Section I. Reporting Basics

a) Overview

This document provides information on using Treasury's Portal to submit the required Coronavirus State and Local Fiscal Recovery Funds (SLFRF) Project and Expenditure (P&E) reports for the April 2022 submission deadline. It is a supplement to the Compliance and Reporting Guidance ([Reporting Guidance](#)), which contains relevant information and guidance on the reporting requirements.

Additionally, you should visit Treasury's [SLFRF home page](#) for the latest guidance and updates on programmatic and reporting topics, as well as information on Treasury's [final rule](#), which takes effect on April 1, 2022. Recipients and stakeholders are also encouraged to consult the [Overview of the Final Rule](#), which provides a summary of Final Rule provisions for informational purposes, and to visit the Final Rule section below for more details.

Each SLFRF recipient is required to submit periodic reports with current performance and/or financial information including background information about the SLFRF projects that are the subjects of the reports; and financial information with details about obligations, expenditures, direct payments, and subawards.

If you have any questions about the SLFRF program's reporting requirements, please contact us by email to SLFRP@treasury.gov.

b) What is Covered in this User Guide?

This User Guide contains detailed guidance and instructions for SLFRF recipients in using Treasury's Portal for submitting the Project and Expenditure reports. All recipients must submit the required reports via Treasury's Portal. This guide is not comprehensive and is meant to be used in conjunction with the documents mentioned above.

This User Guide provides detailed instructions to help recipients enter and submit the following:

- Project data
- Subrecipient/Beneficiary/Contractor data
- Subaward/Direct Payment data
- Expenditure data
- Project and Expenditure Bulk Upload Templates

c) Designating Staff for Key Roles in Managing SLFRF Reports User Designations

SLFRF recipients are required to designate staff or officials for the following three roles in managing reports for their SLFRF award. Recipients must make the required designations prior to accessing Treasury's Portal. The required roles are as follows:

- **Account Administrator** for the SLFRF award has the administrative role of maintaining the names and contact information of the designated individuals for SLFRF reporting. The Account Administrator is also responsible for working within your organization to determine its designees for the roles of Point of Contact for Reporting and Authorized Representative for Reporting and providing their names and contact information via Treasury's Portal. Finally, the Account Administrator is responsible for making any changes or updates to the

user roles as needed over the award period. We recommend that the Account Administrator identify an individual to serve in his/her place in the event of staff changes.

- **Point of Contact for Reporting** is the primary contact for receiving official Treasury notifications about reporting on the SLFRF award, including alerts about upcoming reporting, requirements, and deadlines. The Point of Contact for Reporting is responsible for completing the SLFRF reports.
- **Authorized Representative for Reporting** is responsible for certifying and submitting official reports on behalf of the SLFRF recipient. Treasury will accept reports or other official communications only when submitted by the Authorized Representative for Reporting. The Authorized Representative for Reporting is also responsible for communications with Treasury on such matters as extension requests and amendments of previously submitted reports. The official reports may include special reports, quarterly or annual reports, interim reports, and final reports.

<https://portal.treasury.gov/compliance/s/>

For Accounts registered through ID.me

Treasury Portal at

<https://portal.treasury.gov/cares/s/slt/s/slt>

Some key items to note:

- Each designated individual must register with either Login.gov or ID.me for gaining access to Treasury's Portal.
- If you have not previously registered an account, you should register through Login.gov following this [link](#). This [link](#) includes further instructions. The following links provide additional information:
 - o <https://login.gov/create-an-account/>
 - o <https://login.gov/help/get-started/create-your-account/>
- **Note:** if you are a Non-Entitlement Unit of Local Government (NEU), you should register using the Login.gov process linked above.
- Users who have previously registered through ID.me may continue to access Treasury's Portal through that method. This [link](#) includes further instructions.
- An individual may be designated for multiple roles. For example, the individual designated as the Point of Contact for Reporting may also be designated as the Authorized Representative for Reporting.
- The recipient may designate one individual for all three roles.
- Multiple individuals can be designated for each role.

- An organization may make changes and updates to the list of designation individuals whenever needed. These changes must be processed by the Account Administrator.
- The designated individuals' names and contact information will be pre-populated in the "Recipient Profile" portion of the recipient's SLFRF reports, and recipients will be able to update the information, if necessary.

Recipients should refer to [Appendix A](#) for guidance on designating individuals for the three roles. Treasury also posted a series of webinars with guidance, as noted below:

- [Account Creation and Login](#) - creation of account in Treasury's Portal through ID.me or Login.gov
- [User Roles](#) - assignment and updates of user roles in Treasury's Portal

Please contact SLFRP@treasury.gov for additional information on procedures for registering an account.

Section II. Navigation and Logistics

a) Login to Landing Page and Portal Navigation

After logging into Treasury's Portal, the landing page (see Figure 1) will appear listing Treasury's Office of Recovery Programs-administered program(s) for which your organization may be eligible.

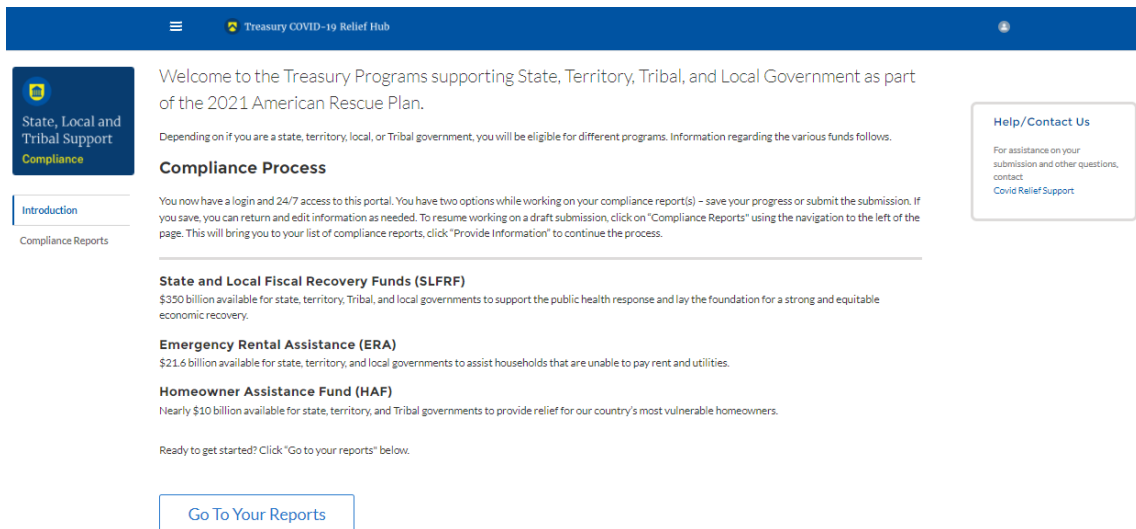

Figure 1 Landing Page

From the landing page, select *Go to Your Reports* or *Compliance Reports* on the left side panel to be taken to a list of options for the programs you have access to under the Report Selection section.

At this time, you may select the SLFRF Project and Expenditures report.

Each listed report constitutes a link to that specific report's online forms. Selecting a report from the landing page will open the first in a series of screens.

To begin completing a specific report, click on *Provide Information* for the given report. Refer to the [Reporting Guidance](#) for details about each type of required report for submittal.

The Navigation Bar (see Figure 2) on the left of Treasury's Portal will allow you to freely move between screens.

b) Helpful Tips/Shortcuts for Submitting Data to Treasury's Portal

Treasury's Portal leads you through a series of online forms that, when completed, will fulfill your reporting obligations. While navigating through Treasury's Portal and submitting required information, users will have the option of manually entering data directly into Treasury's Portal or providing information via a bulk upload file that includes all relevant information in a Treasury approved process and format.

1. Bulk File Upload Files

Recipients can use the bulk upload function for providing required information in the modules listed here:

- Project Overview
- Subrecipients/Beneficiaries/Contractors
- Subawards/Direct Payments
- Expenditures

When using the bulk upload, recipients must provide the required information in specified formats and use the Treasury approved templates for each respective bulk upload. Recipients can download the templates separately or as a single zip file from selections available at the bottom of the Introduction and Bulk Upload Templates screen (Figure 3). In addition, individual templates are available from relevant screens throughout the portal.

- Introduction/Bulk Templates
- Recipient Profile
- Project Overview
- Subrecipients/ Beneficiaries/ Contractors
- Subawards/Direct Payments
- Expenditures
- Recipient Specific
- Certification

Figure 2 Navigation Bar

Figure 3 Introduction and Bulk Upload Templates Screen

Please see [Appendix B](#) – Bulk File Upload Overview for complete guidance on using this important function.

Modules accepting bulk upload files are clearly marked in Treasury’s Portal and identified in later sections of this User Guide. The template for each upload file is available on the “Introduction/Bulk Templates” module for download and in the subsequent data entry modules (see Figure 4).

General Project Information

*Project Expenditure Category Group

*Project Expenditure Category

[Download the Project Baseline Template](#) [Upload Project Baseline Template](#)

Figure 4 Sample Bulk Upload Icon

All bulk file templates download in the .xls format, but these files must be converted to .csv format to properly upload. When you click the upload button you will be directed to an upload screen. You can either choose to add files or drag and drop files to initiate the bulk upload (see Figure 5). Refer to [Appendix B](#) for additional instructions to submit bulk upload files.

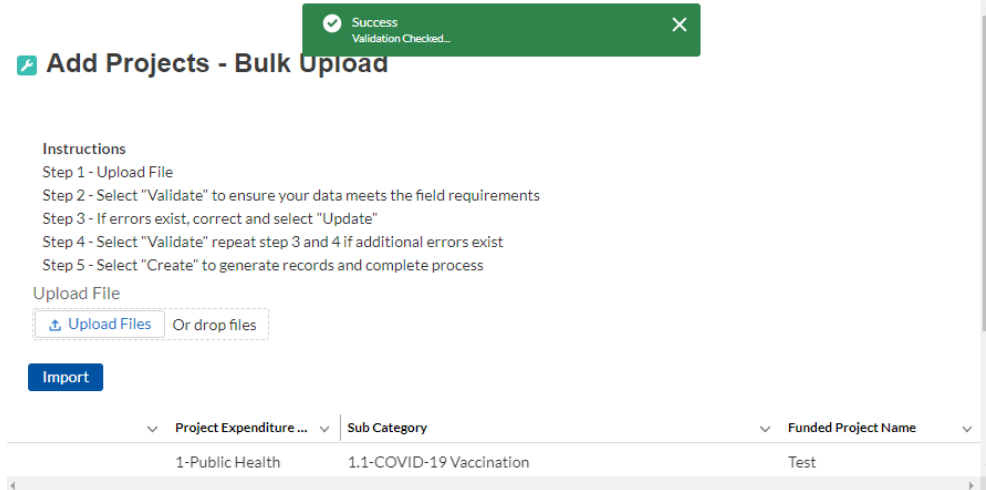

Figure 5 Successful Bulk Upload Example

Treasury’s Portal will reject the file if an incorrect template, data format, or file format other than .csv is used for upload (see Figure 5). Treasury’s Portal will display an error message on screen if the bulk data upload file contains errors. If you receive an error message, you will need to correct the errors either in the bulk upload file or on screen and re-submit the corrected version.

There are four common Bulk File Upload errors as described below:

- **Blank Required Data:** When a required field is left blank within your bulk upload file, the specific bulk upload file row and cell number will be provided on the screen. In the example below, the user left “Name” blank and the error is located in Column X, Row 8 (see Figure 6).

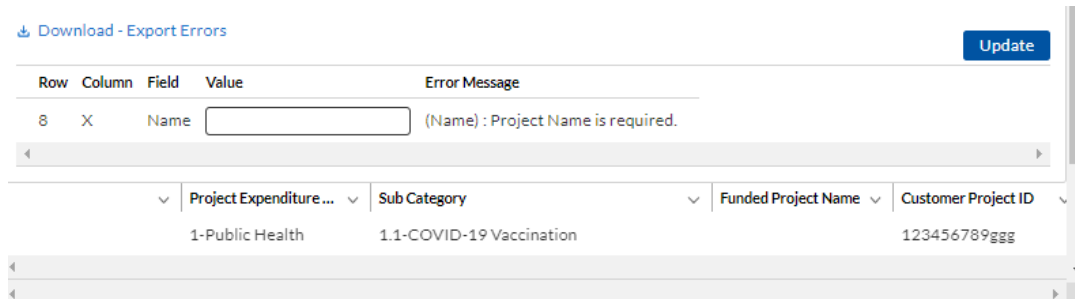

Figure 6 Blank Required Data Error

- **Invalid Data:** Invalid data includes any type of data (numeric or text) that does not meet the requirements set forth in the Help Text within each bulk upload template. In the example below, the user made an error pertaining to the “Completion Status” and the error is located in Column F, Row 8 (see Figure 7).

Download - Export Errors Update

Row	Column	Field	Value	Error Message
8	F	Completion_Status_c	*****	(Completion_Status_c) : Completion Status: bad value for restricted picklist field: *****

Project Expenditure Category	Sub Category	Funded Project Name	Customer Project
1-Public Health	1.1-COVID-19 Vaccination		

Figure 7 Invalid Data Error

- Duplicate Data:** Duplicate data includes any type of data (numeric or text) that is repeated in the same column when the Help Text within a bulk upload template requires a unique entry. For example, unique numbers should be provided for the project identification number. In the example below, the user made an error pertaining to the “Project Identification Number” and the error is in Column E, Row 8 (see Figure 8).

Download - Export Errors Update

Row	Column	Field	Value	Error Message
8	E	Project_Identification_Number_c	123456789	(Project_Identification_Number_c) : 123456789 is already in use

Project Expenditure Category	Sub Category	Funded Project Name	Customer Project
1-Public Health	1.1-COVID-19 Vaccination		123456789

Figure 8 Duplicate Data Error

- Non-existent Reference:** This instance would include uploading data that references other records that do not yet exist or have not been previously uploaded into Treasury’s Portal. For example, uploading a subaward template that is filled out correctly, but references subrecipient identification (ID) records that have not been uploaded to the Subrecipient/Beneficiaries/Contractors module. This will result in an error and any pre-requisite data must be uploaded first in order for the reference to work. In this example the non-existent data is the Project ID Number field located in Column D, Row 8 (see Figure 9).

2. Manual Data Entry

Manual data entry requires you to provide inputs as instructed on the screen. Manual inputs are described in detail below for each section of this user guide.

Note: An asterisk (*) indicates a required field. Entry into the field is required before you can save or proceed to the next screen.

Your inputs will be subject to validation by Treasury’s Portal to ensure that the data provided is consistent with expected format or description (e.g., entering “one hundred” instead of 100). If a given data entry fails a validation rule, Treasury’s Portal will display an error for you to address.

You will not be able to submit manually entered data that does not satisfy the data validation rules.

3. Narrative Boxes

When filling out detailed narratives, you are encouraged to type out responses in a word processing application (such as Microsoft Word) to minimize grammatical errors, track word count, and concisely answer all required narrative details. You can then copy and paste the final written narratives directly into the text boxes.

The text boxes (see Figure 10) can be expanded by clicking and dragging the icon in the bottom-right corner.

