SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. 3501 et seq., chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology.

In response to your comments, we may revise this ICR or decide not to seek an extension of approval for the Collection. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request, [USCG-2022-0202], and must be received by June 6, 2022.

Information Collection Request

Title: Defect/Noncompliance Report and Campaign Update Report.
OMB Control Number: 1625-0010.

Summary: Manufacturers whose products contain defects which create a substantial risk of personal injury to the public or which fail to comply with an applicable U.S. Coast Guard safety standard are required to conduct defect notification and recall campaigns in accordance with 46 U.S.C. 4310. Regulations in 33 CFR 179 require manufacturers to submit certain reports to the Coast Guard about progress made in notifying owners and making repairs.

Need: According to 46 U.S.C. 4310(d) and (e) and 33 CFR 179.13(a)(2) the manufacturer shall provide the Commandant of the Coast Guard with an initial report consisting of certain information about the defect notification and recall campaign being conducted. Upon receipt of information from a manufacturer indicating the initiation of a recall, the Recreational Boating Product Assurance Branch assigns a recall campaign number, and sends the manufacturer a CG-4917 form for supplying the information. According to 33 CFR 179.15(a), a manufacturer who makes an initial report required by 33 CFR 179.13 shall send to the Commandant of the Coast Guard a follow-up report within 60 days after the initial report.

Forms:

CG-4917, Defect/Noncompliance Report; and
CG-4918, Campaign Update Report.

Respondents: Manufacturers of boats and certain items of ``designated'' associated equipment (inboard engines, outboard motors, or sterndrive engines).

Frequency: Quarterly.

Hour Burden Estimate: The estimated burden has decreased from 166.5 hours to 162 hours a year, due to a decrease in the estimated annual number of responses and a decrease of recalls.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended.

Dated: March 30, 2022.
