If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:

The selection of your targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe? Yes No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

We'll identify and select participants from HRSA's GovDelivery system. The administrators of HRSA's GovDelivery system will send a general bulletin to their email list which will contain a link to the study on our web tool.

When a recipient of the email selects the link, a random number will be attached to their study responses. This number will be the only way to identify the respondent. After we collect responses, we'll screen survey responses to remove surveys that are less than 75% complete.

Administration of the Instrument

1. How will you collect the information? (Check all that apply)

Web-based or other forms of Social Media

Telephone

In-person

Mail

Other, Explain

2. Will interviewers or facilitators be used? Yes No

Please make sure that all instruments, instructions, and scripts are submitted with the request.