Figure 10 Manual Validation Text Box

4. Corrections and Resubmissions

In the event a file is uploaded, or information is entered into Treasury’s Portal, the information will be accepted by Treasury’s Portal as a record.

After a recipient’s submission has been certified and submitted in the system by the Authorized Representative for Reporting, it can be corrected in the Portal by selecting the *Unsubmit* button. Recipients may unsubmit, then resubmit, their Project and Expenditure Report any time before the reporting deadline (see Figure 11).

Figure 11 Screenshot of Unsubmit Button

Section III. Reporting Requirements

a) Reporting Requirements by Recipient

For the SLFRF program, reporting requirements vary by recipient type, as shown in the table below. Detailed instructions for completion and submission of each report are covered in Part 2 of the [Reporting Guidance](#).

Tier	Recipient	Interim Report	Project and Expenditure Report	Recovery Plan Performance Report
1	States, U.S. territories, metropolitan cities and counties with a population that exceeds 250,000 residents	By August 31, 2021 or 60 days after receiving funding if funding was received by October 15, with expenditures by category.	By January 31, 2022, and then 30 days after the end of each quarter thereafter <i>Note: NEUs were not required to submit a Project and Expenditure Report on January 31, 2022. The first reporting date for NEUs will be April 30, 2022.</i>	By August 31, 2021 or 60 days after receiving funding, and annually thereafter by July 31
2	Metropolitan cities and counties with a population below 250,000 residents that are allocated more than \$10 million in SLFRF funding, and NEUs that are allocated more than \$10 million in SLFRF funding.	<i>Note: NEUs were not required to submit an Interim Report</i>		
3	Tribal Governments that are allocated more than \$30 million in SLFRF funding			
4	Tribal Governments that are allocated less than \$30 million in SLFRF funding		By April 30, 2022, and then annually thereafter	
5	Metropolitan cities and counties with a population below 250,000 residents that are allocated less than \$10 million in SLFRF funding, and NEUs that are allocated less than \$10 million in SLFRF Funding			

Note: Based on the period of performance, reports will be collected through April 30, 2027.

The total SLFRF allocations across all sources for a given jurisdiction will be used to identify that jurisdiction's Reporting Tier, beginning in April 2022. Treasury may reach out to jurisdictions to update Reporting Tiers.

b) Project and Expenditure Report Requirements

1. Quarterly Reporting

The following recipients are required to submit quarterly Project and Expenditure Reports:

- States and U.S. territories
- Metropolitan cities and counties with a population that exceeds 250,000 residents
- Metropolitan cities and counties with a population below 250,000 residents that are allocated more than \$10 million in SLFRF funding
- NEUs that are allocated more than \$10 million in SLFRF funding
- Tribal Governments that are allocated more than \$30 million in SLFRF funding

For recipients who are completing their first quarterly reporting in the April 2022 cycle, their first Project and Expenditure Report will cover the period from March 3, 2021 to March 31, 2022 and must be submitted to Treasury by April 30, 2022

The subsequent quarterly reports will cover one calendar quarter and must be submitted to Treasury by the last day of the month following the end of the period covered. Quarterly reports are not due concurrently with applicable annual reports.

2. Annual Reporting

The following recipients are required to submit annual Project and Expenditure Reports:

- Tribal Governments that are allocated less than \$30 million in SLFRF funding
- Metropolitan cities and counties with a population below 250,000 residents that are allocated less than \$10 million in SLFRF funding
- NEUs that are allocated less than \$10 million in SLFRF funding.

For these recipients, the initial Project and Expenditure Report will cover the period from March 3, 2021 to March 31, 2022 and must be submitted to Treasury by April 30, 2022. The subsequent annual reports will cover one calendar year and must be submitted to Treasury by April 30 each year.

c) Key Concepts for Reporting

The following concept structure applies to all report types:

1. Expenditure Categories

- For each project, recipients will be asked to select the appropriate Expenditure Category based on the scope of the project (as described in Appendix 1 of the Reporting Guidance). Projects should be scoped to align to a single Expenditure Category.
- The Expenditure Categories are important not only for tracking projects and expenditures, but also because for certain Expenditure Categories you will need to provide additional

programmatic data. You will see them referred to regularly throughout the Reporting Guidance and in this User Guide with “EC” followed by a number.

- The 83 Expenditure Categories provide a flexible method to categorize projects. Each Expenditure Category could include many different programs and activities.
- [Appendix C](#) includes the full list of the 83 Expenditure Categories², which refers to the detailed level. For instance, EC 1 is the Project EC Group “Public Health,” and EC 1.1 is the Project EC “COVID-19 Vaccination.”
- Each recipient is required to report **obligations** and **expenditures** by project according to the corresponding Expenditure Category (EC). As noted in the Reporting Guidance, there are a wide range of eligible uses of the SLFRF funds, and Treasury must be able to track how funds are used by recipients for oversight and transparency purposes. In addition, States, U.S. territories, and metropolitan cities and counties with a population over 250,000 also need to provide the **adopted budget** for each project.
 - o An obligation is an order placed for property and services, contracts and subawards made, and similar transactions that require payment.
 - o An expenditure is the amount that has been incurred as a liability of the entity (the service has been rendered or the good has been delivered to the entity).
 - o The adopted budget is the budget adopted for each project by a recipient associated with SLFRF funds. Recipients will enter the Adopted Budget based on information that exists currently in the recipient’s financial systems and the recipient’s established budget process. Treasury understands that recipients may use different budget processes. For example, a recipient may consider a project budgeted once a legislature has appropriated funds; whereas another recipient may consider a project budgeted at the moment the funds have been obligated.
 - o Treasury is not approving or pre-approving projects or budgets. Treasury will use this information to better understand the intended impact, identify opportunities for further engagement, and understand the recipient’s progress in program implementation. Treasury is also collecting additional descriptive information about the budget process to better understand the context of recipients’ budget processes.

2. Projects

- A project is defined as a grouping of closely related activities that together are intended to achieve a specific goal or are directed toward a common purpose.
- These activities can include new or existing services, funded in whole or in part by the SLFRF award.
- Within this broad definition, recipients have flexibility to define their projects in a way that provides the greatest clarity on the work which will be performed.
- Each project must align to only **one** Expenditure Category. Projects break down an Expenditure Category into more detail.

² Included in Appendix 1 of the Reporting Guidance

- Recipients are required to define projects at a sufficient level of granularity to be able to do any programmatic reporting that is required.
- For each Expenditure Category recipients use funding for, one or more projects may be reported.
- For each project, recipients will need to track obligations and expenditures, as well as subrecipients and any subawards made.

Figure 12 depicts the relationship between EC and multiple projects.

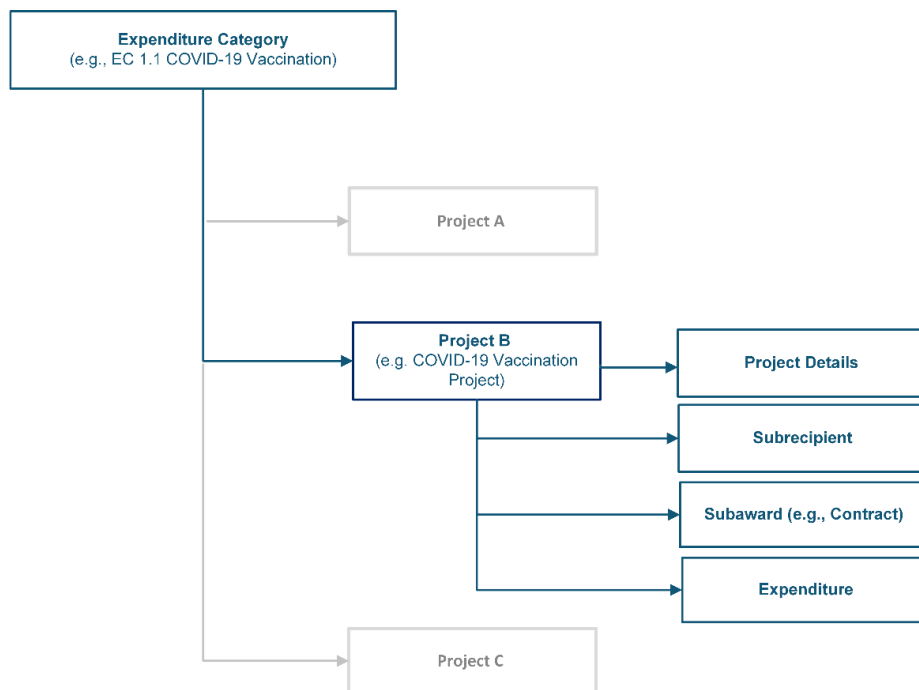

Figure 12 Relationship between Expenditure Categories and Multiple Projects

3. Relationships Between Project Components

When entering project information, it is important to understand how the separate components of information relate to each other. Treasury’s Portal for compliance reporting is organized by modules, each of which is a project component: project entry, subrecipient entry, subaward entry, and expenditure entry. Each of these modules are linked to prior modules. Initial entry of information should follow these steps to reduce errors or data issues. After initial entry of information, users can go directly to any module to update and edit information throughout the life of the project.

- Step 1: The first step in entering a new project is specifying the Expenditure Category (EC). While all ECs require entry of a baseline set of details, additional fields will appear in this module and in others depending on program requirements as described in the Reporting Guidance and this User Guide. Examples of fields collected include, but are not limited to,

project name, project identification (ID), total obligations, total expenditures, earned and expended program income, status of completion, and project description.

- Step 2: Enter subrecipient/beneficiary/contractor information. This information includes subrecipient/beneficiary/contractor name, unique entity identifier (UEI), tax identification number (TIN), entity type, address, and email.
- Step 3: Enter subaward or direct payment information. Entering a subaward or direct payment will require on-screen selection of a previously entered project and subrecipient/beneficiary/contractor. This aligns subaward funding to the project and the EC. Other information collected in this module includes subaward number, place of performance address, subaward amount, period of performance start and end dates, and a description of the subaward and its underlying eligible use.
- Step 4: Enter expenditures. Expenditures are entered in one of three categories: (1) Expenditures³ Greater Than or Equal to \$50,000, (2) Aggregate Expenditures Less Than \$50,000, and (3) Payments to Individuals.
 - o Expenditures for Awards Greater Than or Equal to \$50,000: Entering expenditures for awards greater than or equal to \$50,000 will require on-screen selection of a previously entered subaward number, which will auto-populate the project and subaward information details. Other information collected for this type of award includes expenditure start and end dates, and expenditure amount.
 - o Aggregate Expenditures Less Than \$50,000: Entering expenditures for awards less than \$50,000 will require on-screen selection of a previously enter project. Other information collected for this type of expenditure include subaward type, total period obligation amount and total period expenditure amount.
 - o Payments to Individuals: Entering expenditures for awards categorized as payments to individuals will require on-screen selection of a previously enter project. Other information collected for this type of expenditure include subaward type, total period obligation amount and total period expenditure amount.

³ Expenditures includes contracts, grants, loans, transfers, or direct payments.

Section IV. Project and Expenditure Report

The Project and Expenditure Report provides information on projects funded, expenditures, and contracts and subawards greater than or equal to \$50,000, and other information required from recipients. Multiple modules or “screens” will help recipients navigate through the Project and Expenditure Report in Treasury’s Portal as follows:

- a) Introduction/Bulk Templates
- b) Recipient Profile
- c) Project Overview
- d) Subrecipients/Beneficiaries/Contractors
- e) Subawards/Direct Payments
- f) Expenditures
- g) Recipient Specific
- h) Certification

The following sections describe the reporting steps and information to be collected in each module.

a) Recipient Profile

Upon login, you will be directed to the recipient information page, which is intended to verify relevant information in Treasury’s Portal. On this screen, you will review and confirm key information on your organization, and input information required for the Project and Expenditure Report. Recipient Profile information for States, U.S. territories, counties, cities and Tribal governments will be pre-populated from the SLFRF Application file. NEU information will be populated based on the information States collected from the NEUs and provided to Treasury.

1. Review and confirm your Recipient Profile prepopulated from your SLFRF Application file or for NEUs, information provided by your State (see Figure 13).
2. Verify the names and contact information for individuals the recipient has designated for key reporting roles for the SLFRF program displayed on the screen (see Figure 14).
3. Refer to the instructions in [Appendix A](#) if there are updates associated with reporting roles or contact SLFRP@treasury.gov.

Figure 15 Budget Approval and Obligation

Treasury requires descriptive information about budget processes to support analysis of adopted budget information. Treasury is collecting adopted budget information to better understand the intended impact of recipient projects, identify opportunities for further engagement, and understand the recipient’s progress in program implementation. Treasury is requesting this descriptive information to inform these efforts.

Treasury is not approving or pre-approving projects or budgets. Treasury also recognizes that recipients may adjust project budgets over time, and recipients will have the ability to reflect these changes in future reporting.

 - c. If you are not registered in SAM.gov, select “No” from the picklist. Two additional questions will populate the space below (see Figure 17).

*Is the Recipient Registered in SAM.Gov?

*In the preceding fiscal year, did recipient receive 80% or more of its annual gross revenue from federal funds?

*In the preceding fiscal year, did recipient receive \$25 million or more of its annual gross revenue from federal funds?

- d. If the recipient received 80% or more of its annual gross revenue from federal funds (including federal financial assistance and federal procurement contracts and subcontracts) AND the recipient received \$25 million or more of its annual gross revenue from federal funds (including federal financial assistance and federal procurement contracts and subcontracts), an additional question will appear (see Figure 18). If the answer is “No” to any of these two questions, move on to step 7 below.

* Is the Recipient Registered in SAM.Gov?

* In the preceding fiscal year, did recipient receive 80% or more of its annual gross revenue from federal funds?

* In the preceding fiscal year, did recipient receive \$25 million or more of its annual gross revenue from federal funds?

* Is the "total compensation" for the organization's five highest paid officers publicly listed or otherwise listed in SAM.gov?

- e. Select “Yes” if the total compensation for the recipient’s five highest paid officers is publicly listed or otherwise listed in SAM.gov and move on to Step 7 below.
- f. Select “No” if the total compensation for the recipient’s five highest paid officers is not publicly listed or otherwise listed in SAM.gov. Enter the name(s) of the officer(s) in the chart that will appear (see Figure 19) and the total compensation received by each. If fewer than five (5) officers exist, enter “N/A” and \$0 in the empty field(s).

b) Project Overview

Recipients are required to enter all projects funded through SLFRF funds as part of their Project and Expenditure Report. Once projects are entered, they are viewable on the Project Overview screen and can be updated in future reporting periods.

1) Key Considerations

There are a couple of things to keep in mind when planning and executing your project inventory entry:

- **No Projects Available Option:** If your jurisdiction has not yet identified any projects to report, please know that Treasury encourages you to identify projects as soon as possible for your jurisdiction’s uses of SLFRF funds.

In the event recipients have no projects available for entry, an option has been included on the Project Overview screen to allow recipients to indicate this status to Treasury in lieu of adding projects. Selecting this option will require providing a written explanation and may result in additional compliance follow-up from Treasury. Note: this option will not appear if projects are already entered in the system.

To utilize this option, on the Project Overview screen (See Figure 20):

1. For the question “Does your jurisdiction have projects to report as of this reporting period?”, select “My jurisdiction has projects to report” or “My jurisdiction does NOT have projects to report”.
2. If no projects will be reported, provide a narrative describing the reason(s) your jurisdiction does not have approved projects at this time in the text field provided.

