

**NATIONAL ENDOWMENT FOR THE HUMANITIES**  
**Extension of the Generic Clearance Authority**  
**OMB Control Number 3136-0134**  
**Justification: Supporting Statement A**

**Abstract**

The National Endowment for the Humanities (NEH) seeks a three-year renewal of its generic clearance authority, OMB control number 3136-0134. This clearance includes NEH's Notice of Funding Opportunity (NOFO) template, agency-specific application and award-related forms, and agency-specific performance reports.

**Type of Request**

This is a request for approving an extension of existing clearance 3136-0134. This request includes additional information collection instruments, updated burden estimates, and estimated respondents.

**1.) Need for the Collection**

NEH's primary function is grantmaking, and this clearance authority covers information collections related to this activity. They allow the agency to:

- solicit grant applications from the public
- recruit peer reviewers from the public
- process awards
- monitor recipient performance

NEH programs are authorized by [20 U.S.C. §956, et seq.](#) Awards are subject to [2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.](#)

The clearance covers 23 information collections, summarized below.

<b>Information Collection</b>	<b>Brief Description</b>
1. Notice of Funding Opportunity template	The NEH NOFO template is used for all NEH funding programs. It follows the format and sequence set forth for all federal grantmaking agencies in Appendix I of 2 CFR 200.
2. Supplementary Cover Sheet for NEH Grant Programs	Institutional applicants for discretionary programs complete this form in Grants.gov Workspace at the time of application. It includes basic information about the applicant and proposed project.
3. NEH Supplemental Information for Individuals	Individual applicants complete this form in Grants.gov Workspace at the time of application. It includes basic information about the applicant and proposed project.

4. Supplementary Cover Sheet for NEH State Councils	The state and jurisdictional humanities councils complete this form in Grants.gov Workspace at the time of application for their legislatively mandated general operating support grants. It includes basic information about the applicant and proposed project.
5. NEH Institutional Profile	Applicants to the Preservation Assistance Grants program complete this form at the time of application in Grants.gov Workspace. It provides additional information about the applicant and proposed project.
6. Assurances as to Labor Standards	Applicants to the Media Projects program submit this form in Grants.gov Workspace at the time of application. It provides written assurance that all professional performers, scriptwriters, and related or supporting professional personnel employed on projects or productions supported in whole or in part by NEH will be paid no less than the minimum union or guild rates, and that no part of any project or production will be performed or engaged in under working conditions that are unsanitary, hazardous, or dangerous to the health and safety of such individuals, per U.S. Department of Labor regulations set forth in <a href="#">29 CFR Part 505</a> .
7. NEH Individual Programs Acceptance Form	Individual applicants complete this form at the time of award to finalize their period of performance and payment schedule.
8. Organizational Survey	<p>New 501(c)(3) grant recipients receiving an award greater than \$50,000 complete this intake form at the time of award as part of the agency's risk management strategy.</p> <p>Note: the term "survey" here is somewhat of a misnomer. This form is not a survey in the way OMB uses this term for PRA purposes.</p>
9-10. Gift certification reports (x2)	NEH grant recipients whose projects include federal matching funds are required to submit this form to document required third-party cost share. There are two versions of this form: one for the Challenge Grants program and one for other institutional grant programs utilizing matching funds. Challenge Grants recipients are required to submit this form annually; there is no set cadence for recipients of other grant programs.
11. Reviewer interest form	Individuals can voluntarily indicate their interest in serving as a peer reviewer for NEH by completing this form on the NEH website.
12. Interim performance report (organizations)	Institutional grant recipients complete this report online in eGMS Reach. NEH programs require recipients to submit interim reports on an annual basis consistent with 2 CFR 200.
13. Final performance report (organizations)	Institutional grant recipients complete this report online in eGMS Reach within 120 days of the period of performance end date, consistent with 2 CFR 200.

