

ASPA COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine acceptance and reinforce basic prevention measures

CET – Annotated Questionnaire (Wave 34)

Note: The questions below are the proposed questions for the thirty-fourth wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in Wave 34 only or are being asked again to update data on a variable of interest. We will be fielding new questions about boosters, side effects, pending Pfizer approval in children, parents' preferred vaccine location, vaccine mandates, pandemic strain on the medical system, current assessment of the pandemic, and anticipated holiday plans.

Standard Questions

Modular Questions

One-Time or Repeat Questions Being Asked Again to Update Data

For the next section we would like to talk about current events.

// Page Break //

//BASE: All respondents//

Item #: Q1

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

beh1_cet_r. Have you received a COVID-19 vaccine?

Variable Label: beh1_cet_r: Vaccination behavior

Value	Value Label
0	No, I have not received a COVID-19 vaccine
1	Yes, but I have only received one shot out of the two required shots
2	Yes, I have received all of the required shots
-99	Refused

// Page Break //

//PROGRAMMING NOTE: beh1_cet_r =1 or 2//

Item #: Q2

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

vaccine_id. Which COVID-19 vaccine did you receive?

Variable Label: vaccine_id: Vaccine ID

Value	Value Label
2	Johnson & Johnson/Janssen
3	Moderna
4	Pfizer-BioNTech
5	Other
99	I do not remember
-99	Refused
-100	Valid skip

// Page Break //

//PROGRAMMING NOTE: beh1_cet_r =2 & vaccine_id=3-5//

Item #: Q3

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

vacc_side_effects. Thinking back to the second dose of your COVID-19 vaccine, what was your experience with side effects? Please rate your experience with side effects from "none" to "very severe."

Variable Label: vacc_side_effects: Experience with vaccine side effects after second dose

Value	Value Label
1	None, I did not experience any side effects
2	Mild
3	Moderate
4	Severe
5	Very severe
99	I do not remember
-99	Refused
-100	Valid skip

// Page Break //

//BASE: All respondents//

Item #: Q4

Question Type: Multi punch

// Soft Prompt: "We would like your response to this question." //

booster_elig. Do any of the following conditions apply to you? Please select all that apply.

Variable Label: booster_elig: Current booster eligibility

Value	Value Label
1	Age 65 years and older
2	Age 18+ who lives or works in a long-term care setting (e.g., nursing home, assisted living facility, inpatient setting, section 811 HUD-assisted housing, etc.)
3	Age 18+ with an underlying medical condition (e.g., cancer, chronic lung diseases, liver disease, overweight and obesity, current or former smoker, etc.)
4	Age 18+ who lives or works in

	a high-risk setting (e.g., first responder, education staff, food and agricultural worker, corrections officer, grocery store worker, etc.)
5	Age 18+ with a moderately or severely compromised immune system (e.g., receiving active cancer treatment, received an organ transplant, primary immunodeficiency, advanced or untreated HIV infection, etc.)
6	None of the above [EXCLUSIVE]
-99	Refused

// Page Break //

//BASE: beh1_cet_r =2//

Item #: Q5

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster uptake2. U.S. health officials and medical experts announced that COVID-19 vaccine booster shots are recommended for some groups of people to maintain full protection against the virus. Have you received a COVID-19 vaccine booster shot?

Variable Label: booster_uptake2: Booster uptake – September guidance

Value	Value Label
0	No
1	Yes
-99	Refused
-100	Valid skip

// Page Break //

//PROGRAMMING NOTE: booster_uptake2=1//

Item #: Q6

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster side effects. Thinking back to your COVID-19 vaccine booster shot, what was your experience with side effects? Please rate your experience with side effects from "none" to "very severe."

Variable Label: booster_side_effects: Experience with vaccine side effects after second dose

Value	Value Label
1	None, I did not experience any side effects
2	Mild
3	Moderate
4	Severe
5	Very severe
99	I do not remember
-99	Refused

// Page Break //

//BASE: (((booster_uptake2=0) & ((booster_elig=1-6 & vaccine_id=4) OR (booster_elig=5 & vaccine_id=3-4))))//

Item #: Q7

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_elig_uptake. U.S. health officials and medical experts announced that COVID-19 vaccine booster shots are recommended for some groups of people to maintain full protection against the virus. You are currently eligible to receive a COVID-19 vaccine booster shot. What is the likelihood that you will get one?

