## **Non-substantive Change Request**

## 0535-0218 - Agricultural Resource Management and Chemical Use Surveys

The below listed surveys are now included in the newly approved Cooperator Funded Chemical Use Surveys ICR Package (OMB #0535-0273):

- Mississippi Cropping Practices Survey
- Pesticide & Fertilizer Use in Minnesota Survey
- Pesticide & Fertilizer Best Management Practices in Minnesota Survey
- Maryland Pesticide Usage Survey
- Illinois Nutrient Loss Reduction Strategy Survey
- Publicity Materials of Above Surveys
- Cognitive Testing of Above Surveys

As a result of this new approval and to remove the duplicate burden, this change request is to drop the above surveys from the Agricultural Resource Management and Chemical Use Surveys ICR (OMB #0535-0218):

In addition, there was a calculation error in the May 2022 change request that was corrected as an adjustment.

These changes will impact the current sample size and respondent burden for the Agricultural Resource Management and Chemical Use Surveys ICR as follows:

Explanation for Changes in Burden and Responses		
	Total Number of	
	Responses	Hours
Overall Beginning Balances	315,682	127,863
Changes to ICR 1 - 2022		
Beginning Balance for ICR 1	262,350	86,259
