TITLE OF INFORMATION COLLECTION: FDA CTP 2021 Scholastic Vaping Education Materials Survey

Note: The survey respondent will *not* see any text in blue.

SCREENING QUESTIONS

The purpose of the **2021 Scholastic Vaping Education Materials Survey** is to understand educators' experiences with vaping and other tobacco prevention education materials offered by Scholastic Inc. in partnership with the U.S. Food and Drug Administration (FDA) Center for Tobacco Products (CTP). Vapes are a popular type of tobacco product that contain nicotine. Scholastic's The Real Cost of Vaping program provides classroom lessons and activities, along with other resources, to help teachers and administrators educate youth in grades 6–12 about the harms of vaping and other tobacco products.

Participation in the **2021 Scholastic Vaping Education Materials Survey** is completely voluntary. FDA is offering a \$10 electronic gift card for completing the survey. Choosing not to participate in the survey will not affect your ability to access future tobacco prevention resources from FDA.
