

Report—740 for Schedules A & B and 185 for Schedule C and D.

Estimated Time per Response: 8 hours annually for the Initial Supplemental Report; 40 hours annually for the Quarterly Supplemental Report Schedules A & B + 120 hours for Schedules C & D.

Estimated Total Annual Burden Hours: 29,640.

Request for Comments: Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record. Comments are invited on: (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services required to provide information.

In addition, Treasury seeks comments on the following:

1. For the Quarterly Supplemental Report, Treasury is considering updating the datasets used to identify certain place-based targeted communities periodically, based on availability. For example, from time to time, updated Area Median Income data is published by the Census Bureau or other relevant data sources. Recipients would be required to use this new data in order to classify originations going forward. How frequently should Treasury update this data—never, annually, every five years, some other time period? Treasury anticipates that a transition period would be implemented each time such reference data is updated. Would a one-year transition period be sufficient?

2. Treasury welcomes comments on sources of data through which origination data requested by ECIP is already reported to the federal government and for which Treasury may determine that collection of the data by the Quarterly Supplemental Report represents a duplication of reporting.

3. Are there additional data points that Treasury should consider collecting, in addition to those proposed?

4. Treasury seeks comments on the instructions or other guidance that would be helpful to Recipients to better understand their reporting obligations on the Initial Supplemental Report or Quarterly Supplemental Report.