14. Performance report (individuals)	Institutional grant recipients complete this report online in eGMS Reach within 120 days of the period of performance end date, consistent with 2 CFR 200.
15. Interim performance report (Challenge Grants)	Challenge Grants recipients complete this report online in eGMS Reach. NEH programs require recipients to submit interim reports on an annual basis consistent with 2 CFR 200.
16. Final performance report (Challenge Grants)	Challenge Grants recipients complete this report online in eGMS Reach within 120 days of the period of performance end date, consistent with 2 CFR 200.
17. Activities and outcomes report for the state humanities councils	The state and jurisdictional humanities councils complete this report annually. It focuses on qualitative outcomes related to subawards and other council activities made with their formula-based grants.
18. FPIRI Evaluation Form	FPIRI fellows may voluntarily complete this form following their fellowships to provide feedback on their fellowship experiences on the NEH website.
19-20. State Humanities Council SHARP annual report	These reports will be used by the state humanities councils to report on performance on their formula-based SHARP awards.
21-23. SHARP subrecipient selection reports	This report will be used by state humanities councils and ARP-G recipients to report on organizations and individuals selected as subrecipients.

## 2.) Information Use

Respondents to these information collections include grant applicants (both organizations and individuals); grant recipients (both organizations and individuals), and individuals volunteering their services as peer reviewers. This information is used internally and is not disseminated publicly.

NEH uses information contained in the NOFO and application forms to determine the applicants' eligibility and applications' completeness and responsiveness while ensuring compliance. This information is the basis of NEH's funding decisions in its discretionary programs.

NEH uses forms completed by recipients at the time of award to confirm eligibility, establish payment schedules (for individuals), and to mitigate risk to the agency.

NEH uses information collected from the reviewer interest form to identify qualified members of the public to serve as peer reviewers as part of the agency's review process.

NEH uses various reporting templates to monitor recipient performance in compliance with relevant governmentwide regulations, agency policy, and program-specific requirements.

In the past, information collections under this clearance have been used to support NEH's grants management line of business; we plan to continue such efforts under this extension.

## 3.) Information Collection Method

Applicants seeking funding voluntarily respond to the agency's NOFOs, which are found

on Grants.gov as well as on the NEH website. NOFOs include information regarding recipients' post-award reporting requirements.

All information collections are conducted online. Applicants submit their applications via Grants.gov and other reports and forms via eGMS, NEH's electronic grants management system. Individuals volunteering as peer reviewers submit their credentials via the NEH website. All collections are overseen by NEH staff.

In terms of frequency, NEH accepts proposals annually for most programs, though a few have multiple deadlines per year. NEH requires applicants to submit performance reports annually; in rare cases, recipients may be required to report more frequently, consistent with 2 CFR §200.329. Other forms are collected once, either at the time of application or at the time of award. NEH maintains an open call for peer reviewers, so individuals may voluntarily respond at any time.

#### **4.) Duplication**

NEH's Office of the Chairman, Office of General Council, and Office of Grant Management participate in an internal clearance process to review NOFOs and other documents covered by this clearance to avoid unnecessary duplication.

When appropriate, NEH uses existing collections, such as the SF-424 – Short Organizational, Research and Related Budget, and Federal Financial Reporting Form. In other instances, NEH modifies existing forms as a basis for its collections – for example, many NEH reports included in this request are based on the basic Performance Progress Report with the addition of agency/program-specific questions.

#### **5.) Minimizing Burdens on Small Businesses**

NEH is committed to streamlining its application instructions and simplifying the application process. To ensure uniformity with other federal grantmaking agencies, NEH has aligned the format and sequencing of its NOFOs with Appendix I of 2 CFR 200 and strives to balance the need for information with refraining from placing undue burden on its applicants. The agency's internal clearance process ensures that no undue burden is placed on applicants seeking NEH funding.

#### **6.) Consultation Outside of the Agency**

NEH published notices in the Federal Register to solicit public comments on this proposed extension on January 27, 2021, and April 6, 2021. The agency received one public comment, dated January 27, 2021, which expressed general concern about the benefit of this information collection to the taxpayer. NEH acknowledged the comment but determined that it did not call for any change since the opinion expressed was of a general nature and did not pertain to any specific information collections included in this request.
