Boundary Lat/Longs:	
Description:	

Please include enough coordinates/description to be able to represent the general area of the impact of the project for which you are applying. For point-based projects, please include a reference point and description. For fuel treatments, please include enough coordinates to ascertain a general boundary of the area being treated. If unsure of boundaries, please include a reference point and the planned acreage to be treated under the description. For CWPP development, please include a description of the planning area and type (e.g. municipality boundary, fire response district, township, etc.).

Clearly and concisely respond to each section of the following pages. For the longer sections we encourage you to include sub-headings, line spacing, and/or other formatting for ease of reading (rather than fill every line with words). You may format text in MS Word and then copy and paste it into this Form. Some text formatting is available in the PDF form, e.g., bold, underline, and italic. To format text in the Form: Highlight the text, right click, and select "Text Style."

Project Description (10 Points)

Provide a comprehensive but succinct overview of the proposed project that includes basic details of who is doing what, where, and why this is important. Explain how the project is described in a CWPP (if applicable). Provide linkages to the tenets of the Cohesive Wildland Fire Management Strategy and the State Forest Action Plan. Specify if benefits to traditionally underserved or marginalized audiences are a component of the work.

Project Budget Explanation (10 Points)

Provide any additional remarks needed to clarify your budget request. Clearly explain how the budget will be spent by line item, sources of match, and how expenditures are applicable and relevant to the goals and objectives of the project.

Measurable Outcomes

Provide the output amount for at least one of the quantitative accomplishment measures listed below. You may also list additional specific measurable results that show how the Federal investment will lead to outcomes on the landscape. *In the narrative section on the next page, describe less quantifiable return on investments.*

	Number of Activities		Cost	
	Planned	Actual	Planned	Actual
<u>CWPP</u>				
Development of New CWPPs				
Updates of CWPPs				
<u>Planning</u>				
Training in mitigation practices				
Tabletop or functional exercises, testing or evaluating plan effectiveness				
Planning development, including building codes, zoning ordinances, land use planning, public health and safety, mitigation, prescribed fire and smoke ready efforts				
Creating local/regional mitigation partnership or collaborative groups				
<u>Wildfire Prevention and Mitigation Education/Outreach</u>				
Firewise or similar programs outreach to communities and property owners				
Fire education presentations				
Property inspections and/or assessments				
Training to conduct property inspections and/or assessments				
Implementation of WUI Structure/Parcel/Community Fire Hazard Mitigation Methodology (HMM) for community hazard reduction.				
<u>Reduce Hazardous Fuels / Restore Fire-adapted Ecosystems</u>				
Hazardous Fuels Reduction or Mitigation Projects, including maintenance				
Total # of acres treated to reduce hazardous fuels (direct grant only)				
Monitoring components of projects for effectiveness				
Prescribed fire training, including smoke management				
Design and installation of dry hydrants and cisterns				
Purchase and maintenance of equipment				

Accomplishments (10 Points)

Clearly define how the project will be accomplished, including describing the planned activities in the previous table, as well as identifying measurable outcomes and timelines (are the proposed activities clear and achievable, goals defined, outcomes measurable, # of acres treated, # of education/outreach programs, planning/assessment efforts clearly described, etc.)

Collaboration (10 Points)

- Identify partners that have demonstrated a commitment and add value towards planning and carrying out the project.
- Describe what these partners and collaborators contribute.
- Demonstrate residual positive benefits, as a result of collaboration, related to capacity, skills, knowledge, infrastructure, or a replicable approach, among others.

Collaboration may be qualitative in nature, and the contribution of the partners may be more important than the number of partners involved.

Landscape Impacts (10 Points)

Clearly define the scale of the project, including relationships with past, present, or future projects that, when combined, offer more benefits than when taken individually. Describe overall landscape that the project influences.

Project Sustainability (10 Points)

Clearly define how, or if, the project will sustain itself after the grant period is over. Describe any plans or steps that will be taken to continue the project benefits beyond the life of the grant.

Does this project benefit a low-income community as defined in the NOFO? (10 Points)
