★★★★★ The Bank has been robbed.....again!

Great job LEGO! I like how it is kind of a remake of the 2010-2011 bank robbery set.

Pros:

Includes a detailed Bank

Lots of nice looking vehicles (as usual)

Its a remake of the 2010-2011 version.

Cons:

The minifigures were not that awesome in my opinion.

I would recommend this to a friend!

This is a really cool set and is very original. Really fun to play with and good figures. The truck is the best thing in the set and is a really good build. The bank is also excellent and a perfect edition to my Lego city, but I would have liked a bank worker figure. The bulldozer is really cool and for once the crooks have a fair chance with this piece of machinery. The helicopter is unlike any other city helicopters and is awesome.

I would recommend this to a friend!

Great set for kids who like police sets/ city sets with criminals and police. There is an awesome feature in which the criminals can actually pull them the safe out of the bank with the chain on the bulldozer as well as the atm machine.

I would recommend this to a friend!

★★★★★ **Soooooo Cool!**

This is really great. I don't like most of the new LEGO police sets, but this one is an exception. The truck is really great, and I saw someone said that the old one came with a armored truck, but this does too. Now this is the part that I like most about it. LEGO did something really creative, which is that the police truck can be an armored money transporter, a security vehicle, or some sort of high-tech police thing. The bank is nice, and I'd like to see more buildings like it. I wish it had a banker though. The bank could of had a bigger vault, but I guess its OK. LEGO has made what seems like several hundred of helicopters similar to this, but this one is different. I think the other helicopters they just threw together, but this one they actually put some thought into. The tail looks really nice and sleek, and the tail rotor is really cool too, the front is kinda cool I guess, but the back of it is what makes it cool. The bulldozer is really nice, and its the perfect size. The crooks are cool. The cops are kinda nice, but I think I'd like it better if the truck driver was a guy though. It's really cool that LEGO included a German Shepard dog, because it makes it feel more like an investigation. The box of money is nice. Its cool that LEGO made it so that there are two ways for the crooks to break in and get the money; get in through the trapdoor and pry the vault open with the crowbar, or pull the vault out with the bulldozer. One more thing about the bank; LEGO should have made the vault be on the first story. Anyways, I hope you find this review helpful!

★★★★☆ **Fun for kids**

I asked my husband to get the Brick Bank for me as a mother's day gift. He had no idea about legos, and he told the salesperson he needed to buy a bank set, and he got this set. I put the set together in no time, and surprisingly my 18 months old son enjoyed the set very much. He likes to look for the little dog in the police truck, and he likes to deposit those \$100 bills in the little ATM machine. I think it is an OK set for kids to play with, but for me I would rather spend the money towards one of the modular buildings.

★★★★★ **a really cool set**

This set is really cool because the hook from the bulldozer can take out the safe and the ATM machine. for the size of the bulldozer it works pretty well. The helicopter is average because we saw the same design millions of times but the police truck is awesome the design is epic. You should really buy this set.

I would recommend this to a friend!

This bank is alright. It doesn't have a lot of cool features or anything really awesome. The police vehicle is pretty fun to play with and we use it with the police station. It is kind of hard to interact with and my son is done playing with the bank after he rips the safe out of the wall. Overall not one of the most played with Legos.

I would not recommend this to a friend.
