CET – Annotated Questionnaire (Wave 56)

Note: The questions below are the proposed questions for the fifty-sixth wave of the Weekly Current Events Tracker (CET). Questions highlighted in ==yellow== will be asked every week; questions highlighted in ==blue== will be rotated into the survey on a monthly basis; and questions highlighted in ==green== are meant to be asked in this wave only or are being asked again to update data on a variable of interest. We will be fielding questions about pandemic fatigue, pediatricians, information sources, and reasons for waiting to get a vaccine or a booster.

For the next section we would like to talk about current events.
