## Introduction

## Introduction

The Real Cost of Vaping is a program that helps teachers and administrators educate students in grades 6–12 about the harms of vaping and other tobacco products. First launched in 2018 by Scholastic, in collaboration with the U.S. Food and Drug Administration (FDA), The Real Cost of Vaping program includes a series of lesson plans, classroom activities, and other resources.

Note: You do not have to respond to any questions that you do not want to answer. You may skip any question and advance to the next question.

As a friendly reminder, FDA is offering a \$10 electronic gift card for completing the survey to thank you for your time.

## **Scholastic Materials**

## **Scholastic Materials**

The Real Cost of Vaping materials are available for two age groups: students in grades 6–8 and students in grades 9–12. For which age groups did you access or use The Real Cost of Vaping materials?

- Grades 6–8
- Grades 9–12
- I used materials for both age groups

From the list below, please select the materials you downloaded and used in the classroom at least once.

- Lesson 1 and Activity: Teens and Vaping: The Real Health Consequences
- Lesson 2 and Activity: Vaping Research Project
- Lesson 3 and Activity: Sizing Up E-Cigarette Marketing

Video Lesson 1 and Activity: Risks of E-Cigarettes
Video Lesson 2 and Activity: Nicotine and the Teen Brain
Video: It's Not Worth It: Teens Discuss the Effects of Vaping

Block 6

We greatly appreciate your feedback on The Real Cost of Vaping materials and what teachers like yourselves need to effectively teach youth about the harms of vaping and other tobacco products. Your responses to this survey will be used to develop FDA's next set of school-based materials on tobacco prevention for middle and high school students. The information you provided will inform a new set of lesson plans, activities, supporting guidance, and technical assistance for teachers. While the new materials are in development, The Real Cost of Vaping materials will continue to be available at https://www.scholastic.com/youthvapingrisks\_

Ethical & Independent Review Services IRB Study #21096-01

OMB No. 0910-0360 Exp. Date: 10/31/2023

Paperwork Reduction Act Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting burden for this information collection has been estimated to average 20 minutes per response to complete this survey (the time estimated to read, review, and complete). Send comments regarding this burden estimate or any other aspects of this information collection, including suggestions for reducing burden, to PRAStaff@fda.hhs.gov.
