SURVEY INFORMATION

Mathematica is conducting the American Indian and Alaska Native Head Start Family and Child Experiences Survey (AIAN FACES) for the Administration for Children and Families (ACF). ACF is part of the U.S. Department of Health and Human Services.

We are inviting you to complete a survey about you and your child, because they are in a Head Start program that is taking part in AIAN FACES. This study aims to learn more about families in Head Start and the services Head Start provides. By completing this survey, you will help Head Start serve all children and their families. The survey will take about [IF WAVE = 1: 35 minutes; IF WAVE = 2 and PREVINT = 1: 31 minutes; IF WAVE = 2 and PREVINT = 0: 40 minutes] to complete.

Please click the button below to continue or close this webpage to exit.

Thank you for agreeing to complete this survey. [As you may remember, the/The] purpose of this study is to learn more about families in the Head Start Program. [When we spoke to parents from [CHILD]'s Head Start program last fall we were unable to interview you.]

We also want to learn more about the program [CHILD] attends. This will help us understand Head Start from a parent's point of view, including some information about your child's home environment. Information from this study will be used to help Head Start better serve all children and their families.

In this survey we'll want to learn more about the activities you do with your child, including the language you speak with them regularly. We will use the term Native to refer to American Indian or Alaska Native culture or language.

Taking part is completely voluntary. There are no risks or direct benefits from taking part in the study. Your choice to take part or not will not affect the Head Start services you and your child receive. If you choose to take part in the study but then decide you want to leave the study at any point, that is okay.

No one outside of the Mathematica study team will be able to connect you to the answers you provide to the survey questions. Some questions might ask you to answer questions in your own words. We may use statements or parts of statements you make in connection with the study; however, we will not identify you as the source of the statement; we also will not identify your program or community. We will never identify you or any individual parent, child, or other staff member, in any report; reports will contain only general study results. All information collected as part of AIAN FACES will be kept private to the extent permitted by law unless we learn that a child has been hurt or is in danger or you tell us that you plan to seriously hurt yourself or someone else – then by law, we must make a report to the appropriate legal authorities. In the future, survey responses from the study (with nothing identifying individuals, programs, or communities) will be securely shared only with qualified individuals who are studying Head Start children, their families, and programs.

We have a Certificate of Confidentiality from the National Institutes of Health. The Certificate helps us protect your privacy. This strictly limits when the study team can give out information that identifies you, even in court. However, we may need to share your information if it shows a serious threat to you or to others, including reporting to authorities when required by law. The U.S. Department of Health and Human Services (DHHS) may ask for data for an audit or evaluation. If they do, we will need to provide it. However, only DHHS staff involved in the review will see it.

Your answers are very important, so please be as accurate as possible. Occasionally, you may be asked a question that does not apply to you or that you may not want to answer. If that happens, you can skip it and move on to the next question. Additionally, some questions will be about the COVID-19 pandemic, your mental health, and national events that may have caused you and your family distress. If needed, the National Suicide Prevention Lifeline offers free and confidential support for people in distress and is available 24 hours a day. Their toll-free telephone number is 1-800-273-8255.