Variable Label: booster_elig_uptake: Booster uptake likelihood – eligible adults

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused
-100	Valid skip

// Page Break //

//BASE: (booster_uptake2=0 & booster_elig=6)//

Item #: Q8

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_likely_v. U.S. health officials and medical experts announced that COVID-19 vaccine booster shots are recommended for some groups of people to maintain full protection against the virus. What is the likelihood that you will get a COVID-19 vaccine booster shot if eligible?

Variable Label: booster_likely_v: Booster uptake likelihood – vaccinated adults

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused
-100	Valid skip

// Page Break //

//BASE: beh1_cet_r =0 OR -99//

Item #: Q9

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

beh2a_cet. What is the likelihood that you will get a COVID-19 vaccine?

Variable Label: beh2a: Intention to get vaccinated

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused
-100	Valid Skip

// Page Break //

//BASE: beh1_cet_r =1//

Item #: Q10

Question Type: Single punch

// Soft Prompt: “We would like your response to this question.” //

beh2b_cet. What is the likelihood that you will complete COVID-19 vaccination?

Variable Label: beh2b_cet: Intention to complete vaccination

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused
-100	Valid skip

// Page Break //

//BASE: beh1_cet_r =0 OR -99//

Item #: Q11

Question Type: Single punch

// Soft Prompt: “We would like your response to this question.” //

beh3a_cet_r. How soon will you get vaccinated?

Variable Label: beh3a_cet_r: Wait to get vaccinated

Value	Value Label
1	I will get a vaccine as soon as I can
2	I will wait to get a vaccine for one or more reasons
3	I will never get a COVID-19 vaccine
-99	Refused
-100	Valid Skip

// Page Break //

//PROGRAMMING NOTE: beh1_cet_r =1//

Item #: Q12

Question Type: Single punch

// Soft Prompt: “We would like your response to this question.” //

beh3b_cet_r. How soon will you get the second required dose?

Variable Label: beh3b_cet_r: Wait to complete vaccination

Value	Value Label
1	I will get the second required shot as soon as I can
2	I will wait to get the second required shot for one or

	more reasons
3	I will never get the second required COVID-19 shot
-99	Refused
-100	Valid Skip

// Page Break //

//BASE: beh1_cet_r =0 OR -99//

Item #: Q13

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_likely_un. U.S. health officials and medical experts announced that COVID-19 vaccine booster shots are recommended for some groups of people to maintain full protection against the virus. Does this make you more likely, less likely, or not affect whether you will get a COVID-19 vaccine?

Variable Label: booster_likely_un: Booster impact on vaccine uptake – unvaccinated

Value	Value Label
1	Much less likely
2	Somewhat less likely
3	Not affect
4	Somewhat more likely
5	Much more likely
-99	Refused
-100	Valid skip

Item #: Q14

Question Type: Multi punch

// Soft Prompt: "We would like your response to this question." //

parent. Are you the parent of a child or children in the following age groups?

Variable Label: parent: Parent of children in following age groups

Value	Value Label
1	Younger than 6 months old
2	6 months to <2 years old
3	2 to 4 years old
4	5 to 11 years old
5	12 to 15 years old
6	16 to 17 years old
99	None of the above, I do not have children in those age groups [EXCLUSIVE]
-99	Refused

// Page Break //

//BASE: Parent= 5-6//

Item #: Q15

Question Type: Single punch grid

// Soft Prompt: "We would like your response to this question." //

child_vaxxed_2. Has your child(ren) in the following age group(s) received a COVID-19 vaccine?

Note: If you have more than one child in the same age group, please answer for at least one of them.