Figure 20 No Projects Available Option

- **Manual versus Bulk Upload Entry:** There are two ways to enter project information – manual data entry and bulk upload. Bulk upload templates are specific to the project’s expenditure category group. Recipients may upload information for multiple projects within the same expenditure category group template simultaneously. [Appendix B](#) provides step by step instructions for using the bulk upload option.

Due to the different data collected across expenditure categories, you cannot use the same bulk upload template from one expenditure category group to another.

- **Non-Infrastructure and Infrastructure Projects Programmatic Data:** Treasury requests various programmatic data or impact measures for projects in several non-infrastructure (i.e., projects in EC 1 – 3) and infrastructure projects (i.e., projects in EC 5). The programmatic data can be provided via manual project entry or via bulk upload

templates. [Appendix B](#) provides step by step instructions for using the bulk upload option for projects with programmatic data. [Appendix D](#) provides additional detail on the programmatic data requested by EC. Treasury recognizes that some programmatic data may not be available until a project starts.

- **Infrastructure Projects with expected total cost over \$10M:** Information for infrastructure projects with expected total cost over \$10 million must be entered manually at this time in Treasury’s Portal. [Appendix D](#) provides additional detail on the programmatic data requested by EC.

When creating infrastructure projects via bulk upload, you will be required to re-open those project records to manually complete fields related to costs over \$10M.

Recipients should refer to [Appendix C](#) when planning your project inventory entry, as it includes a table identifying which ECs require the programmatic data. The table also maps each EC to its appropriate bulk upload template.

All projects, regardless of Expenditure Category, require a set of “standard” data fields. Some of these fields, such as project name and project ID, are static and do not change across reporting periods. Other fields, such as status of completion and total obligations, will change across reporting periods.

2) Project Overview Screen Layout

On the Project Overview Screen, recipients can view previously established projects and enter new projects (see Figure 21). The screen displays the total number of projects. The screen also displays the following for each project entered: project name, project identification number (ID), adopted budget (if applicable), total obligations, total expenditures, expenditure category, project status, subaward status, and expenditure status. To go directly to a project to edit or add information, click the colored status button for that project.

For Project Status, the green check icon indicates all required fields have been answered, including programmatic data. For Subaward Status and Expenditure Status, this status indicates that at least one subaward or expenditure entry has been made.

For Project Status, the yellow pencil icon indicates certain required fields have not been answered and require confirmation. For Subaward Status and Expenditure Status, the status indicates that the sum of all obligation or expenditure amounts associated with the project included at the subaward and expenditure level do not equal that project’s total obligations or expenditures.

For Project Status, the red pencil icon indicates that not all required fields have been answered. For Subaward Status and Expenditure Status, this indicates that no subaward or expenditure entries have been made.

Required April 2022 Reporting Confirmation

An expanded set of Expenditure Categories was introduced in the updated [Reporting Guidance](#) to reflect the broader flexibility introduced by the final rule. [Appendix E](#) includes the new Expenditure Categories, as well as a reference to the previous Expenditure Categories used for reporting under the interim final rule for ease of comparison.

If you are a recipient who submitted a Project and Expenditure Report in January 2022, you will have the opportunity to update the previously selected Expenditure Category, if appropriate, as well as providing answers to the applicable programmatic data. For simplicity, in the event a previously reported Expenditure Category changed numbers, no longer exists, or requires entering programming data, the Project Overview screen will mark those items with a yellow pencil icon.

Refer to section **2(d)** for additional details to update projects.

To add a new project from this screen, click the *Add New Project* button. You may need to refresh your browser screen to see your previous new entries.

c) Add new project manually

1. Select the Project Expenditure Category Group and Project Expenditure Category from the picklists. Selection of Expenditure Category drives the template through which you will manually enter the project data (see Figures 22 through 25). To view all of the ECs, scrolling may be necessary.

- Note that once you select values from the Project Expenditure Category Group and the Project Expenditure Category picklists, the bulk download and upload links will appear (see Figure 24). As you are entering the information manually, go to step 3.

Figure 24 Bulk Upload for EC 1.1

- Enter the project name.
- Enter the unique recipient identification number you assigned to the project. Do not use duplicate project numbers for multiple projects.
- Select the completion status of the project from the drop-down list. Options are:
 - Not started
 - Completed less than 50%
 - Completed 50% or more
 - Completed

6. *For States, U.S territories and metropolitan cities and counties with population over 250,000, enter the adopted budget for the project.*
 - Note that if you selected that your budget is considered at the point of obligation, adopted budget and total dollar value of obligations for each project would be the same
7. Enter the total dollar value of current period obligations for this project. If funds have not been obligated during the current reporting period, enter "0".
 - o Note – Recipients should ensure that Current Period Obligations are less than or equal to Cumulative Obligations for each project. Treasury's Portal will otherwise return an error.
8. Enter the total dollar value of cumulative obligations for this project. If funds have not been obligated for this project, enter "0".
9. Enter the total dollar value of current reporting period expenditures for this project. If expenditures have not been made during the current reporting period, enter "0".
 - o Note – Recipients should ensure that Current Period Expenditures are less than or equal to Cumulative Expenditures for each project. Treasury's Portal will otherwise return an error.
10. Enter the total dollar value of cumulative expenditures for this project. If expenditures have yet to be made for this project, enter "0".
 - o Note – Recipients should ensure that Cumulative Expenditures are less than or equal to Cumulative Obligations for each project. Treasury's Portal will otherwise return an error.
11. Provide a description for the project between 50 to 250 words. Each project description should be 3-5 sentences with an overview of the project, which includes a description of the project's purpose, the population being served, the desired outcome from the project, and how this outcome is being measured (along with any current data on progress towards the desired outcome).
12. If the project earns income or has expended that income, enter the total dollar value of program income earned and program income expended in the fields of the same name, respectively. This field is optional.
13. If the project is in an EC which requires additional programmatic data, additional fields will display on the screen. Please see [Section IV.e](#) below for more information on providing programmatic data and [Appendix D](#) for more information on the programmatic indicators themselves.

d) Update previously reported projects

Certain data fields may be updated in Treasury’s Portal. In addition, for the April 2022 reporting deadline, if projects were previously reported under an Expenditure Category that changed or no longer exists, or additional programmatic data is needed, the Project Profile screen will show a yellow pencil icon. Recipients need to confirm the information for these projects. Recipients are also encouraged to validate all the previously reported entries to ascertain that they properly reflect the Expenditure Categories established under the final rule and the project aligned to them (refer to [Appendix E](#)). Recipients should:

1. Click on the project icon on the Project Profile screen.
2. Once the project information displays, confirm the information on the screen, including the Project Expenditure Category Status and the Project Expenditure Category.
3. Provide answers to the programmatic data relevant to the EC, if applicable.
4. Click *Confirm Project* (see Figure 26).

e) Provide Programmatic Data for Projects

Overview

As noted above, projects in several ECs require programmatic data in addition to the standard project information covered above and as described in Part B.3.i and B.3.j of the Reporting Guidance. [Appendix D](#) provides additional detail on the measures and information required, by Expenditure Category. This information should be provided at the project-level (e.g., disaggregated by project if the recipient has multiple projects in a single EC).

Programmatic data can be provided via the manual project entry process described above, or in some cases via bulk upload using the Expenditure Category-specific templates, described in [Section IV.g](#) and [Appendix B](#).

For example, to manually enter a new project in Expenditure Category 3.1 (see Figure 27) Public Sector Workforce: Payroll and Benefits for Public Health, Public Safety, or Human Services, the recipient should:

1. Follow steps 1 – 12 in [Section IV.c.1](#) above.
2. Answer the question “Does this project include a capital expenditure?” (Y/N) (see Figure 28)
3. Provide answers to the Public Health and Negative Economic Impact questions (see Figure 28)
4. Populate the programmatic data field for “Number of government FTEs responding to COVID-19 supported under this authority” (see Figure 28).
5. Once all of the above information is entered, click *Add Project*.
6. Click the *Next* button to proceed to the following screen.

If entering projects via bulk upload, recipients should populate the programmatic data columns contained in the appropriate EC's bulk upload template. [Appendix C](#) provides a helpful table mapping each Expenditure Category to the bulk upload template recipients should use if inputting or updating projects via the bulk upload method.

Additional Information Regarding Certain Programmatic Data

In addition to programmatic data or impact measures for projects for specific Expenditure Categories as noted in [Appendix D](#), Treasury requests information for the following Expenditure Categories:

1. **Project Demographic Distribution (applicable to Public Health and Negative Economic Impact ECs: EC 1.1-2.37)** - recipients must report whether certain types of projects are targeted to impacted and disproportionately impacted communities. Recipients will be asked to respond to the following (see Figure 29):

- What Impacted and/or Disproportionately Impacted population does this project primarily serve? Please select the population primarily served, based on list included in [Appendix G](#).
- If this project primarily serves more than one Impacted and/or Disproportionately Impacted population, please select up to two additional populations served, based on list included in [Appendix G](#). If the project does not serve more than one Impacted and/or Disproportionately Impacted population, click “None”.
- If a project primarily serves an Impacted and/or Disproportionately Impacted population under an “Other” category, add the relevant information in the narrative.

Questions on Demographic Distribution

2. **Public Health and Negative Economic Impact:** For projects reported under the Project Expenditure Categories EC1: Public Health, EC2: Negative Economic Impact and EC3: Public Health-Negative Economic Impact: Public Sector Capacity, provide:

- Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced
- Brief description of how a recipient’s response is related and reasonably proportional to a public health or negative economic impact of COVID-19 (see Figure 30)
 - o Between these two fields above, recipients should provide enough information to identify the type of enumerated eligible use being provided within the EC (e.g., kinship care support services), the public health or economic impact experienced, who the program and/or service is being provided to, and what services are being provided (e.g., respite resources). For enumerated eligible uses (other than certain capital expenditures, as discussed below), recipients are not required to provide substantive documentation that the response is related and reasonably proportional in the Project and Expenditure Report.

3. **Capital Expenditures:** For projects reported under the Project Expenditure Categories EC1: Public Health, EC2: Negative Economic Impact and EC3: Public Health-Negative Economic Impact: Public Sector Capacity, provide answers to the following questions (refer to Figure 31):

- Does this project include a capital expenditure?
- If “Yes”:
 - What is the total expected cost of the capital expenditure, including pre-development costs, if applicable?
 - Type of capital expenditure, based on the following enumerated uses (as noted in [Appendix H](#))
- If the answer is “No”, include a zero for the expected total cost of the capital expenditure
- For recipients (other than Tribal governments) investing in projects with total expected capital expenditures for an enumerated eligible use of \$10 million or more, as well as projects with total expected capital expenditures for an “other” use of \$1 million or more, provide a written justification. (This field is optional in April 2022; required in July 2022)
- For projects with total expected cost of the capital expenditures of over \$10 million, provide the Davis Bacon and labor reporting as outlined for infrastructure projects on pages 24, 26, and 27 of the Reporting Guidance. (This field is optional in April 2022; required in July 2022)

4. **Evidenced-based questions (only applicable to States, U.S. Territories, and metropolitan cities and counties with population over 250,000):** For relevant ECs identified in [Appendix C](#) with an asterisk (“*”), provide the following information in regards to use of evidence. Appendix 2 of the Reporting Guidance provides further details. See Figure 32.

- Identify the dollar amount of the total project spending that is allocated towards evidence-based interventions.
- Is a program evaluation of the project being conducted?

5. **Premium Pay** (EC 4.1 and EC 4.2): If EC 4.1 or 4.2 is selected as the project expenditure category, recipients will need to provide additional data, as reflected in Figure 33:

- Sectors Designated as Essential Critical Infrastructure
- Number of workers to be served
- Premium Pay Narrative
- Number of workers to be served with premium pay in K-12 schools

Additional Questions

*List of sectors designated as critical to protecting the health and well-being of residents by the chief executive of the jurisdiction

*Number of workers to be served

*Premium Pay Narrative

*Number of workers to be served with premium pay in K-12 schools

Figure 33 Premium Pay Additional Questions

Note - Recipients that are either creating or supporting a Premium Pay program should reference the final rule and the Overview of the Final Rule for information regarding this eligible use.

- o **Sectors designated as essential critical infrastructure sectors:** Recipients should refer to the list of sectors below when providing information for this question. Recipients may also refer to this list of sectors on the Subaward screens (see [section IV.g](#)) to answer the question: *Employer sector for all subawards to third-party employers (i.e., employers other than the State, local, or Tribal government)*. If a recipient selects “other”, please describe the additional non-public sector that the recipient’s chief executive (or equivalent) designated consistent with the requirements of the final rule.

Sectors Designated as Essential Critical Infrastructure Sectors
Any work performed by an employee of a State, local, or Tribal government
Behavioral health work
Biomedical Research
Dental care work
Educational work, school nutrition work, and other work required to operate a school facility
Election’s work
Emergency response
Family or childcare
Grocery stores, restaurants, food production, and food delivery
Health care
Home- and community-based health care or assistance with activities of daily living

Sectors Designated as Essential Critical Infrastructure Sectors
Laundry work
Maintenance work
Medical testing and diagnostics
Pharmacy
Public health work
Sanitation, disinfection, and cleaning work
Social services work
Solid waste or hazardous materials management, response, and cleanup work
Transportation and warehousing
Vital services to Tribes
Work at hotel and commercial lodging facilities that are used for COVID-19 mitigation and containment
Work in a mortuary
Work in critical clinical research, development, and testing necessary for COVID-19 response
Work requiring physical interaction with patients
Other

- **Premium Pay Narrative:** Recipients must submit a written justification to Treasury describing how the premium pay or grant is responsive to eligible workers performing essential work during the public health emergency for groups of workers that do not meet one of the two criteria below:
 1. Eligible worker receiving premium pay is earning (with the premium included) at or below 150 percent of their residing state or county’s average annual wage for all occupations, as defined by the Bureau of Labor Statistics Occupational Employment and Wage Statistics, whichever is higher, on an annual basis; or
 2. Eligible worker receiving premium pay is not exempt from the Fair Labor Standards Act overtime provisions.
- 6. **Infrastructure Projects Programmatic Data** (EC 5): Programmatic data is requested for Infrastructure projects in addition to data uploaded by bulk template.

For Water and sewer projects (EC 5.1-5.18): Recipients will provide information associated with water and sewer projects (see Figure 34), under EC 5.1 through 5.18 when the project starts. Recipients are not required to provide the information if the project has not started. When the “Status of Completion” field is marked “Not Started”, the additional questions required for water and sewer projects will not display. Recipients should consider this guidance when entering the following data:

- Projected/actual construction start date
- Projected/actual initiation of operations date
- Location Type
- Location Details
- Public Water System (PWS) ID Number
- National Pollutant Discharge Elimination System (NPDES) Permit Number
- Median Household Income of service area
- Lowest Quintile Income of the service area

- o For median income and lowest quintile income of Census Tracts and other geographic areas, recipients should refer to the most recent American Community Survey 5-year estimates available through the Census website.

