Screening and Treatment for Maternal Depression and Related Behavioral Disorders Program Practice-Level Survey

**HRSA Evaluation of the Maternal and Child Health Bureau Pediatric
Mental Health Care Access and Screening and Treatment for Maternal
Depression and Related Behavioral Disorders Programs Project**

December 2019

Unique Identifier: _____
(e.g., Good Health Practice in Ohio, ZIP Code 44101 = OH101GO)

OMB No. 0906-XXXX
Expiration Date: XX/XX/202X

Public Burden Statement: This data collection will provide the Health Resources and Services Administration with information to guide future program and policy decisions regarding increasing health care providers' (i.e., physicians, nurse practitioners, physician assistants, nurse midwives, and other health care professionals) capacity to address patients' behavioral health and access to behavioral health services. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection is 0906-XXXX and it is valid until XX/XX/202X. This information collection is voluntary. The current project will fully comply with the Privacy Act of 1974 (5 U.S.C. Section 552a, 1998; <https://www.justice.gov/opcl/privacy-act-1974>). The Privacy Act may apply to some data collection activities (e.g., the study will collect email addresses from some respondents). Public reporting burden for this collection of information is estimated to average xx hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N136B, Rockville, Maryland, 20857 or paperwork@hrsa.gov.

HRSA Evaluation of the Maternal and Child Health Bureau Pediatric Mental Health Care Access and Screening and Treatment for Maternal Depression and Related Behavioral Disorders Programs Project

Screening and Treatment for Maternal Depression and Related Behavioral Disorders Program Practice-Level Survey

Funding for data collection supported by the
Maternal and Child Health Bureau (MCHB)
Health Resources and Services Administration (HRSA)
U.S. Department of Health and Human Services

HRSA funded [insert name of state] to implement a Screening and Treatment for Maternal Depression and Related Behavioral Disorders (MDRBD) program, [insert program name]. HRSA also funded JBS International, Inc. (JBS) to conduct an outcome and impact evaluation of the Maternal and Child Health Bureau (MCHB) MDRBD program (hereafter referred to as the HRSA MCHB evaluation). JBS is an independent evaluator of the program and is not part of HRSA or any other federal agency.

Survey Purpose: As part of the HRSA MCHB evaluation, we are conducting a survey of practices that have providers who are participating in [insert name of state]'s HRSA MDRBD program. The survey is designed to collect information on your practice's experiences with the MDRBD program (e.g., assessing and treating behavioral health conditions, accessing behavioral health care services for your practice's patients, and capacity to address behavioral health conditions) and assist HRSA in future program implementation.

Survey Instructions: This online survey should take less than fifteen (15) minutes for you to complete. Please answer based on your current practice and understanding, unless otherwise indicated. There are no right or wrong answers to the survey questions. Please note that your responses will remain private and are voluntary. Survey results will be reported to HRSA in the aggregate and no identifying information will appear in the evaluation reports without your prior approval. No identifiable data will be provided to HRSA.

About Your State's Program and Helpful Terminology: Each state's **MDRBD program** includes creating a clinical behavioral health consultation service; enrolling health care providers and practices into the program; and providing training on how to consult with the clinical behavioral health consultation service in your state and/or to provide behavioral health care in your practice. For the purposes of this survey, behavioral health encompasses both mental health and associated disorders as well as substance use disorders and staff refers to all staff in your practice – not just physicians. In addition, health care provider refers to primary care providers, not behavioral health providers.

Unique Identifier: _____
(e.g., Good Health Practice in Ohio, ZIP Code 44101 = OH101GO)

OMB No. 0906-XXXX
Expiration Date: XX/XX/202X

Please create a Unique Identifier for your survey to maintain the privacy of your responses and allow us to match your future survey responses.

How to create your practice's Unique Identifier: Use your state abbreviation, last three digits of your practice's ZIP code, and first two letters of your practice name. For example, for the Good Health practice located in Ohio in the ZIP code 44101, the Unique Identifier would be OH101GO.
