

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Permit and Reporting Requirements for Non-Commercial Fishing in the Rose Atoll, Marianas Trench, and Pacific Remote Islands Marine National Monuments (MANM)**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on March 29, 2022 (87 FR 17994) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: Permit and Reporting Requirements for Non-commercial Fishing in the Rose Atoll, Marianas Trench, and Pacific Remote Islands Marine National Monuments.

OMB Control Number: 0648–0664.

Form Number(s): None.

Type of Request: Regular (Extension of a current information collection).

Number of Respondents: 15.

Average Hours per Response: 15 minutes per permit application; 20 minutes per fishing log.

Total Annual Burden Hours: 18.6 hours.

Needs and Uses: NMFS manages non-commercial fishing activities in the Rose Atoll, Marianas Trench, and Pacific Remote Islands Marine National Monuments. Regulations at 50 CFR part 665 require the owner and operator of a vessel used to non-commercially fish for, take, retain, or possess any management unit species in these monuments to hold a valid permit issued by NMFS. Regulations also require the owner and operator of a vessel that is chartered to fish recreationally for, take, retain, or possess, any management unit species in these monuments to hold a valid

permit issued by NMFS. The fishing vessel must be registered to the permit. The charter business must be established legally in the permit area where it will operate. Charter vessel clients are not required to have a permit.

The permit application collects basic information about the permit applicant, type of operation, vessel, and permit area. NMFS uses this information to confirm the identity of the applicant and determine permit eligibility. The information is important for understanding the nature of the fishery and its participants. It also aids in the enforcement of fishing regulations within the monuments.

Regulations also require the vessel operator to report a complete record of catch, effort, and other data on a NMFS log sheet. The vessel operator must record all requested information on the log sheet within 24 hours of the completion of each fishing day. The vessel operator also must sign, date, and submit the form to NMFS within 30 days of the end of each fishing trip. NMFS uses the information provided in the log sheets to monitor fishing activities, evaluate and assess the status of fish stocks, and determine whether changes in management are needed to sustain the productivity of the fishery and conserve marine resources.

Affected Public: Individuals or households; Business or other for-profit organizations.

Frequency: As required by regulations.

Respondent's Obligation: Mandatory.

Legal Authority: 50 CFR 665.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0664.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Nautical Discrepancy and Data Reporting System**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on March 23, 2022 (87 FR 16462) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Nautical Discrepancy and Data Reporting System.

OMB Control Number: 0648–0007.

Form Number(s): None.

Type of Request: Regular submission [Revision and extension of a currently approved information collection].

Number of Respondents: 1,575.

Average Hours per Response: 10–15 minutes, depending on the report.

Total Annual Burden Hours: 791.5

Needs and Uses: This request is for a revision and extension of a currently approved information collection.

NOAA's Office of Coast Survey (Coast Survey) is the nation's nautical chartmaker, maintaining and updating over a thousand charts covering the 3.5 million square nautical miles of coastal waters in the U.S. Exclusive Economic Zone and the Great Lakes. The marine transportation system relies on charting accuracy and precision to keep navigation safe and coastal communities protected from environmental disasters at sea.

Coast Survey also writes and publishes the *United States Coast Pilot*[®] (Coast Pilot), a series of ten nautical books that supplement nautical charts with essential marine information that cannot be shown graphically on the charts and are not readily available elsewhere. Subjects include, but are not

limited to, channel descriptions, anchorages, bridge and cable clearances, tides and tidal currents, prominent features, pilotage, towage, weather, ice conditions, wharf descriptions, dangers, routes, traffic separation schemes, small craft facilities and Federal Regulations applicable to navigation.

The marine environment and shorelines are constantly changing. NOAA makes every effort to update information portrayed in charts and described in the Coast Pilot. Sources of information include, but are not limited to: pilot associations, shipping companies, towboat operators, state marine authorities, city marine authorities, local port authorities, marine operators, hydrographic research vessels, naval vessels, Coast Guard cutters, merchant vessels, fishing vessels, pleasure boats, U.S. Power Squadron Units, U.S. Coast Guard Auxiliary Units, and the U.S. Army Corps of Engineers (USACE).

The purpose of NOAA's Nautical Discrepancy and Data Reporting System is to offer formal, standardized instruments for recommending changes, corrections, and updates to nautical charts and the Coast Pilot, and to monitor and document the accepted changes. Coast Survey solicits information through the Aimed Stakeholder Interaction and Survey Tool (ASSIST) (<https://www.nauticalcharts.noaa.gov/customer-service/assist/>).

This collection also includes a Citizen Science component, which allows boating groups or individuals to submit reports to update the charts. The Citizen Science component to the collection benefits Coast Survey by allowing the public to "adopt" a product or part of a product and provide annual data updates that directly affect that product or products. Data obtained through Citizen Science reports may be used to update certain U.S. nautical charts and the Coast Pilot.

The Nautical Data Branch (NDB) receives numerous potential construction notifications in the form of USACE-issued Public Notices, Permit Applications, and Permits, which could include a proposal or authorization to dredge and/or construct, remove, or abandon structures. NDB vets these Public Notices, Permit Applications, or Permits for the potential of a charting action and registers them into a database. To facilitate the ability of NDB to learn the status of USACE-permitted projects and to obtain as-built and/or survey data associated with the completion of these projects, Coast Survey is proposing to add three Project Status Report Forms to the collection.

The solicitation forms, titled *Permit/Public Notice Status Report*, *Artificial Reef/Mariculture Status Report*, and *Submerged Pipeline Status Report Form*, provide a standardized method for reporting project statuses to the Nautical Data Branch and provide special instructions regarding the submission of digital as-builts and/or survey data. Upon receipt of the forms, NDB may register the forms, along with the USACE Permit and any as-built data, into the Marine Chart Division's (MCD) internal database in support of potential updates to the applicable NOAA nautical chart(s).

These forms provide an effective way for permittees to notify MCD of the status of their permitted projects and help MCD garner pertinent data necessary for chart application. This mode of data delivery facilitates the ability of NDB to capture complete, more efficient, registration-ready source packages that require less frequent correspondence with the permittee prior to source registration. This process is instrumental in accelerating the availability of important, and/or possibly critical, nautical data to the cartographic production branches for charting action.

The title of this collection is also being updated from Nautical Discrepancy Reporting System to Nautical Discrepancy and Data Reporting System.

Affected Public: Business or other for-profit; state, local, and tribal government; universities; individuals or households; not for-profit institutions, professional and other mariners, etc.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

Legal Authority: None.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and

entering either the title of the collection or the OMB Control Number 0648-0007.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; National Service Criminal History Check Recordkeeping Requirement

AGENCY: Corporation for National and Community Service.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Corporation for National and Community Service, operating as AmeriCorps, has submitted a public information collection request (ICR) entitled National Service Criminal History Check Recordkeeping Requirement for review and approval in accordance with the Paperwork Reduction Act.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by August 18, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Copies of this ICR, with applicable supporting documentation, may be obtained by calling the Corporation for National and Community Service, Elizabeth Appel, at 202-967-5070 or by email to eappel@cns.gov.

SUPPLEMENTARY INFORMATION: The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,