For broadband projects (EC 5.19-5.21): Recipients will provide information associated with broadband projects when the project starts. Recipients are not required to provide the information if the project has not started. When the “Status of Completion” field is marked “Not Started”, the additional questions required for broadband projects will not show up. Recipients should consider this guidance when entering the following data (see Figure 35):

- Projected/actual construction start date
- Projected/actual initiation of operations date
- Location
 - o Recipients will be asked to indicate whether they have a broadband location file to upload for the project. If they indicate yes, recipients will be able to upload a file to the reporting portal.
 - o Broadband location files should provide the latitude/longitude for each location served by a project. Further guidance will be provided for the July 2022 reporting cycle on the format of this data, along with other items that recipients will be required to report.
 - o Recipients are required to upload a broadband location file unless they have not engaged in detailed location planning of their broadband project.
- Is the project designed to meet or exceed symmetrical 100 Mbps download and upload speeds?
 - o If the project is not designed to reliably meet or exceed symmetrical 100 Mbps download and upload speeds, explain why not, and
 - o Confirm that the project is designed to, upon completion, meet or exceed 100 Mbps download speed and between at least 20 Mbps and 100 Mbps upload speed, and be scalable to a minimum of 100 Mbps download speed and 100 Mbps upload speed.

Additional Questions

- 7. **Infrastructure Projects with total expected costs over \$10M:** Recipients entering infrastructure projects with total expected costs over \$10 million are required to respond to four questions manually. If you expect a project to exceed \$10 million over its lifetime, it is strongly recommended to complete the reporting in advance to avoid future retroactive reporting burden and project-associated expenses.

Recipients are required to provide the following additional information:

- a) Davis-Bacon Act Certification (see Figures 36):
 - 1) Select “Yes” or “No” response to Certification question for Davis-Bacon Act: *Do you intend to certify that “all laborers and mechanics employed by contractors and subcontractors in the performance of the project are paid wages at rates not less than those prevailing, as determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the “Davis-Bacon Act”), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed, or by the appropriate state entity pursuant to a corollary state prevailing-wage-in-construction law (commonly known as “baby Davis-Bacon Acts”)?*
 - 2) If response is “No”, enter the following information in the revealed questions:
 - i. The number of employees of contractors and sub-contractors working on the project;
 - ii. The number of employees on the project hired directly;
 - iii. The number of employees on the project hired through a third party;
 - iv. The wages and benefits of workers on the project by classification; and
 - v. Whether those wages are at rates less than those prevailing.⁴

PLEASE NOTE: Selecting "Yes" to a)1) means that you intend to certify that all contractors and subcontractors are paying prevailing wages and fringe benefits to all laborers and mechanics on the project.

⁴ As determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the “Davis-Bacon Act”), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed.

b) Certification of Labor Agreements (Figures 37):

- 1) Select "Yes" or "No" response to Certification question for existence of project labor agreement: *Do you intend to certify that "the indicated project includes a project labor agreement, meaning a pre-hire collective bargaining agreement consistent with section 8(f) of the National Labor Relations Act (29 U.S.C. 158(f))?"*
- 2) If response is "No", enter the following information about a project continuity plan in the pop-up window:
 - i. How the recipient will ensure the project has ready access to a sufficient supply of appropriately skilled and unskilled labor to ensure high-quality construction throughout the life of the project, including a description of any required professional certifications and/or in-house training?;
 - ii. How the recipient will minimize risks of labor disputes and disruptions that would jeopardize timeliness and cost-effectiveness of the project?;
 - iii. How the recipient will provide a safe and healthy workplace that avoids delays and costs associated with workplace illnesses, injuries, and fatalities, including descriptions of safety training, certification, and/or licensure requirements for all relevant workers (e.g., OSHA 10, OSHA 30)?;
 - iv. Whether workers on the project will receive wages and benefits that will secure an appropriately skilled workforce in the context of the local or regional labor market?; and
 - v. Whether the project has completed a project labor agreement.

PLEASE NOTE: Selecting "Yes" to b)1) means that you intend to or are using an 8(f) pre-hire agreement on your project.

Project Workforce Continuity Plan

*How the recipient will ensure the project has ready access to a sufficient supply of appropriately skilled and unskilled labor to ensure high-quality construction throughout the life of the project, including a description of any required professional certifications and/or in-house training?

*How will the recipient minimize risks of labor disputes and disruptions that would jeopardize timeliness and cost-effectiveness of the project?

*How the recipient will provide a safe and healthy workplace that avoids delays and costs associated with workplace illnesses, injuries, and fatalities, including descriptions of safety training, certification, and/or licensure requirements for all relevant workers (e.g., OSHA 10, OSHA 30)?

*Will workers on the project receive wages and benefits that will secure an appropriately skilled workforce in the context of the local and regional labor market?

*Does the project have a completed project labor agreement?

8. **Revenue Replacement:** Recipients will have the option to update or provide information associated with revenue replacement not previously provided as part of prior submissions. Information previously provided as part of the Interim Report (if provided) or Project and Expenditure Report (if provided) will display in this screen.

As outlined in the final rule, recipients will have the option to make a one-time decision to either calculate revenue loss according to the formula outlined in the final rule or elect a “Standard Allowance” of up to \$10 million, not to exceed the award allocation, to spend on government services throughout the period of performance. **Recipients must make this one-time decision during the April 2022 reporting deadline.**

Standard Allowance

For recipients electing the “Standard Allowance”, Treasury will presume that up to \$10 million, not to exceed the award allocation, in revenue has been lost due to the public health emergency and recipients are permitted to use that amount to fund “government services”. Please note that electing the standard allowance does not change a recipient’s total allocation.

Treasury’s Portal will allow all recipients to elect to use this standard allowance instead of calculating lost revenue using the formula. Refer to Figure 39. The following questions will display in the screen for all recipients, including those with total allocations of \$10 million or less.

- Is your jurisdiction electing to use the standard allowance of up to \$10 million, not to exceed your total award allocation, for identifying revenue loss? Yes/No (Please note electing the standard allowance does not change your total allocation).

If “Yes” is selected, recipients will enter further information to indicate to Treasury the amount of revenue loss the recipient is electing under the standard allowance, as noted in Figure 39.⁵

⁵ In many instances, a recipient with a total allocation below \$10 million may choose to use its full allocation as revenue loss funds. For example, a recipient with a \$9 million allocation may elect the standard allowance and use \$9 million for the revenue loss eligible use category.

In other instances, a recipient with an allocation below \$10 million may choose to attribute less than its full award to revenue loss. For example, a recipient with a \$9 million allocation may have obligated or expended funds for a project under another eligible use category (e.g., COVID-19 Vaccination) before the \$10 million standard allowance was announced by Treasury. In that case, the recipient could report the project under the COVID-19 Vaccination eligible use category, and then choose to attribute the rest of its allocation to the revenue loss standard allowance. Alternatively, this recipient could recategorize its previously obligated funds under the revenue loss eligible use category (EC 6.1) to account for them all under revenue loss.

When entering the amount of revenue loss a recipient is electing under the standard allowance, recipients should note the following:

- If a recipient's total allocation is \$10 million or greater, the recipient may enter in the amount of revenue loss the recipient is electing up to \$10 million.
- If a recipient's total allocation is less than \$10 million, the recipient may enter in the amount of revenue loss the recipient is electing up to your total allocation.

Revenue Replacement Key Inputs [Import Previous Report Data](#)

* Is your jurisdiction electing to use the standard allowance of up to \$10 million, not to exceed your total award allocation, for identifying revenue loss?
Yes

If a recipient's total is \$10 million or greater, the recipient may enter in the amount of revenue loss the recipient is electing up to \$10 million.

If a recipient's total allocation is less than \$10 million, the recipient may enter in the amount of revenue loss the recipient is electing up to your total allocation.

Calculating revenue loss according to the formula

For recipients calculating revenue loss according to the formula, note that the final rule permits recipients to choose whether to use calendar or fiscal year calculation dates. Recipients must use the same calculation time frame (calendar or fiscal year) throughout the award period. For the April 2022 reporting period, recipients will complete the revenue loss fields for 2020 and 2021 (if information is available), respectively. Figure 40 provides the screen recipients will complete for each year. Recipient will navigate to each year by clicking on the years.

Recipients with allocations greater than \$10 million may also determine to use the full \$10 million as revenue loss, or there may be similar considerations that cause the recipient to take less than the \$10 million standard allowance.

Summary

Based on the recipient’s election, certain information will display in Treasury’s Portal which the recipient will need to complete, as noted in the table below:

Data	If Using Standard Allowance	If not Using Standard Allowance
Base Year Revenue	N/A	2020 and 2021 Required
Fiscal Year End Date	N/A	Required
Growth Adjustment Used	N/A	Required
Actual General Revenue ⁶	N/A	Required
Revenue Loss	Required	Required
Select whether Fiscal Recovery Funds were used to a make a deposit into a pension fund. Please note that no recipients except for Tribal governments may use Fiscal Recovery Funds to make a deposit to a pension fund	Required	Required
Provide an explanation of how revenue replacement funds were allocated to government services	Required	Required

⁶ As discussed in the final rule, following the April 1 effective date of the final rule, recipients who calculate revenue loss will be required to account for the impact of tax decreasing or increasing changes in their actual general revenue calculation.

f) Edit or delete projects before submission

Projects entered into the system can be edited or deleted before final submission. To edit a project, open the project from the My Projects screen. To delete a project, use the *Delete Project* Button. See Figure 41. If a report is already submitted, users will need to un-submit the report to edit or delete a project record, until the due date of the report.

Figure 41 Edit and Delete Project Screen

g) Enter projects using the bulk upload method:

Recipients have the option to provide project information via bulk upload, in lieu of manual entry for some or all of their projects. Please note, bulk upload templates are specific to the EC the project best aligns to. The table in [Appendix C](#) provides a mapping of project ECs to their appropriate bulk upload template.

1. Fill the downloaded template with information specific to each project's EC, as follows. Projects within the same EC or set of ECs covered by a given template can be uploaded together. For example, all projects in EC 1.8, 2.29- 2.33 can be entered together on the Project Bulk Upload for Project EC 1.8, 2.29-2.33 Template. Optional fields are denoted by (*). "Column" below refers to the applicable area in the bulk upload file.
 - Column B: Select the Project Expenditure Category Group
 - Column C: Select the Project Expenditure Category
 - Column D: Enter the Project Name
 - Column E: Enter the unique project identification number assigned by the State or U.S. Territory to the project. Do not use duplicate project numbers for multiple projects
 - Column F: Select the completion status of the project

- Column G: Enter the total dollar value of the adopted budget for this project * *(only applicable to States, U.S. Territories, and metropolitan cities and counties with population over 250,000)*
- Column H: Enter the total dollar value of obligations for this project. If no amounts are obligated, enter “0”
- Column I: Enter the total dollar value of expenditures for this project. If no expenditures have been incurred, enter “0”
- Column J: Enter the current period value of obligations. If no new amounts were obligated, enter “0”
- Column K: Enter the current period value of expenditures. If no expenditures were incurred during the period, enter “0”
- Column L: For projects in EC 1, EC 2, or EC 3, enter a yes or no response to the question, does this project include a capital expenditure?
- Column M: If yes, what is the total expected cost of the capital expenditure?
- Column N: Enter the capital expenditure type based on list
- Column O: If “Other” was selected in Column N for Capital Expenditure Type, provide more details
- Column P: Enter the narrative for the capital expenditure
- Column Q: Enter a description of the project
- Column R: Enter the amount of program income earned
- Column S: Enter the amount of program income expended
- Column T: Enter the Project Demographic Distribution Primary Populations Served
- Column U: If selecting a population needing specification, enter that specific population
- Column V: Enter the Project Demographic Distribution Secondary Populations Served, if applicable
- Column W: If selecting a population needing specification, enter that specific population
- Column X: Enter the Project Demographic Distribution Additional Populations Served
- Column Y: If selecting a population needing specification, enter that specific population
- Column Z: Enter a brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced

- Column AA: Enter a brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19, as described in the final rule
 - Column AB: Enter the number of small businesses served (by program if recipient establishes multiple separate small businesses assistance programs)
2. Upload the Project Entry and Status template, in this case the template for EC 1.8, 2.29-2.33, separately as a .csv file by using the respective *Upload* button on the screen or dropping the files in this view.
 3. Once all of the above information is entered, click *Add Project*. Click the *Next* button to proceed to the following screen.

Refer to [Appendix B](#) for additional information related to the bulk file upload process

h) Subrecipients, Beneficiaries, or Contractors

The Subrecipients, Beneficiaries, or Contractor Profile documents the information about each subrecipient, contractor or beneficiary that has received at least one Subaward or Direct Payment obligation of federal funding greater than or equal to \$50,000 to execute projects supporting the SLFRF program. Please note that projects entered under EC 6.1 Provision of Government Services are not required to enter Subrecipient, Subaward, or Expenditures (for a subaward) information for the April 2022 reporting cycle.

In addition, individual persons receiving direct payment of federal funds are not required to be reported in this module. They should be reported in aggregate under the Payments to Individuals section of the Expenditures module.

The Subrecipients, Beneficiaries and Contractors module allows users to enter data manually or leverage the bulk file upload capability. For bulk-upload instructions specific to this submodule, see [Appendix B](#). You can download the bulk file template for use in submitting the required data via bulk upload. When ready to submit the data, use the upload button (see Figure 42).

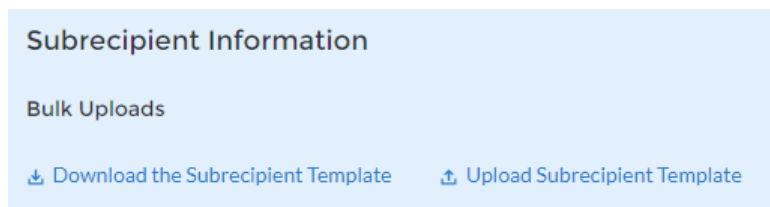

Figure 42 Subrecipient/Beneficiaries Bulk Upload Icon

Note: When using the bulk file upload capability, the Subrecipient bulk upload must be completed prior to beginning the data entry for the Subawards module.

If you choose to individually enter records, follow the instructions below.

1. Enter the Entity Type you are creating a record for. This can be either Subrecipient, Contractor, or Beneficiary.

- Enter the relevant Subrecipient, Beneficiary, or Contractor information in each of the required fields (see Figure 43). Recipients must enter at least one of the following two identifiers for a subrecipient: UEI (Unique Entity Identifier), or TIN.
 Note: Recipients should be aware that the federal government has transitioned from the use of DUNS starting in April 2022. Active SAM.gov registrants will have their UEI assigned and viewable within SAM.gov.

Figure 43 Manually Create a Subrecipient or Beneficiary

- If the subrecipient is not registered in SAM.Gov, select “No” from the picklist. Two additional questions will populate the space below (see Figure 44).

Figure 44 Sam.gov Questions for Subrecipients, Contractors or Beneficiaries

- If the subrecipient’s five most highly compensated executives received 80% or more of its annual gross revenue from Federal procurement contracts (and subcontracts) and Federal financial assistance subject to the Transparency Act, as defined at [2 CFR 170.320](#) (and subawards), AND received \$25 million or more of its annual gross revenue from Federal procurement contracts (and subcontracts) and Federal financial

assistance subject to the Transparency Act, as defined at [2 CFR 170.320](#) (and subawards), an additional question will appear (see Figure 45).

i) Subawards or Direct Payments

The Subawards or Direct Payments section allows recipients to enter the required information regarding Subawards or Direct Payment of federal funding greater than or equal to \$50,000 for all direct payments, subawards, and contracts made by your organization under SLFRF. Please note that projects entered under EC 6.1 Provision of Government Services and EC 6.2 Non-federal match for other Federal Programs are not required to enter Subrecipient, Subaward, or Expenditures (for a subaward) information for the April 2022 reporting cycle.

