## VA Suicide Prevention 2.0 (SP 2.0) Community Opinion Survey

Paperwork Reduction Act and Privacy Act Statement: This information is being collected in accordance with section 3507 of the Paperwork Reduction Act of 1995. Accordingly, we may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a valid OMB number. We anticipate that the time expended to complete this survey will average 15 minutes. This includes the time needed to follow instructions, gather the necessary facts, and respond to the questions. This information is being collected to evaluate the effectiveness of the investment in suicide prevention for Veterans. The results of this survey will help inform improvements in VA suicide prevention programs and determine whether the programs and policies implemented by a community have resulted in positive change in knowledge and attitudes. Any information you enter here is anonymous and will be kept private to the extent provided by law. All respondent contact information is stored separately from the survey answers. Participation in this survey is voluntary, and failure to respond will not have any impact on your entitlement to benefits.

Comments concerning the accuracy of the survey burden estimate and suggestions for reducing this burden should be sent to: Rani A. Hoff, PhD, MPH - Director, North East Program Evaluation Center (NEPEC) - VA Office of Mental Health and Suicide Prevention (11OMHSP) at: <a href="mailto:rani.hoff@va.gov">rani.hoff@va.gov</a>

Survey Text	Responses

how likely would you be able to talk to them about seeking help	
for their suicidal thoughts	
49. If someone you knew were experiencing suicidal thoughts,	5-point Likert: Very Likely to Not Very Likely
how likely would you be able to talk to them about safe storage	
of their guns, such as storing them locked and unloaded	
50. In the past 12 months have you suggested to anyone that	Yes
they seek help, such as from psychotherapy or counseling, for a	No
mental health, psychological, or emotional problem	
51. In the last <b>seven</b> days, do you recall seeing or reading about	Yes
	1

<general topic="" unaided=""> on TV, the radio, the Internet, or some</general>	No
other media source.	Topic tailored to specific community
52. In the last <b>seven</b> days, do you recall seeing or reading	Yes
<specific aided="" media="" message=""> on TV, the radio, the Internet,</specific>	No
or some other media source.	Topic tailored to specific community
53. In general, how would you rate your physical health?	5-point Likert: Excellent to Poor
54. In general, how would you rate your mental health,	5-point Likert: Excellent to Poor
including your mood and your ability to think?	
55. Have you heard of anyone who has died by suicide in your	Yes
community (i.e., the area that you live in and the people you	No
encounter there on a regular basis)?	
56. Have you ever known anyone who died by suicide?	Yes
	No
56a. (If yes to 56) Was anyone you knew who died by suicide a	Yes
family member?	No
	Unsure
56b. (If yes to 56) What was your closest relationship to anyone	5-point Likert: Very Close to Not close at all
you knew who died by suicide?	
56c. (If yes to 56) For the person you were closest to who died	5-point Likert:
by suicide, how much of an effect did this person's suicide have	1-It had a devastating effect on me that I still feel
on your life?	2-It had a devastating effect on me but I no longer
	feel that way
	3-It disrupted my life for a short time
	4-It had somewhat of an effect on me,
	but did not disrupt my life
	5-It had little effect on my life
57. Do you have access to firearms in your home?	Yes
	No
	Not sure
58. To what extent are the firearm(s) in your home stored in a	5-point Likert: Very Often to Not Very Often
gun safe, locked cabinet, gun rack, or stored with a trigger lock?	One response choice for Not Applicable
59. To what extent are the firearm(s) in your home stored in an	5-point Likert: Very Often to Not Very Often
unloaded or loaded state?	One response choice for Not Applicable
60. Do you have access to quantities of prescribed or	Yes
unprescribed medications or drugs in your home that could be	No
life-threatening to ingest?	Not sure
61. To what extent are the medication(s) in your home stored	5-point Likert: Very Often to Not Very Often
in a locked cabinet or storage device?	One response choice for Not Applicable
62. Have any of your health care providers ever talked with you	Yes
about your firearms or access to firearms?	No
	Not sure
63. Have any of your health care providers ever talked with you	Yes
about safe storage of medications or removing excess	No
medications from your home?	Not sure
How much do you gave with the falls	
How much do you agree with the following statements?	E point Likert, Strongly Agree to Strongly Discours
64. Having a firearm in the home increases the risk of dying by suicide.	5-point Likert: Strongly Agree to Strongly Disagree
	'

65. Keeping firearms locked and unloaded can reduce the risk	5-point Likert: Strongly Agree to Strongly Disagree
of dying by suicide.	
66. Temporary removal of firearms from the home, such as	5-point Likert: Strongly Agree to Strongly Disagree
legal offsite storage, can reduce the risk of dying by suicide.	
67. Having excess or left-over medications in the home	5-point Likert: Strongly Agree to Strongly Disagree
increases the risk of dying by suicide.
