**SUPPLEMENTARY INFORMATION:** The Paperwork Reduction Act of 1995 (PRA), Public Law 104–13, Section 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501–3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue

two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), 1320.12. On March 1, 2022 FTA published a 60-day notice (87 FR 11508) in the **Federal Register** soliciting comments on the ICR that the agency was seeking OMB approval. FTA received no comments after issuing this 60-day notice. Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507 (b)–(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30-day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

The summaries below describe the nature of the information collection requirements (ICRs) and the expected burden. The requirements are being submitted for clearance by OMB as required by the PRA.

*Title:* Fixed Guideway Capital Investment Grants (CIG) Program Section 5309.

*OMB Control Number:* 2132–0561.

*Background:* The Federal Transit Administration (FTA) administers the discretionary Capital Investment Grants (CIG) grant program under 49 U.S.C. Section 5309 that provides funding for major transit capital investments including rapid rail, light rail, commuter rail, bus rapid transit, and ferries. Three types of eligible projects are outlined in law: smaller scaled corridor-based transit capital projects known as “Small Starts”; new fixed guideway transit systems and extensions to existing fixed guideway systems known as “New Starts”; and projects to improve capacity in existing fixed guideway corridors, known as “Core Capacity”. The CIG program has a longstanding requirement that FTA evaluate proposed projects against a

prescribed set of statutory criteria at specific points during the projects’ development including when they seek to enter a subsequent phase of the process or a construction grant agreement. In addition, FTA must report on its evaluations and ratings annually to Congress.

The current Federal Public Transportation Law, 49 U.S.C. 5309, has not changed the statutorily defined project justification and local financial commitment criteria that are the subject of this information collection. In addition, the statutorily required approval steps for projects seeking CIG funds have not changed. The current request for renewal of this information collection does not reflect any changes as a result of the Bipartisan Infrastructure Law (BIL). FTA will seek comment from stakeholders through the publication of a separate **Federal Register** Notice outside of the PRA process. In general, the information used by FTA for CIG project evaluation and rating should arise as a part of the normal project planning process.

*Respondents:* State and local government agencies, including transit agencies.

*Estimated Annual Number of Respondents:* 155 respondents.

*Estimated Total Annual Burden:* 68,840 hours.

*Frequency:* Annually.