The Subawards or Direct Payments module allows users to enter data manually or leverage the bulk file upload capability. For bulk-upload instructions specific to this submodule, see [Appendix B](#). j) Expenditures

In the Expenditures tab, recipients will provide information for each contract, grant awarded, loan issued, transfer made to other government entities, or direct payment greater than or equal to \$50,000. Additionally, aggregate reporting is required for contracts, grants, transfers made to other government entities, loans, and direct payments that are less than \$50,000.

As mentioned above, obligations and expenditures made directly to individuals, regardless of dollar amount, should be included in aggregate reporting.

If aggregated expenditures linked to a project equal the total Expenditures reported for that project, the Subaward status box on the My Projects screen is changed to 'Complete'. Please note that projects entered under EC 6.1 Provision of Government Services and EC 6.2 Non-federal match for other Federal Programs are not required to enter Subrecipient, Subaward, or Expenditures (for a subaward) information for the April 2022 reporting cycle.

The Expenditures reporting module allows users to enter data manually or leverage the bulk file upload capability. For bulk-upload instructions specific to this submodule, see [Appendix B](#).

If you do not use the bulk upload function, follow the steps listed below.

1. To report new expenditures under a specific subaward, enter the subaward number. The Project Name associated with the subaward will auto populate.
2. Enter the following:
 - Expenditure Start Date
 - Expenditure End Date
 - Expenditure Amount
3. Enter narrative for Administrative Costs, if applicable.
4. Click the *Create Expenditure* button to submit the record. Repeat Steps 1 through 3 to report additional sub-award expenditures. Proceed to the next segment once all sub-award expenditures are reported.

1. Expenditures for Awards Greater Than or Equal To \$50,000

For expenditures for awards greater than or equal to \$50,000, fill out the “Expenditures for Awards > \$50,000” box (see Figure 52). Project name and subaward will be selected to link each expenditure to the appropriate entries. Note that the Project name is automatically identified based on the associated Subaward No. entered. Once the information has been entered, click the *Create Expenditure* button on the bottom left of the box.

Expenditures > \$50,000

In the below section, please provide further detail on each award for, and subsequent expenditure of, \$50,000 or more. Your organization must identify a subaward identifier to each expenditure. In addition, you must also provide the: Expenditure Date and Expenditure Amount, as well as any required information for specific Subaward types.

k) Tax Offset Provision (Only for States and U.S. Territories)

Baseline revenue or revenue-increasing covered changes information is not required at this time. State and U.S territory recipients should provide the amount of revenue-reducing covered changes covering the periods of date of award through July 31, 2021, and separately, August 1, 2021 through December 31, 2021. (See Figure 55).

See Section C (11) of the [Reporting Guidance](#) for additional information.

Additional guidance and reporting fields will be forthcoming for the tax offset provision in subsequent reporting periods, which is expected to require reporting for prior periods as well as current period.

I) Official Certification

On this screen, the Authorized Representative for Reporting (ARR) will be asked to certify information pertaining to the Project and Expenditure Report. By certifying this submission, the ARR is confirming that all reported information is accurate and approved for submission (see Figures 56 and 57).

Users who are not designated as an ARR will not be able to certify and submit.

1. On the Certification screen, validate that the review section project overview status is free of system identified errors. Figure 56 indicates that an error has been identified with the expenditure status. Figure 57 shows a clean status, and the system will allow submission of the report.

Statement

I certify that the information provided is accurate and complete after reasonable inquiry of people, systems, and other information available to the SLFRF recipient. The undersigned acknowledges that any materially false, fictitious, fraudulent statement, or representation (or concealment or omission of a material fact) in this submission may be the subject of criminal prosecution under the False Statements Accountability Act of 1996, as amended, 18 USC 1001, and also may subject me and the SLFRF Recipient to civil penalties, damages, and administrative remedies for false claims or otherwise (including under 31 USC 3729 et seq.) The undersigned is an authorized representative of the SLFRF Recipient with authority to make the above certifications and representations on behalf of the SLFRF Recipient.

By signing this report, the Authorized Representative for Reporting acknowledges in accordance with 31 CFR 35.4(c) that recipients shall provide to the Secretary periodic reports providing detailed accounting of the uses of funds, as applicable, all modifications to a State's or Territory's tax revenue sources, and such other information as the Secretary may require for the administration of this program. In addition to regular reporting requirements, the Secretary may request other additional information as may be necessary or appropriate, including as may be necessary to prevent evasions of the requirements of this program. False statements or claims made to the Secretary may result in criminal, civil, or administrative sanctions, including fines, imprisonment, civil damages and penalties, debarment from participating in Federal awards or contracts, and/or any other remedy available by law.

By signing here, the Authorized Representative for Reporting certifies that for applicable infrastructure projects over \$10 million, as identified in this report, all laborers and mechanics employed by contractors and subcontractors in the performance of such project are paid wages at rates not less than those prevailing, as determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the "Davis-Bacon Act"), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed, or by the appropriate state entity pursuant to a corollary state prevailing-wage-in-construction law (commonly known as "baby Davis-Bacon Acts").

By signing here, the Authorized Representative for Reporting certifies that for applicable infrastructure projects over \$10 million, as identified in this report, the project(s) include(s) project labor agreement(s), meaning (a) pre-hire collective bargaining agreement(s) consistent with section 8(f) of the National Labor Relations Act (29 U.S.C. 158(f)).

Your sub-award and expenditure entry indicates use of loans with maturity beyond the end of the SLFRF program. Please note that SLFRF funds can ONLY be used for the cost of the projected cost of the loan.

Treasury requires you to estimate the subsidy cost using one of the two allowable approaches, outlined in FAQ 4.11 on our website, for estimating the cost of the loan. Treasury will require additional documentation and information in future reporting periods on such loans. This guidance also applies to revolving loan funds. For loans maturing prior to 12/31/2026, or where there is planned forgiveness, unanticipated payment of principal or interest received on loans must be reported a program income. Program income may be applied to other eligible uses during the period of performance, provided that it is obligated by 12/31/2024. Any program income that is not obligated by 12/31/2024 must be returned to Treasury.

* I acknowledge the requirements for using SLFRF funds for loans with extended maturities and/or revolving loan funds

Appendix A – Designating SLFRF Points of Contact by SLFRF Account Administrators

This section provides a brief instruction for SLFRF Account Administrators on accessing Treasury’s Portal to provide the names and contact information of officials to be designated as your organization’s points of contact for the SLFRF award(s). The following pages provide step-by-step guidance. See FAQ Section B for commonly asked questions/answers on this topic.

Note- the screens noted below may be subject to change.

Section A: Instructions

Step 1

You must be registered in the ID.me or Login.gov system to access Treasury’s Portal. If you have questions about registering in ID.me or Login.gov, please email SLFRP@treasury.gov.

Step 2

Once you are registered in ID.me or Login.gov, click on the link in the email you received requesting the POC designations. If you do not have the email link, please email us via SLFRP@Treasury.gov and we will provide the link.

Step 3

The link will take you to the Treasury Portal “State, Local, and Tribal Support” landing page as shown below. Once on that page, click on the *Go to Your Reports* button at the bottom left of the screen, as indicated in by the red box below.

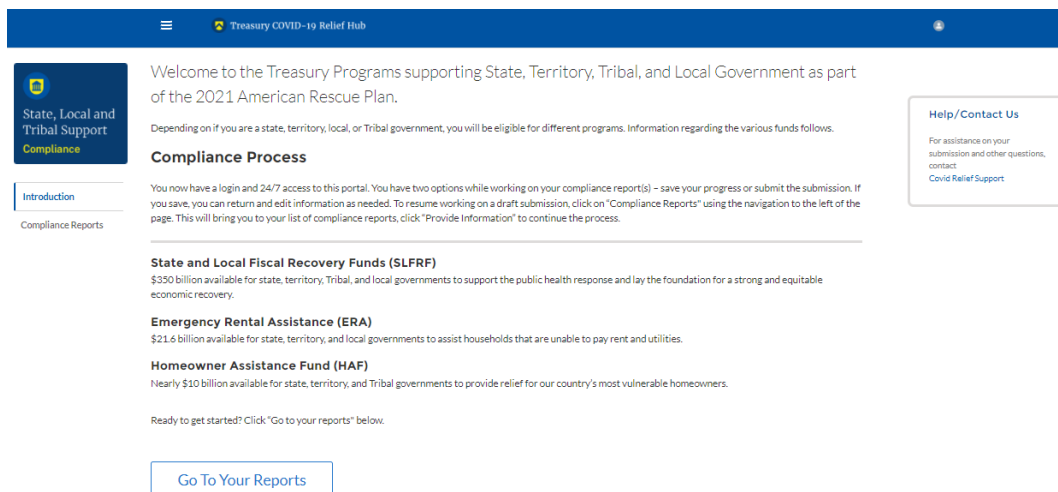

Figure 61 State, Local and Tribal Support Landing Page

Step 4

The green *Go to Your Report* button will take you to the Submissions and Compliance page as shown below. Once on that page, click on the three-line navigation icon at the top left of the screen. The red box indicates the icon.

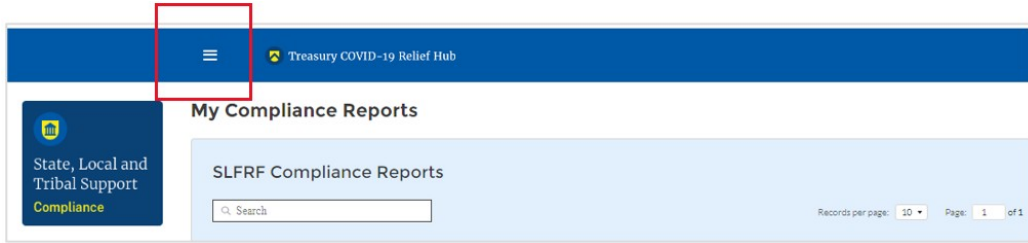

Figure 62 My Compliance Reports

Step 5

After clicking on the three-line navigation icon, a drop-down menu will appear on the top left of the screen as shown below. Please click on “Account” from the drop-down menu, as shown by the red box below.

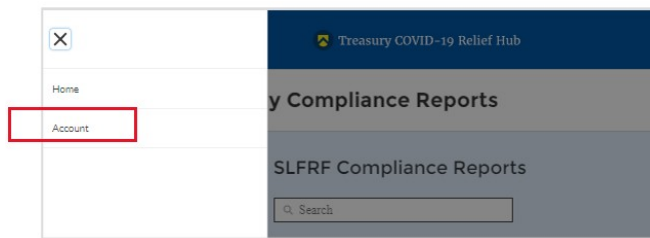

Figure 63 Account

Step 6

Next you will see the screen below. Under the “Account Name” heading, click on the name of your organization (as shown by the red box).

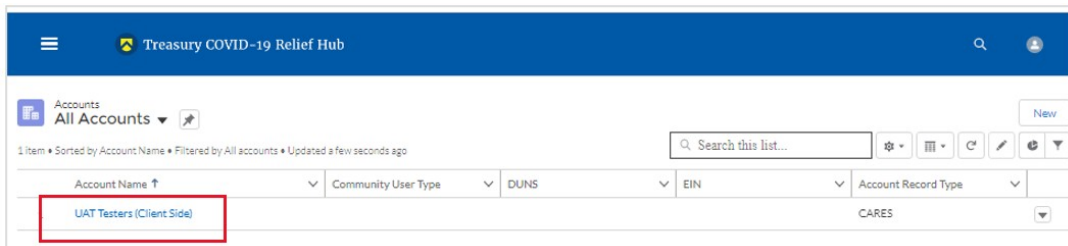

Figure 64 Account Name

Step 7

By clicking the name of your organization, Treasury’s portal will open to allow you to provide names and contact information on your organization’s designees for the SLFRF reports, as shown below. The landing page provides basic information about the designations. Please see section B for more details about the roles and responsibilities for each or the three roles.

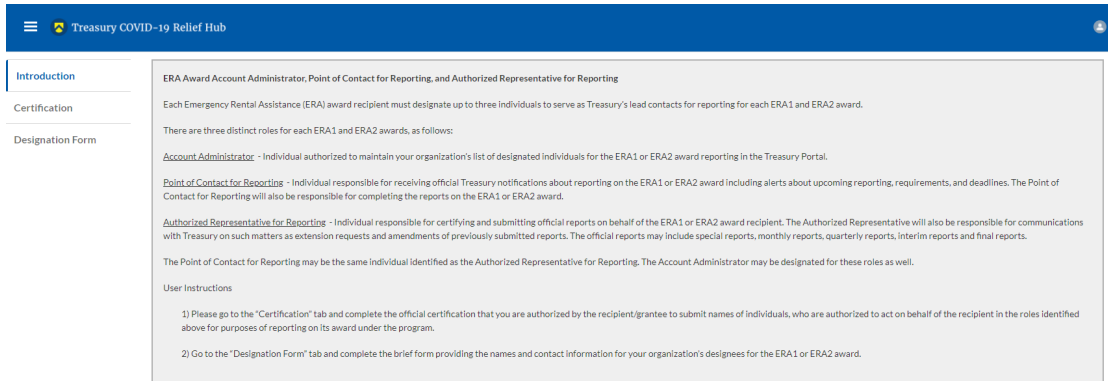

Figure 65 Landing Page

Step 8

When you are ready to key in the names of the designated individuals, click on the *Certification* button on the left navigation bar, as noted in the red box shown below.

Figure 66 Certification

Step 9

On the “Official Certification of Authorization” screen, you should type in your name to indicate you are authorized to submit the names of the designated individuals. Once you enter your name, click on the *Submit* button.

You can use the Designation Form to enter the names and contact information for each of the three designations for each of your SLFRF allocations.

The roles for the SLFRF allocations are displayed as follows:

- SLFRF – Account Administrator
- SLFRF – Point of Contact for Reporting
- SLFRF – Authorized Representative for Reporting

The Designation Form screen shows nine data fields for entering key information about the individual being designated. These include:

- Salutation (optional)
- First Name
- Middle Name (optional)
- Last Name
- Suffix (optional)
- Title
- Phone
- Email
- Name of Entity/Organization (Recipient entity)

Note: The screen will display a list at the bottom of the screen with the names and contact information of individuals (if any) who have previously been designated for any of the three roles. This list will be important in maintaining and updating your organization's designees in the future.

a. Designation of the Account Administrator

Remember, we have temporarily authorized you as the SLFRF – Account Administrator. There is no need to re-enter your name and contact information if you plan to continue in that role. If you need to designate someone else as the SLFRF Account Administrator,

- Find your name at the bottom of the screen.
- Hit the blue *Edit* button located to right of your name.
- Enter the name and contact information of the new SLFRF Account Administrator.
- Hit the blue *Complete* button.

b. Designation of Point of Contact for Reporting and Authorized Representative for Reporting

- Enter the next designee's name and contact information.
- After entering their name and required contact information, select the Program Role(s) for which he/she is being designated.
- Once the role is selected, click on the small arrow to the right of the role, which will move the role to the box on the right.
- Click on the *Complete* button at the bottom of the screen.
- Follow the same process for each of the remaining designees.
- When you have entered all three designations, please press the *Complete* button.
- As a final step, go to the icon on the upper right of the screen as shown below to exit the system.