Variable Label: child_vaxxed_2: Child vaccinated

//PROGRAMMING NOTE: PIPE 5 AND/OR 6 responses from parent//

Value	Value Label	
child_vaxxed_2_5	12 to 15 years old	child_vaxxed_5: 12 to 15 years old
child_vaxxed_2_6	16 to 17 years old	child_vaxxed_6: 16 to 17 years old

Value	Value Label
0	No, has not received a COVID-19 vaccine
1	Yes, but has only received one shot out of the two required shots
2	Yes, has received all of the required shots
-99	Refused
-100	Valid skip

// Page Break //

//BASE: Parent= 4-6//

Item #: Q16

Question Type: Multi punch grid

// Soft Prompt: "We would like your response to this question." //

child_vaxx_loc. Where would you prefer to get your child(ren) in the following age groups vaccinated? Please select all that apply.

Note: If you have more than one child in the same age group, please answer for at least one of them.

Variable Label: child_vaxx_loc: Preferred location of child vaccination

//PROGRAMMING NOTE: randomize variables in grid//

Value	Value Label	
child_vaxx_loc_5to11	5 to 11 years old [Show if parent=4]	child_vax_loc_5to11: Location of vaccination 5 to 11 years old
child_vaxx_loc_12to17	12 to 17 years old [Show if parent=5-6]	child_vaxx_loc_12to17: 16 to 17 years old

Value	Value Label
1	A doctor's office
2	A clinic
3	A pharmacy
4	At school
5	On-site at special events (e.g.,

	festival, sporting event, concert, etc.)
6	A community vaccination site
-99	Refused
-100	Valid skip

Item #: Q17

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

pfizer_pending. Pfizer-BioNTech recently submitted data to the FDA on the safety and effectiveness of its COVID-19 vaccine for children ages 5 to 11 years old. An FDA panel plans to meet later this month to discuss granting the Pfizer-BioNTech vaccine emergency use authorization (EUA) for children ages 5 to 11 years old.

Please indicate how much you agree or disagree with the following statements:

Variable Label: pfizer_pending: Perceptions of pending Pfizer authorization for children

//PROGRAMMING NOTE: randomize variables in grid//

Variable Name	Variable Text	Variable Label
pfizer_pending_1	I expect the FDA panel to grant the Pfizer-BioNTech vaccine an EUA for children ages 5 to 11 years old.	pfizer_pending_1: Expect the EUA
pfizer_pending_2	I am confident that the EUA decision will be driven by the science.	pfizer_pending_2: Driven by the science
pfizer_pending_3	I am concerned that the EUA decision will be affected by politics.	pfizer_pending_3: Affected by politics
pfizer_pending_4	I think it is critical that children ages 5 to 11 years old are able to get a COVID-19 vaccine as soon as possible.	pfizer_pending_4: Critical young children get vaccinated
pfizer_pending_5	If the Pfizer-BioNTech vaccine is granted an EUA, I plan to get my 5- to 11-year-old child(ren) vaccinated. [Show if parent=4]	pfizer_pending_5: Plan to get child(ren) vaccinated

Value	Value Label
1	Strongly disagree
2	Somewhat disagree
3	Neither agree nor disagree
4	Somewhat agree
5	Strongly agree
99	Refused

//BASE: All respondents//

Item #: Q18

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

employ_vacc. Do any of the following employment situations apply to you?

//PROGRAMMING NOTE: randomize variables in grid//

Variable Name	Variable Text	Variable Label
employ_vacc_1	I am currently employed by the federal government.	employ_vacc_1: Employee of federal government
employ_vacc_2	I am currently a contractor working with the federal government.	employ_vacc_2: Employee of federal contractor
employ_vacc_3	I currently work or volunteer in a health care setting (e.g., hospital, nursing home, dialysis facility, ambulatory surgical setting, home health agency, etc.) that receives Medicare or Medicaid reimbursement.	employ_vacc_3: Health care employee
employ_vacc_4	I currently work for a private employer that has 100 or more employees.	employ_vacc_4: Employee of large private employer

Value	Value Label
0	No
1	Yes
99	I don't know
-99	Refused

// Page Break //

//BASE: beh1_cet=0 OR -99 AND (employ_vacc_1=1 OR employ_vacc_2=1 OR employ_vacc_3=1 OR employ_vacc_4=1)//

