

## TRAWL LOGBOOK INSTRUCTIONS

<p>This coastwide trawl logbook was developed by the Pacific Fishery Management Council, the states of Washington, Oregon and California, and the National Marine Fisheries Service. It provides a standard format for recording trawl data.</p> <p>This is a state logbook program and duplicate pages are included for collection and processing by the states. Submission of this information is required under California, Oregon and Washington state laws.</p>	<p>Place the back cover (flyleaf) under the yellow copy. Carbon paper is not required. Use a pencil or ballpoint pen (press firmly). Send the Vessel Description page with the first trip page(s) and again if any of the vessel data changes. Keep the white copies for your records. Please submit as follows to the state where the landings are made:</p>