Figure 70 Designation Form

Section B: Questions and Answers

Who is authorized to designate the Account Administrator, the Point of Contact for Reporting, and the Authorized Representative for Reporting for my organization’s SLFRF’s award?

Treasury requests that each SLFRF should follow its own decision-making procedures in making the three designations for each award.

What is the deadline for making the designation?

Treasury requests that users of Treasury’s portal make the three designations as soon as possible to enable your organization to submit required reports.

What are the responsibilities for each of the three designated roles?

The required roles are as follows:

- **Account Administrator** for the SLFRF award has the administrative role of maintaining the names and contact information of the designated individuals for SLFRF reporting. The Account Administrator is also responsible for working within your organization to determine its designees for the roles of Point of Contact for Reporting and Authorized Representative for Reporting and providing their names and contact information via Treasury’s Portal. The Account Administrator can also view and submit reports. Finally, the Account Administrator is responsible for making any changes or updates as needed over the award period. We recommend that the Account Administrator identify an individual to serve in his/her place in the event of staff changes.
- **Point of Contact for Reporting** is the primary contact for receiving official Treasury notifications about reporting on the SLFRF award, including alerts about upcoming reporting, requirements, and deadlines. The Point of Contact for Reporting is responsible for completing the SLFRF reports but cannot certify and submit these reports.

- **Authorized Representative for Reporting** is responsible for certifying and submitting official reports on behalf of the SLFRF award recipient. Treasury will accept reports or other official communications only when submitted by the Authorized Representative for Reporting. The Authorized Representative for Reporting is also responsible for communications with Treasury on such matters as extension requests and amendments of previously submitted reports. The official reports may include special reports, monthly reports, quarterly reports, interim reports, and final reports.

May my organization designate one individual for multiple roles?

Yes, an individual may be designated for multiple roles. For example, the individual designated as the Account Administrator can also be designated as the Authorized Representative for Reporting or Point of Contact for Reporting. It is also acceptable for an organization to designate one individual for all three roles however it should also adhere to any applicable rules on personnel checks and balances.

May my organization designate more than one individual per role?

Yes, you may designate more than one person per each role but are encouraged to limit the number of users assigned to each role.

May my organization change the designations from time to time?

Yes, an organization may make changes and updates to the list of designation individuals whenever needed.

Must each of the designated individuals register for using Treasury's Portal?

Yes, everyone designated for any of the roles must register with ID.me or Login.gov before they will be given access to Treasury's portal. Please contact us at the email address below for more information and guidance on registering with ID.me or Login.gov. If you are already registered with ID.me, you do not have to register to Login.gov to access your reports.

Additional Questions or Additional Assistance?

If you have additional questions about accessing or using Treasury's portal to provide the designees' names and contact information, please send us an email via SLFRP@treasury.gov.

Appendix B – Bulk File Upload Overview

a) Purpose

This Appendix provides an overview of the SLFRF bulk file upload process. The six (6) bulk file upload templates listed below are presented in the order in which they should be populated and submitted to the SLFRF Treasury Portal. The data requirements for each template can be found in subsequent sections of this Appendix.

1. Project Baseline Template (*Note: This template will be used for Expenditure Categories 1.1-1.7, 1.10, 1.11-1.14, 2.9-2.13, 2.15-2.23, 2.28, 2.35, 2.37, 3.3-3.5, 7.1-7.2*)
2. Subrecipient Template
3. Subaward Template
4. Expenditures GT \$50,000 Template
5. Aggregate Expenditures LT \$50,000 Template
6. Payments to Individuals Template

b) Expenditure Category (EC) Templates

Expenditure Categories (EC) which require additional programmatic data and other information are listed below. The reporting requirements for each EC can be found in [Appendix D](#).

1. Project Baseline Template
2. Project EC 1.8, 2.29-2.33 Template
3. Project EC 1.9, 2.34 Template
4. Project EC 2.36 Template
5. Project EC 2.1-2.8 Template
6. Project EC 2.14, 2.24-2.27 Template
7. Project EC 3.1 Template
8. Project EC 3.2 Template
9. Project EC 4.1-4.2 Template
10. Project EC 5.1-5.18 Template
11. Project EC 5.19-5.21 Template

c) Template Description

Each of the bulk file upload templates contains instructions on how to populate the respective fields within each file. When adding content to each template, please follow the “Help” text, which will provide what is and isn’t permitted for each cell. Each Module in the web application provides a link to download the template. All templates have the same structure as described below:

Row 1: Template Version

Row 2: Template Name

Row 3: Instructions: Brief description of the template constraints.

Row 4: Field IDs: Column identifiers

Row 5: Required or Optional: This field specifies if the field is optional or required. When the column is required, and a recipient does not provide the required data, the system will not accept any record or allow the file to be uploaded. NOTE: Due to system constraints, some required fields that are conditional based on the Expenditure Category are marked as optional in the bulk upload templates.

Row 6: Field Name: Brief description of each Field or Column

Row 7: Field Help Text: Provides a description of the column. There are 2 types of fields, 1). an open value either text or numbers and 2). A predefined list of pick list values:

- Open Value: Any text or number. Text for State name or a Number that represents amounts. Most text types are free formats, the only expectation is for Dates, each column that represents a date describes the accepted format. For any number field, it is not required to add “,” to represent thousands or it is not required to add “\$” to represent currency. Only add decimal “.” when needed.
- Pick List: A Predefined list of values that is accepted by the system. When the column is a pick list, row 7 provides the list of options that the system accepts. End users should “copy and paste” the valid value for each record. If the respondent provides a value that is not in the predefined pick list, the system will not accept the file. Responses should not contain double quotes

Row 8: Data that recipient submits. Row 8 is where recipients insert specific data to submit. The system accepts 1 or many rows.

The following is special guidance for each row or set of rows:

1. Do not change the content of rows 1 to 7.
2. Rows 4 to 7 provide metadata of each data element or column of the information that recipients will provide.
3. Add your data beginning in row 8, column B.

d) Bulk Upload Process

The upload process includes the following steps:

1. Download the template from the link provided in the web application section of the module.
2. Open the template in Microsoft Excel.
3. Add your data starting with row 8, column B of the applicable template.
4. When you finish adding your data for row 8, repeat on additional rows as required.
5. Save the template as a .CSV file and change the name of the file if needed.
6. Click the Bulk Upload link to open the Bulk Upload box (see Figure 71).

10. Click "Validate" to have the system verify that your bulk upload does not have errors.
11. If the system validation finds errors in your bulk upload, it will return the screen with the list of the errors (see Figure 74). From here, you can either update on the screen by manually typing in your corrections in the Value column, or you may restart the process with a corrected bulk upload file.

In cases when it may be preferable to work from a master list of errors, click the *Download – Export Errors* link, highlighted in red box, to download a spreadsheet detailing all errors in the bulk upload file. Once your errors are corrected, click “update”. The system will once again check your upload for errors.

- 13. Once created, your records will show at the bottom of the relevant screen.

e) Bulk Upload Creation Steps

The collective bulk file upload process is contingent upon end-users following the below steps to ensure successful submission.

Note: All data submitted via the bulk upload functionality must be submitted as a .CSV file.

f) CSV Guidance

Refer to the following link for descriptions of the CSV format.

https://en.wikipedia.org/wiki/Comma-separated_values

g) Specific CSV characteristics

- The date format is: MM/DD/YYYY. Example:
 - a. 06/22/2021
- All currency values are numeric. It is not required to add “,” for thousand or millions.
- All currency values should not contain a “\$” sign. The file will be rejected if a “\$” is included in the data entry.
- Once you’ve saved the excel spreadsheet as a .csv file, do not re-open the file. Re-opening the file will cause excel to possible revert to an .xls type file and leading zeros or other issues may occur,

h) Upload Template Description

Each data element and/or column in the CSV files is described below:

- Index No: Reference number for the data element. For internal use only.
- Defined term: Column Short description.
- Definition: Column long description or definition.
- CSV Column Name: The column header name that must be used in the CSV file.
- Required: Indicates if the column is required or not required.
- List Value: The content of the column is from a list of predefined values. This is valid for some of the columns. The list is provided for all cases. Most of the cases is N/A which means that the type is ether String or Numeric.
- Data type: Specify the data type of the column. The options are: Numeric, Text, Date and Pick List.
- Max Length: Indicates the maximum length in characters that is allowed for each column.

i) Project Baseline Template

The downloadable templates provide all information required to create the upload files. The following table highlights the data elements required to complete the Project Baseline Template. Expenditure categories not covered by the Project Baseline Template have a devoted template as described in [Appendix C](#). NOTE: Each bulk file upload template, including the Project Baseline Template, will have unique requirements which determine if data fields are required, optional, or conditional. Additional guidance can be found within the Help Text for all bulk file upload templates.

Appendix C – Expenditure Categories and Template Mapping

The Expenditure Categories (EC) listed below must be used to categorize each project as noted in the [Reporting Guidance](#). The term “Expenditure Category” refers to the detailed level (e.g., 1.1 COVID-10 Vaccination). When referred to at the summary level (e.g., EC 1) it includes all Expenditure Categories within that summary level.

For the table below, the following legend applies.

*Denotes areas where recipients must identify the amount of the total funds that are allocated to evidence-based interventions (see Use of Evidence section above for details). Please note the evidence-based questions are only applicable to States, U.S. Territories, and metropolitan cities and counties with population over 250,000.

^Denotes areas where recipients must report on whether projects are primarily serving disproportionately impacted communities (see Project Demographic Distribution section above for details)

The Programmatic Data column indicates which Expenditure Categories have associated programmatic data, in addition to the project standard information. More information on each EC’s programmatic data is contained in Appendix C and in the [Reporting Guidance](#).

In addition to the project base information noted in the Project Bulk Upload for Base Projects table above, additional data to provide is as follows:

Defined Term	Definition	Required or Optional	List Values	Data Type	Max Length
Number of small businesses served	Number of small businesses served (by program if recipient establishes multiple separate small businesses assistance programs)	Required	n/a	Numeric	10

EC 1.9, 2.34

There is additional programmatic data required for EC 1.9, 2.34 that can be provided via bulk upload file or manual entry. The EC 1.9, 2.34 Bulk File Upload Template contains guidance to create the upload files to include data instructions, required/optional fields, help text, and permissible data types.

- EC 1.9 COVID 19 Assistance to Non-Profits
- EC 2.34 Assistance to Impacted Nonprofit Organizations (Impacted or Disproportionately Impacted)

In addition to the project base information noted in the Project Bulk Upload for Base Projects table above, additional data to provide is as follows:

Defined Term	Definition	Required or Optional	List Values	Data Type	Max Length
Non-Profits Served	Number of Non-Profits served (by program if recipient establishes multiple separate non-profit assistance programs)	Required	n/a	Numeric	10

EC 1.11 – 1.14

There is no additional programmatic data required for the following ECs:

- EC 1.11 Community Violence Interventions
- EC 1.12 Mental Health Services
- EC 1.13 Substance Use Services
- EC 1.14 Other Public Health Services

EC 2.1 – 2.8

There is additional programmatic data required for EC 2.1 – 2.8 that can be provided via bulk upload file or manual entry. The EC 2.1-2.8 Bulk File Upload Template contains guidance to create the upload files and to include data instructions, required/optional fields, help text, and permissible data types.

- EC 2.1 Household Assistance: Food Programs
- EC 2.2 Household Assistance: Rent, Mortgage, and Utility Aid
- EC 2.3 Household Assistance: Cash Transfers
- EC 2.4 Household Assistance: Internet Access Programs
- EC 2.5 Household Assistance: Paid Sick and Medical Leave
- EC 2.6 Household Assistance: Health Insurance
- EC 2.7 Household Assistance: Services for Un/Unbanked
- EC 2.8 Household Assistance: Survivor's Benefits

In addition to the project base information noted in the Project Bulk Upload for Base Projects table above, additional data to provide is as follows:

EC 2.9 – 2.13

There is no additional programmatic data required for the following ECs:

- EC 2.9 Unemployment Benefits or Cash Assistance to Unemployed Workers
- EC 2.10 Assistance to Unemployed or Underemployed Workers (e.g., job training, subsidized employment, employment supports or incentives)
- EC 2.11 Healthy Childhood Environments: Child Care
- EC 2.12 Healthy Childhood Environments: Home Visiting
- EC 2.13 Healthy Childhood Environments: Services to Foster Youth or Families Involved in Child Welfare System

EC 2.14, 2.24 - 2.27

There is additional programmatic data required for EC 2.14, 2.24 - 2.27 that can be provided via bulk upload file or manual entry. The EC 2.14, 2.24-2.27 Bulk File Upload Template contains guidance to create the upload files and to include data instructions, required/optional fields, help text, and permissible data types.

- EC 2.14 Healthy Childhood Environments: Early Learning
- EC 2.24 Addressing Educational Disparities: Aid to High-Poverty Districts
- EC 2.25 Addressing Educational Disparities: Academic, Social, and Emotional Services
- EC 2.26 Addressing Educational Disparities: Mental Health Services
- EC 2.27 Addressing Impacts of Lost Instructional Time

In addition to the project base information noted in the Project Bulk Upload for Base Projects table above, additional data to provide is as follows:

Defined Term	Definition	Required or Optional	List Values	Data Type	Max Length

Policy Information

When providing the National Center for Education Statistics (“NCES”) School ID or NCES District ID, please list the School District if all schools within the school district received some funds. If not all schools within the school district received funds, please list the School ID of the schools that received funds. These can allow evaluators to link data from the NCES to look at

school-level demographics and, eventually, student performance. For more information on NCES identification numbers see <https://nces.ed.gov/ccd/districtsearch/> (districts) and <https://nces.ed.gov/ccd/schoolsearch/> (schools).

EC 2.15 – 2.23, 2.28, 2.35, 2.37

There is no additional programmatic data required for the following ECs:

- EC 2.15 Long-term Housing Security: Affordable Housing
- EC 2.16 Long-term Housing Security: Services for Unhoused Persons
- EC 2.17 Housing Support: Housing Vouchers and Relocation Assistance for Disproportionately Impacted Communities
- EC 2.18 Housing Support: Other Housing Assistance
- EC 2.19 Social Determinants of Health: Community Health Workers or Benefits Navigators
- EC 2.20 Social Determinants of Health: Lead Remediation
- EC 2.21 Medical Facilities for Disproportionately Impacted Communities
- EC 2.22 Strong Healthy Communities: Neighborhood Features that Promote Health and Safety
- EC 2.23 Strong Healthy Communities: Demolition and Rehabilitation of Properties
- EC 2.28 Contributions to UI Trust funds
- EC 2.35 Aid to Tourism Travel or Hospitality
- EC 2.37 Economic Impact Assistance: Other

EC 2.36

There is additional programmatic data required for EC 2.36 that can be provided via bulk upload file or manual entry. The EC 2.36 Bulk File Upload Template contains guidance to create the upload files to include data instructions, required/optional fields, help text, and permissible data types.