Item #: Q19-Q20

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

mandate_intent. President Biden recently announced a new national strategy to combat the pandemic. Parts of this approach include:

- Requiring that all employees of companies with 100+ employees receive a COVID-19 vaccine or workers who choose to remain unvaccinated produce a negative COVID-19 test on at least a weekly basis before coming to work
- Requiring that all federal workers or contractors that work with the federal government receive a COVID-19 vaccine, with limited exemptions for health or religious reasons
- Requiring that all staff or volunteers in a health care setting (e.g., hospital, nursing home, dialysis facility, ambulatory surgical setting, home health agency, etc.) that receives Medicare or Medicaid reimbursement receive a COVID-19 vaccine
- Employers with 100+ employees will be required to provide paid time off for employees to get vaccinated and to recover from post-vaccination side effects.

Please indicate how much you agree or disagree with the following statements:

Variable Label: mandate_intent: Intentions to comply with employer vaccination mandates

//PROGRAMMING NOTE: randomize variables in grid//

Variable Name	Variable Text	Variable Label
mandate_intent_1	I was already planning to get vaccinated, so the mandates do not impact me.	mandate_intent_1: Plan to get vaccinated

mandate_intent_2	Because of mandates, I will get vaccinated right away.	mandate_intent_2: Will get vaccinated because of mandates
mandate_intent_3	I will wait to get vaccinated until a mandate is enforced.	mandate_intent_3: Wait to get vaccinated until mandate enforced
mandate_intent_4	I wasn't sure if I should get a COVID-19 vaccine, but because of the mandate, I will.	mandate_intent_4: Was not sure about getting vaccinated
mandate_intent_5	Despite the mandate I will wait to get vaccinated because the courts may rule against them.	mandate_intent_5: Will wait because of courts
mandate_intent_6	I would rather quit my job than be required to get a COVID-19 vaccine.	mandate_intent_6: Rather quit job
mandate_intent_8	I plan to do weekly COVID-19 testing instead of getting a COVID-19 vaccine, even if I have to pay for it myself. [Show if employ_vacc_4=1]	mandate_intent_8: Weekly testing, even if employee pays for it
mandate_intent_9	I plan to do weekly COVID-19 testing instead of getting a COVID-19 vaccine, but only if my employer pays for it. [Show if employ_vacc_4=1]	mandate_intent_9: Weekly testing, but only if employer pays for it
mandate_intent_10	I think it is fair to require employees to pay for their own weekly COVID-19 testing if they choose not to get a COVID-19 vaccine.	mandate_intent_10: Fair to make employee pay for testing

Value	Value Label
1	Strongly disagree
2	Somewhat disagree
3	Neither agree nor disagree
4	Somewhat agree

ptn_w34

We are interested in your opinion of a few messages about COVID-19 vaccination.

For each of the below messages, please indicate how much you agree or disagree with the following statement:

"I would share the information in the message with a friend or family member who wants to know more about COVID-19 vaccines."

//PROGRAMMING NOTE: randomize variables in grid//

Variable Name	Variable Text	Variable Label
ptn_w34_1	Many people who are vaccinated with the Pfizer BioNTech COVID-19 vaccine are eligible for a booster shot.	ptn_w34_1: Many eligible for booster
ptn_w34_2	Certain people may need increased protection against COVID-19, making them eligible for a booster shot six months after their final dose.	ptn_w34_2: Certain people may need additional protection
ptn_w34_3	People under 30 can experience lingering health problems for months from the virus that causes COVID-19. In contrast, vaccine side effects almost always go away within a few days.	ptn_w34_3: Young people can experience long COVID
ptn_w34_4	Very few vaccinated people get seriously ill or need hospital care for COVID.	ptn_w34_4: Few vaccinated people are hospitalized
ptn_w34_5	Vaccines help prevent COVID from spreading because vaccinated people are much less likely to get COVID. In uncommon breakthrough COVID cases, vaccinated people are contagious for a shorter time than unvaccinated people.	ptn_w34_5: Vaccines help prevent spread
