## Introduction Script

Thank you for agreeing to join this meeting. I'm [NAME] and this is my colleague [NAME], and we work in the Office of Refugee Resettlement (ORR), which is a part of the government that provides funding for some of the services you receive. We are here to meet with recently arrived families to learn from you about your experiences.

During this meeting, we encourage you to share openly about your experiences that are good as well as difficulties or issues you are experiencing. There are no right or wrong answers. Our goal is to gather information that can be used to make changes and improvements to ORR's programs and services. The information you share with us today will help ORR identify training and technical assistance needs as well as service gaps and redundancies that can be addressed through program improvements.

Our meeting today will last about 60 minutes. Please know that your participation in this meeting is voluntary. You may choose to not answer any question and may stop participating in the meeting at any time.

I have one final point to make. Your name and other identifying information will not be included in any notes or reports. The reports are for internal planning and programmatic purposes and not for any kind of public dissemination, even if deidentified. However, we will need to report any suspicion of immediate harm to yourself, children, or others.

We value the time and information you will share with us today and want to make sure we accurately include all the details. With your permission, we will audio record the session and take notes (written and/or on a laptop computer). Those notes will not include your name. The recording will serve as a back-up tool to ensure we include all your comments in as close to your words as possible. Once the project is complete, all recordings will be destroyed. During