- EC 2.36 Aid to Other Impacted Industries

In addition to the project base information noted in the Project Bulk Upload for Base Projects table above, additional data to provide is as follows:

EC 3.3 – 3.5

There is no additional programmatic data required for the following ECs:

- EC 3.3 Public Sector Workforce: Other
- EC 3.4 Public Sector Capacity: Effective Service Delivery
- EC 3.5 Public Sector Capacity: Administrative Needs

EC 4.1–4.2 (Premium Pay)

There is additional programmatic data required for EC 4.1 – 4.2 that can be provided via bulk upload file or manual entry. The EC 4.1-4.2 Bulk File Upload Template contains guidance to create the upload files to include data instructions, required/optional fields, help text, and permissible data types.

- EC 4.1 Public Sector Employees
- EC 4.2 Private Sector: Grants to other employers

In addition to the project base information noted in the Project Bulk Upload for Base Projects table above, additional data to provide is as follows:

K-12 Workers Served	Number of workers to be served with premium pay in K-12 schools	Required	n/a	Numeric	10

In addition, please see [Section IV.d.1](#) Step 5 and [Appendix E](#) for additional information needed on sub-awards supporting projects in these Expenditure Categories.

Note- Recipients that are either creating or supporting a Premium Pay program should reference the final rule and the Overview of the Final Rule for information regarding this eligible use.

EC 5.1–5.18

There is additional programmatic data required for EC 5.1 – 5.18 that can be provided via bulk upload file or manual entry. There is also additional programmatic data required for all projects that can only be entered via manual entry. The EC 5.1-5.18 Bulk File Upload Template contains guidance to create the upload files to include data instructions, required/optional fields, help text, and permissible data.

- 5.1-Clean Water: Centralized wastewater treatment
- 5.2-Clean Water: Centralized wastewater collection and conveyance
- 5.3 Clean Water: Decentralized wastewater
- 5.4 Clean Water: Combined sewer overflows
- 5.5 Clean Water: Other sewer infrastructure
- 5.6 Clean Water: Stormwater
- 5.7 Clean Water: Energy conservation
- 5.8 Clean Water: Water conservation
- 5.9 Clean Water: Nonpoint source

- Median Household Income of service area
- Lowest Quintile Income of the service area
 - o For median income and lowest quintile income of Census Tracts and other geographic areas, recipients should refer to the most recent American Community Survey 5-year estimates available through the Census website.

After the bulk upload of EC 5.1 – 5.18 infrastructure project information, manual entry of additional programmatic data will be required in Treasury’s Portal.

EC 5.19–5.21

There is additional programmatic data required for EC 5.19 – 5.21 that can be provided via bulk upload file or manual entry. There is also additional programmatic data required for all projects that can only be entered via manual entry. The EC 5.19-5.21 Bulk File Upload Template contains guidance to create the upload files to include data instructions, required/optional fields, help text, and permissible data.

After the bulk upload of EC 5.19 – 5.21 infrastructure project information, manual entry of additional programmatic data will be required in Treasury’s Portal.

a) Additional manual entry for all infrastructure projects

1. Location
2. For projects over \$10 million in expected total cost
 - i. Complete Davis-Bacon certification or provide the following:
 - Number of employees of contractors and sub-contractors working on the project (number)
 - Number of employees on the project hired directly (number)
 - Number of employees on the project hired through a third party (number)
 - Wages and benefits of workers on the project by classification (rich text field)
 - Are any of the wages at rates less than those prevailing? (Y/N)
 - ii. Complete certification for labor agreements or provide the following:
 - How will the recipient ensure the project has ready access to a sufficient supply of appropriately skilled and unskilled labor to ensure high-quality construction throughout the life of the project, including a description of any required professional certifications and/or in-house training? (text box)
 - How will the recipient minimize risks of labor disputes and disruptions that would jeopardize timeliness and cost-effectiveness of the project? (text box)
 - How will the recipient provide a safe and healthy workplace that avoids delays and costs associated with workplace illnesses, injuries, and fatalities, including descriptions of safety training, certification, and/or licensure requirements for all relevant workers (e.g., OSHA 10, OSHA 30);"? (text box)

- Will workers on the project receive wages and benefits that will secure an appropriately skilled workforce in the context of the local and regional labor market? (Y/N)
- Does the project have a completed project labor agreement? (Y/N)
- iii. Respond to the question, Does the project prioritize local hires? (Y/N)
- iv. Respond to the question, Does the project have a Community Benefit Agreement, with a description of any such agreement? (Y/N)

b) Additional manual entry for Broadband Projects Expenditure Categories (5.19 – 5.21):

1. For broadband projects, there will be a field for upload of a geo location data file, including latitude and longitude.

EC 6.1 and 6.2

There is no additional programmatic data required for EC 6.1 Revenue Replacement or EC 6.2 Non-federal match for other Federal Programs and there is no bulk upload template option. For EC 6.2, recipients should note the program name and assistance listing of the other federal program that is being matched in the project description.

In addition, note that obligations and expenditures reported under EC 6.1 and EC 6.2 do not need to have subrecipients, subawards, or expenditures separately reported. Entry screens for EC 6.1 and 6.2 will have the following fields greyed out and unavailable for entry: Subrecipient module, Subaward Module, Expenditure Module.

EC 7.1 – 7.2

There is no additional programmatic data required for the following ECs:

- EC 7.1 Administrative Expenses
- EC 7.2 Transfers to Other Units of Government

Appendix E - Expenditure Categories

Treasury's final rule provides greater flexibility and simplicity for recipients to fight the pandemic and support families and businesses struggling with its impacts, maintain vital services amid revenue shortfalls, and build a strong, resilient, and equitable recovery. As such, recipients will report on a broader set of eligible uses and associated Expenditure Categories (EC), starting with the April 2022 Project and Expenditure Report. The table below includes the new Expenditure Categories, as well as a reference to previous Expenditure Categories used for reporting under the interim final rule.

The Expenditure Categories (EC) listed below must be used to categorize each project. The term "Expenditure Category" refers to the detailed level (e.g., 1.1 COVID-19 Vaccination). When referred to as a category (e.g., EC 1) it includes all Expenditure Categories within that level.

*Denotes areas where recipients must identify the amount of the total funds that are allocated to evidence-based interventions (see Use of Evidence section above for details). Please note the evidence-based questions are only applicable to States, U.S. Territories, and metropolitan cities and counties with population over 250,000.

^Denotes areas where recipients must report on whether projects are primarily serving disproportionately impacted communities (see Project Demographic Distribution section above for details)

Appendix F – List of Sectors

When entering information for project subawards, selection of a Primary Sector is required for subawards tied to projects in Expenditure Categories:

- 4.1 Premium Pay: Public Sector Employees; and
- 4.2 Premium Pay: Private Sector: Grants to other employers.

A primary sector is defined as the sector targeted by the work performed under the sub-award. It is not required for other expenditure categories. The table below lists primary sectors available in the system for selection. If the primary sector is not listed, select “Other” and clarify in the manual entry box.

Sectors Designated as Essential Critical Infrastructure Sectors
Any work performed by an employee of a State, local, or Tribal government
Behavioral health work
Biomedical Research
Dental care work
Educational work, school nutrition work, and other work required to operate a school facility
Elections work
Emergency response
Family or childcare
Grocery stores, restaurants, food production, and food delivery
Health care
Home- and community-based health care or assistance with activities of daily living
Laundry work
Maintenance work
Medical testing and diagnostics
Pharmacy
Public health work
Sanitation, disinfection, and cleaning work
Social services work
Solid waste or hazardous materials management, response, and cleanup work
Transportation and warehousing
Vital services to Tribes
Work at hotel and commercial lodging facilities that are used for COVID-19 mitigation and containment
Work in a mortuary
Work in critical clinical research, development, and testing necessary for COVID-19 response
Work requiring physical interaction with patients
Other

Appendix G – Project Demographic Distribution Information

For ECs 1.1 – 2.37 applicable to Public Health and Negative Economic Impacts, recipients must report whether projects are targeted to impacted and disproportionately impacted communities. Recipients will be asked to respond to the following:

- a. What Impacted and/or Disproportionately Impacted population does this project primarily serve? Please select the population primarily served.
- b. If this project primarily serves more than one Impacted and/or Disproportionately Impacted population, please select up to two additional populations served.

For this question the following options are available.

Assistance to Households	<ul style="list-style-type: none"> • Low- or-moderate income households or communities⁹ • Households that experienced unemployment • Households that experienced increased food or housing insecurity • Households that qualify for certain federal programs¹⁰ • For services to address lost instructional time in K-12 schools: any students that lost access to in-person instruction for a significant period of time • Other households or populations that experienced a negative economic 	<ul style="list-style-type: none"> • Low-income households and communities¹¹ • Households and populations residing in Qualified Census Tracts • Households that qualify for certain federal benefits¹² • Households receiving services provided by Tribal governments • Households residing in the U.S. territories or receiving services from these governments • For services to address educational disparities, Title I eligible schools¹³ • Other households or populations

⁹ Low or moderate-income households and communities are those with (i) income at or below 300 percent of the Federal Poverty Guidelines for the size of the household based on the most recently published poverty guidelines by the Department of Health and Human Services (HHS) or (ii) income at or below 65 percent of the Area Median Income for the county and size of household based on the most recently published data by the Department of Housing and Urban Development (HUD).

¹⁰ For Impacted households, these programs are Children’s Health Insurance Program (“CHIP”); Childcare Subsidies through the Child Care and Development Fund (“CCDF”) Program; Medicaid; National Housing Trust Fund (“HTF”), for affordable housing programs only; Home Investment Partnerships Program (“HOME”), for affordable housing programs only.

¹¹ Low-income households and communities are those with (i) income at or below 185 percent of the Federal Poverty Guidelines for the size of the household based on the most recently published poverty guidelines by HHS or (ii) income at or below 40 percent of Area Median Income for its county and size of household based on the most recently published data by HUD.

¹² For Disproportionately Impacted households, these programs are Temporary Assistance for Needy Families (“TANF”), Supplemental Nutrition Assistance Program (“SNAP”), Free- and Reduced-Price Lunch (“NSLP”) and/or School Breakfast (“SBP”) programs, Medicare Part D Low-Income Subsidies, Supplemental Security Income (“SSI”), Head Start, Special Supplemental Nutrition Program for Women, Infants, and Children (“WIC”), Section 8 Vouchers, Low-Income Home Energy Assistance Program (“LIHEAP”), and Pell Grants.

¹³ For educational services and other efforts to address educational disparities, Treasury will recognize Title I eligible schools as disproportionately impacted and responsive services that support the school generally or support the whole school service as eligible. “Title I eligible schools” means schools eligible to receive services under section 1113 of Title I, Part A of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 6313), including schools served under section 1113(b)(1)(C) of that Act.

Appendix H – Capital Expenditures for Non-Infrastructure Projects

For ECs 1, 2, and 3 applicable to Public Health and Negative Economic Impacts, recipients must report the capital expenditure type for those projects obligating \$10 million or more in funds to the capital expenditure portion of the project. Picklist items are listed below. The underlined portion of each item will be the portion selectable in the portal and the bulk upload template.

FIELD: Type of capital expenditure, based on the following enumerated uses:

- Acquisition of equipment for COVID-19 prevention and treatment, including ventilators, ambulances, and other medical or emergency services equipment
- Adaptations to congregate living facilities, including skilled nursing facilities, other long-term care facilities, incarceration settings, homeless shelters, residential foster care facilities, residential behavioral health treatment, and other group living facilities, as well as public facilities and schools (excluding construction of new facilities for the purpose of mitigating spread of COVID-19 in the facility)
- Affordable housing, supportive housing, or recovery housing development
- Behavioral health facilities and equipment (e.g., inpatient or outpatient mental health or substance use treatment facilities, crisis centers, diversion centers)
- Childcare, daycare, and early learning facilities
- COVID-19 testing sites and laboratories, and acquisition of related equipment
- COVID-19 vaccination sites
- Devices and equipment that assist households in accessing the internet (e.g., tablets, computers, or routers)
- Emergency operations centers and acquisition of emergency response equipment (e.g., emergency response radio systems)
- Food banks and other facilities primarily dedicated to addressing food insecurity
- Improvements to existing facilities to remediate lead contaminants (e.g., removal of lead paint)
- Installation and improvement of ventilation systems in congregate settings, health facilities, or other public facilities
- Job and workforce training centers
- Medical equipment and facilities designed to address disparities in public health outcomes (includes primary care clinics, hospitals, or integrations of health services into other settings)
- Medical facilities generally dedicated to COVID-19 treatment and mitigation (e.g., emergency rooms, intensive care units, telemedicine capabilities for COVID-19 related treatment)
- Mitigation measures in small businesses, nonprofits, and impacted industries (e.g., developing outdoor spaces)
- Parks, green spaces, recreational facilities, sidewalks, pedestrian safety features like crosswalks, streetlights, neighborhood cleanup, and other projects to revitalize public spaces
- Public health data systems, including technology infrastructure
- Rehabilitations, renovation, remediation, cleanup, or conversions of vacant or abandoned properties
- Schools and other educational facilities or equipment to address educational disparities
- Technology and equipment to allow law enforcement to efficiently and effectively respond to the rise in gun violence resulting from the pandemic

- Technology and tools to effectively develop, execute, and evaluate government programs
- Technology infrastructure to adapt government operations to the pandemic (e.g., video-conferencing software, improvements to case management systems or data sharing resources), reduce government backlogs, or meet increased maintenance needs
- Temporary medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs
- Transitional shelters (e.g., temporary residences for people experiencing homelessness)
- Other (please specify)

Appendix I – Frequently Asked Questions

1.1. What records must be kept by governments receiving funds?

Financial records and supporting documents related to the award must be retained for a period of five years after all funds have been expended or returned to Treasury, whichever is later. This includes those which demonstrate the award funds were used for eligible purposes in accordance with sections 602(c) and 603(c) of the Social Security Act, Treasury's regulations implementing those sections, and Treasury's related guidance.

1.2. What reporting will be required, and when will the first report be due?¹⁴

Recipients will be required to submit an interim report, project and expenditure reports, and annual Recovery Plan Performance Reports as specified below, regarding their utilization of Coronavirus State and Local Fiscal Recovery Funds.

Interim reports: States (defined to include the District of Columbia), territories, metropolitan cities, counties, and Tribal governments were required to submit one interim report. The interim report was required to include a recipient's expenditures by category at the summary level and for states, information related to distributions to non-entitlement units of local government were also required to be included in the interim report. The interim report covered activity from the date of award to July 31, 2021 and were due to Treasury by August 31, 2021 or 60 days after receiving funding if funding was received by October 15, 2021. Non-entitlement units of local government were not required to submit an interim report.

Project and Expenditure reports: State (defined to include the District of Columbia), territorial, metropolitan city, county, and Tribal governments will be required to submit project and expenditure reports. This report will include financial data, information on contracts and subawards greater than or equal to \$50,000, types of projects funded, and other information regarding a recipient's utilization of award funds.

