including prescribed burns), environmental contamination, avalanches, rising waters, winds, falling limbs or trees, and other forces of nature. If the authorized officer determines that any portions of the permit area cannot be safely occupied due to a public health or safety or environmental hazard, this permit shall terminate as to those portions of the permit

area. Termination under this clause shall not give rise to any claim for damages, including lost profits, by the holder against the Forest Service.

**E. DAMAGE TO UNITED STATES PROPERTY.** The holder has an affirmative duty to protect from damage the land, property, and other interests of the United States that are associated with the use and occupancy authorized by this permit. Damage includes but is not limited to destruction of or damage to National Forest System lands, fire suppression costs, and destruction of or damage to federally owned improvements.

1. The holder shall be liable for all injury, loss, or damage, including fire suppression costs, prevention and control of the spread of invasive species, and the costs of rehabilitation or restoration of natural resources, resulting from the holder's use and occupancy of the permit area. Compensation shall include but not be limited to the value of resources damaged or destroyed, the costs of restoration, cleanup, or other mitigation, fire suppression or other types of abatement costs, and all administrative, legal (including attorney's fees), and other costs.

2. The holder shall be liable for damage to all roads and trails of the United States caused by use of the holder or the holder's heirs, assignees, agents, employees, or contractors to the same extent as provided under clause IV.E.1, except that liability shall not include reasonable and ordinary wear and tear.
