SECTION A: SCREENER

STORING KEY SCREENER VARIABLES IN KEY ITEMS UPON ANSWERING:

(NOTE: Once answered in screener and stored, the stored answers will remain, even if the instrument takes a different path, so stored answers MAY have conflicting data. An example would be if SM says "DK" to A68 (birth month), the next question will be A69 (age). The A68 and A69 will be recorded in the KeyItems. If the age is off by more than 2 years, the case will exit and we will need to try for a proxy. When Proxy answers A68, A68a, A68b with a full birth date, the birthdate recorded in A68, A68a & A68b will be stored in KeyItems. Since A69 is no longer on route and A69 already has an answer, the A69 answer will still be stored in KeyItems.

A68

It said someone from Mathematica would call to ask you to take part in this survey. I work for Mathematica, a well-known research company based in Princeton, New Jersey. We were hired by Social Security to conduct this survey. The National Beneficiary Survey asks about your health, daily activities, and any jobs you may have. It also asks about Social Security programs or services you may use. The letter included the Privacy Act statement. It said that taking part in the survey is your choice and that your benefits will not be affected by your decision to answer the survey questions. It also said that the answers you give will be used only for research purposes to improve Social Security programs. If you get tired or need a break at any time, please tell me, and we will call back later to finish. This interview may be recorded for quality assurance. Let's start now.

CHECK ENTRY. IF NECESSARY READ: I may have recorded an incorrect answer. You said that {you were/NAME was} paid (C_B12amt) per (C_B12hop) before taxes and other deductions which would be about (C_B_JobMnthPay(1) per month and that (C_B13amt) per (C_B13hop), or about (C_B_JobMnthPayTH(1) per month was left as take-home pay after taxes and other deductions. Is this correct or should I change the amount {you were/NAME was} paid before taxes and other deductions or the amount {you/NAME} took home after taxes and other deductions?

Debo haber anotado una respuesta incorrecta. Dijo que a {usted/NAME} se le pagan (C_B12amt) por (C_B12hop) antes de impuestos y otras deducciones, lo que sería aproximadamente (C_JobMnthPay(1) por mes y que (C_B13amt) por (C_B13hop), o aproximadamente (C_BJobMnthPayTH(1) por mes, sobra como sueldo neto después de impuestos y otras deducciones. Basado en lo que anoté, su sueldo neto es más que su sueldo antes de impuestos. ¿Debo cambiar la cantidad que se le pagan a {usted/NAME} antes de los impuestos y otras deducciones o el sueldo neto de {usted/NAME} después de impuestos y otras deducciones?

- M10a. Thank you very much for taking part in this survey. Because people like you are such a valued part of what we do, I'd like you to think about the survey you just participated in. On a scale from 1 to 10 where one means 'it was not a good use of time' and ten means "it was a good use of time," which number between 1 and 10 best describes how you feel about your experience today?

Muchas gracias por haber tomado parte en esta encuesta. Gente como usted son una parte muy apreciada de lo que hacemos, quisiera saber qué piensa usted acerca de la encuesta en la que acaba de participar. Usando una escala de 1 (uno) a 10 (diez), en la cual 'uno' significa 'no fue' un buen uso de tiempo', y diez significa 'sí fue' un buen uso de tiempo', ¿qué número entre 1 y diez mejor describe lo que usted piensa acerca de su experiencia hoy día?