Reports will be required quarterly for the following recipients:

- States and U.S. territories
- Tribal governments that are allocated more than \$30 million in SLFRF funding
- Metropolitan cities and counties with a population that exceeds 250,000
- Metropolitan cities and counties with a population below 250,000 that were allocated more than \$10 million in SLFRF funding and NEUs that are allocated more than \$10 million in SLFRF funding

The initial project and expenditure report for quarterly recipients was due January 31, 2022 and covered the period of March 3, 2021 to December 31, 2021. The subsequent quarterly reports will cover one calendar quarter and must be submitted to Treasury within 30 days after the end of each calendar quarter.

Reports will be required annually for the following recipients:

- Tribal governments that are allocated less than \$30 million in SLFRF funding

¹⁴ This question was updated on November 15, 2021

- Metropolitan cities and counties with a population below 250,000 that are allocated less than \$10 million in SLFRF funding and NEUs that are allocated less than \$10 million in SLFRF funding

The initial project and expenditure report for annual filers is due April 30, 2022 and will cover the period of March 3, 2021 to March 31, 2022. The subsequent annual reports must be submitted to Treasury by April 30 each year.

The reports will include the same general data as those submitted by recipients of the Coronavirus Relief Fund, with some modifications to expenditure categories and the addition of data elements related to specific eligible uses.

Recovery Plan Performance Reports: States (defined to include the District of Columbia), territories, and metropolitan cities and counties with a population that exceeds 250,000 residents will also be required to submit an annual Recovery Plan Performance Report to Treasury. This report will include descriptions of the projects funded and information on the performance indicators and objectives of each award, helping local residents understand how their governments are using the substantial resources provided by Coronavirus State and Local Fiscal Recovery Funds program. The initial Recovery Plan Performance Report covered activity from date of award to July 31, 2021 and was due to Treasury by August 31, 2021 or 60 days after receiving funding. Thereafter, the Recovery Plan Performance Reports will cover a 12-month period and recipients will be required to submit the report to Treasury within 30 days after the end of the 12-month period. The second Recovery Plan Performance Report will cover the period from July 1, 2021 to June 30, 2022 and must be submitted to Treasury by July 31, 2022. Each annual Recovery Plan Performance Report must be posted on the public-facing website of the recipient. Local governments with fewer than 250,000 residents, Tribal governments, and non-entitlement units of local government are not required to develop a Recovery Plan Performance Report.

Please see the [Compliance and Reporting Guidance](#) for more information.

1.3. Once a recipient has identified a reduction in revenue, how will Treasury track use of funds for the provision of government services?

The ARPA establishes four categories of eligible uses and further restrictions on the use of funds to ensure that Fiscal Recovery Funds are used within the four eligible use categories. The final rule implements these restrictions, including the scope of the eligible use categories and further restrictions on states or territories using SLFRF funds to offset a reduction in a recipient's net tax revenue resulting from changes in state or territory law and deposits into pension funds for recipients other than Tribal governments.

Consistent with the broad latitude provided to recipients to use funds for government services to the extent of the reduction in revenue due to the pandemic, recipients will be required to submit a description of services provided. These services can include a broad range of services but may not be used directly for pension deposits (except for Tribal governments), contributions to reserve funds, or debt service. Recipients may use sources of funding other than Fiscal Recovery Funds to make deposits to pension funds, contribute to reserve funds, and pay debt service, including during the period of performance for the Fiscal Recovery Fund award.

For recipients using Fiscal Recovery Funds to provide government services to the extent of reduction in revenue due to the pandemic, the description of government services reported to Treasury may be narrative or in another form, and recipients are encouraged to report based on their existing budget processes and to minimize administrative burden. For example, a recipient with \$100 in revenue replacement funds available could indicate that \$50 were used for personnel costs and \$50 were used for pay-go building of sidewalk infrastructure.

In the Project and Expenditure report, recipients using revenue loss funds for the provision of governments services may report projects under Expenditure Category 6.1. Recipients using revenue loss funds for non-federal match may report projects under Expenditure Category 6.2. Recipients using revenue loss funds for non-federal match should include the Program Name and Assistance Listing of the other federal program that is being matched in the project description.

In addition to describing the government services provided to the extent of reduction in revenue, all recipients other than Tribal governments will also be required to indicate that Fiscal Recovery Funds are not used directly to make a deposit in a pension fund. Further, recipients subject to the tax offset provision will be required to provide information necessary to implement this provision. Treasury does not anticipate requiring other types of reporting or recordkeeping on spending in pensions, debt service, or contributions to reserve funds.

These requirements are further detailed in the guidance on reporting requirements for the Fiscal Recovery Funds available [here](#).

1.4. What is the Assistance Listing and Catalog of Federal Domestic Assistance (CFDA) number for the program?

The [Assistance Listing](#) for the Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) was published May 28, 2021 on SAM.gov. This includes the final Assistance Listing number for the program, 21.027.

The assistance listing includes helpful information including program purpose, statutory authority, eligibility requirements, and compliance requirements for recipients. The Assistance Listing number is the unique 5-digit code for each type of federal assistance, and can be used to search for program information, including funding opportunities, spending on usaspending.gov, or audit results through the Federal Audit Clearinghouse.

To expedite payments and meet statutory timelines, Treasury issued initial payments under an existing Assistance Listing number. If you have already received funds or captured the initial Assistance Listing number in your records, please update your systems and reporting to reflect the final Assistance Listing number 21.027. **Recipients must use the final Assistance Listing number for all financial accounting, audits, subawards, and associated program reporting requirements.**

To ensure public trust, Treasury expects all recipients to serve as strong stewards of these funds. This includes ensuring funds are used for intended purposes and recipients have in place effective financial management, internal controls, and reporting for transparency and accountability.

Please see the [final rule](#) and the [Compliance and Reporting Guidance](#) for more information.

1.5. If a recipient has not received funding as of October 15, 2021 but received funding before the end of December 31, 2021, what are the reporting requirements?

Treasury recognizes that recipients will need sufficient time to gather the information and determine how to allocate funds in accordance with the interim final rule. As such, recipients that have received funding between October 16, 2021 and December 31, 2021 were not required to submit an Interim Report.

However, recipients in this circumstance are subject to quarterly reporting (those in Reporting Tiers 1, 2, or 3) were required to submit a Project and Expenditure Report by January 31, 2022.

Recipients that are not subject to quarterly reporting will be required to submit a Project and Expenditure Report by April 30, 2022.

Recipients must submit a Recovery Plan (if applicable) within 60 days of receiving funding.

1.6. Does the \$10 million threshold for metropolitan cities and counties with population less than 250,000 and the \$30 million threshold for tribes apply to funds received or the total allocation?

The reporting threshold is based on the total allocation expected under the SLFRF program, not the funds received by the recipient as of the time of reporting. Recipient reporting tiers will be displayed in the reporting portal. If you believe there is an error with the reporting tier or application of the \$10 million (for metropolitan cities and counties with a population below 250,000 residents) or \$30 million (for tribes) thresholds, please email SLFRP@treasury.gov.

1.7. How should a recipient report funds if funds were received as multiple entity types (e.g., a county and an NEU, or county and a city)?

When receiving funds as multiple entity types, a recipient's total SLFRF allocations across all sources will be used to identify that recipient's reporting tier.

A recipient's reporting tier will be available for review in the Treasury's Portal and on the Treasury website prior to the reporting deadline. If you believe there is an error in your reporting tier or allocation amount, please email SLFRP@treasury.gov.

1.8. The guidance covering submission of the Recovery Plan indicates that in addition to submitting a PDF version of the Recovery Plan recipients must also upload a project inventory file and input other programmatic data. Is this no longer required?

Treasury has delayed the collection of this information in Treasury's Portal in order to streamline reporting and lessen the reporting burden for recipients. Recipients are still required to upload a PDF version of their Recovery Plan by August 31, or 60 days after receiving funding. Recipients are encouraged to use the suggested template posted in the www.treasury.gov/SLFRPReporting website when preparing the Recovery Plan template. Some data from the Recovery Plan will be phased in to be submitted with the Project and Expenditure report.

1.9. How should recipients report if the population threshold changes during the reporting period?

The population threshold is determined by Treasury at award date and will not change during the reporting period. A recipient's reporting tier will be available for review in the reporting portal.

1.10. How do Recipients identify what Reporting Tier they are in?

A list of all SLFRF Recipients and their corresponding Reporting Tiers is published on the Treasury website www.Treasury.gov/SLFRPReporting

In addition, Recipients will be able to find their Reporting Tier after logging into the Treasury Reporting Portal and selecting the Project and Expenditure Report record. The Reporting Tier will be displayed as part of the Recipient Profile.

1.11. Can records be edited or updated after submission? How do I report changes?

Interim Report: No changes will be allowed after the initial submission. Any updates will be captured when the first Project and Expenditure Report is submitted.

Project and Expenditure Report: Recipients will have an opportunity to reopen and provide edits to their submitted Project and Expenditure Reports anytime before the reporting deadline. Recipients will then be required to re-certify and submit the report again to properly reflect any edits made.

Recovery Plan: Similarly, Recipients will be allowed to reopen and provide an update of their submitted Recovery Plan report record anytime before the reporting deadline. They should also provide concurrent updates to the publicly posted version.

Recipients will then be required to re-certify and submit the report again to properly reflect any edits made.

1.12. How do recipients correct or edit pre-populated information or project information in Treasury's Portal?

In the event that information presented in Treasury's Portal requires correction, recipients should email SLFRP@treasury.gov and provide the necessary edits.

1.13. Is there any possibility of extension for the reporting deadlines for individual recipients?

Generally, no. The data submitted by recipients will be used internally for oversight purposes and to fulfill Treasury's transparency and legal obligations. Late submissions undermine the efficiency and timeliness of these processes. Recipient submissions after the reporting deadline will be considered as late, and recipients will be asked to provide a date by which the delayed reporting will be submitted so that Treasury can plan for incorporating the data. Treasury's own reporting may highlight those recipients whose reports were not received by the deadline. If there are any changes to the overall reporting deadlines, they will be communicated to the relevant impacted recipients.

1.14. Is there a penalty for not submitting timely reports?

A record of late reporting could lead to a finding of non-compliance, which could result in development of a corrective action plan, or other consequences.

1.15. What is meant by Date of Award?

The Date of Award is the day the recipient certifies the funding.

1.16. When are recipients subject to the quarterly reporting?

Recipients are required to provide quarterly reporting if they are in Reporting Tiers 1, 2, or 3 (see Section III.b). If applicable, reporting will start in the period funds were received and certified and will be required for all quarters thereafter.

Please note, submission of the April 2022 Project and Expenditure report is required for all recipients, including those reporting quarterly and annually.

1.17. How should interest or principal received from loans made with SLFRF Funds be treated?

The Project and Expenditure Report will include fields for reporting on program income at the Project level. Interest received on loans made with SLFRF funds should be tracked as program income (See 2 CFR § 200.1 *Program income*). Any program income that comes in by December 31, 2024 can be recycled by the recipients on eligible projects.

1.18. Will there be a way to capture and tally a total award amount that includes program income for ensuring all funds are spent or that any funds that need to be returned are?

Yes, since Program Income is being collected, Treasury will use the information reported to determine total allowable obligations and expenditures. That information will be made available in the Treasury portal for Recipients as part of future enhancements. Please note, interest earned on advances of federal funds is not considered program income and is not subject to these reporting requirements. (See 2 CFR § 200.1 *Program income*.)

1.19. Are Recipients required to collect a DUNS number for each of their subrecipients?

As of April 2022, the Dun & Bradstreet D-U-N-S number is no longer the official identifier for doing business with the U.S. Government. All recipients and each of their subrecipients are required to obtain through SAM.gov registration, a Unique Entity Identifier (UEI) number.

Recipients should encourage as many of their subrecipients to obtain a UEI number as possible.

To accommodate Recipients during this transition period, if there are subrecipients who do not yet have a UEI number, and/or have challenges in obtaining one, the April 2022 Project and Expenditure Report form will accept for each subrecipient **one of the following two identifiers:**

- o Taxpayer Identification Number (TIN)
- o Unique Entity Identifier (UEI)

1.20. Who are beneficiaries and are recipients required to report for them?

A subrecipient is an entity that receives a subaward to carry out a project funded by Fiscal Recovery Funds on behalf of a recipient. Individuals or entities that are direct beneficiaries of a project funded by Fiscal Recovery Funds are not considered subrecipients. Households, communities, small businesses, nonprofits, and impacted industries are all potential beneficiaries of projects carried out with SLFRF funds.

The terms and conditions of Federal awards flow down to subawards to subrecipients, requiring subrecipients to comply with all requirements of recipients such as the treatment of eligible uses of funds, procurement, and reporting requirements. Beneficiaries are not subject to the requirements placed on subrecipients in the Uniform Guidance, including audit pursuant to the Single Audit Act and 2 CFR Part 200, Subpart F or subrecipient reporting requirements.

The distinction between a subrecipient and a beneficiary, therefore, is contingent upon the rationale for why a recipient is providing funds to the individual or entity. If the recipient is providing funds to the individual or entity for the purpose of carrying out a SLFRF program or project on behalf of the recipient, the individual or entity is acting as a subrecipient. Acting as a subrecipient, the individual or entity is subject to subrecipient monitoring and reporting requirements. Conversely, if the recipient is providing funds to the individual or entity for the purpose of directly benefitting the individual or entity as a result of experiencing a public health impact or negative economic impact, the individual or entity is acting as a beneficiary. Acting as a beneficiary, the individual or entity is not subject to subrecipient monitoring and reporting requirements.

Similar to reporting under the Coronavirus Relief Fund (CRF), information on both beneficiaries and subrecipients will be collected in a single form in the Project and Expenditure Report.

1.21. Do recipients who have projects under Expenditure Category 6.1 "Provision of Government Services" need to report on Subrecipients, Subawards, and Expenditures?

Recipients who have projects categorized under EC 6.1 "Provision of Government Services" are not required at this time to report on the subrecipients, subawards, and expenditures (for subawards or in aggregate) for those projects for the April 2022 reporting cycle.

1.22. How should a Recipient report the Subaward's "Place of Performance" address if the work was performed over a broad area and no specific address is available?

For the Subaward module, if a specific address is not available for a Subaward, you can enter the corresponding Subrecipient's address or the nearest headquarters of your jurisdiction in the required address fields.

1.23. Do jurisdictions need to have committed or dedicated funding received by the August 31, 2021 deadline or 60 days after receiving funding for the initial Recovery Plan?

No. Funding does not need to be committed or dedicated by the time the initial Recovery Plan is submitted. The Recovery Plan should include planned uses of funds and projects to the extent known at the time the Recovery Plan is submitted. Updates can be provided in subsequent Recovery Plans and Project and Expenditure reports.

1.24. Will the data recipients submit be made publicly available?

Yes, Treasury will make the data submitted by recipients publicly available. The content and timing of release is still under development. Treasury encourages recipients to make their data directly available through their own websites. Tier 1 recipients, States, territories, and metropolitan cities and counties with a population greater than 250,000, are reminded that they need to post the Recovery Plan on their public website by the date the report is transmitted to Treasury.

1.25. What reporting is required if no SLFRF funding was used for the activities covered by the Required Performance Indicators noted in Part 2 C.2. of the Reporting Guidance related to the Recovery Plan?

A recipient only needs to report on mandatory performance indicators if funds were used for that purpose / Expenditure Category.
