

NIST Summer Institute: Post-survey for Non-participants [insert school year]

Please take the time to complete this survey on your experience as a teacher during the current school year. Your feedback is truly valuable to the administrators of the NIST Summer Institute program and the data will be kept strictly confidential. Data will be used solely for the overall evaluation of the program and program improvement purposes.

The survey should take 20 minutes to complete.

If you have any questions, please contact **Kara Robinson** at NIST. She can be reached by phone at (301) 9752471 or by email at kara.robinson@nist.gov.

OMB Control No. 06930033
Expiration Date: 07/31/2022

NOTE: This collection of information contains Paperwork Reduction Act (PRA) requirements approved by the Office of Management and Budget (OMB). A Federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with an information collection subject to the requirements of the Paperwork Reduction Act of 1995 unless the information collection has a currently valid OMB Control Number. The approved OMB Control Number for this information collection is 0693-0033. Without this approval, we could not conduct this survey/information collection. Public reporting for this information collection is estimated to be approximately 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the information collection. All responses to this information collection are voluntary. Send comments regarding this burden estimate or any other aspect of this information collection, including suggestions for reducing this burden to the National Institute of Standards and Technology at 100 Bureau Dr Gaithersburg, MD 20899 Attn: Kara Robinson, kara.robinson@nist.gov, 301-975-2471.

NIST Summer Institute: Post-survey for Non-participants

Teacher Consent Form

As part of the evaluation of the NIST Summer Institute, NIST is conducting this survey to document the teaching practices and beliefs of program applicants.

Participation in this activity is voluntary, but the information gained from the survey will be of great value to NIST as it refines its program to best meet the needs of middle school science teachers. Information collected through the survey will be strictly confidential and used solely for research purposes. Only aggregate findings will be included in the final report. No findings will be connected to individual teachers. The information collected will not be shared with other school personnel or used as part of a performance evaluation.

1. If you agree to participate in the survey, please check the following box and complete the survey.

I have read the information on this screen and understand what my participation involves. I consent to participating in the survey as part of the NIST evaluation.

NIST Summer Institute: Post-survey for Non-participants

2. Please enter your ID number in the space below (your ID number can be found in the email with the link to this survey).

ID Number:

3. In what grade did you spend the majority of your time teaching science during the current school year? (Select one.)

6th grade

7th grade

8th grade

4. If you taught science to more than one grade during the current school year, select all additional grades that apply.

6th grade

7th grade

8th grade

I did not teach science to any additional grades

NIST Summer Institute: Post-survey for Non-participants

5. Which subject areas did you cover in your science classes during the current school year? (Mark one response on each line.)

	Subject covered	Subject not covered
a. Biology	<input type="radio"/>	<input type="radio"/>
b. Earth Science	<input type="radio"/>	<input type="radio"/>
c. Space Science	<input type="radio"/>	<input type="radio"/>
d. Physics	<input type="radio"/>	<input type="radio"/>
e. Chemistry	<input type="radio"/>	<input type="radio"/>
f. Weather	<input type="radio"/>	<input type="radio"/>
g. Metrology*	<input type="radio"/>	<input type="radio"/>

***Metrology:** is the science of measurement, embracing both experimental and theoretical determinations at any level of uncertainty in any field of science and technology. Scientific or fundamental metrology concerns the establishment of quantity systems, unit systems, units of measurement, the development of new measurement methods, realization of measurement standards and the transfer of traceability from these standards to users in society. Applied or industrial metrology concerns the application of measurement science to manufacturing and other processes and their use in society, ensuring the suitability of measurement instruments, their calibration and quality control of measurements. Legal metrology concerns regulatory requirements of measurements and measuring instruments for the protection of health, public safety, the environment, enabling taxation, protection of consumers and fair trade.

NIST Summer Institute: Post-survey for Non-participants

6. How prepared are you to link scientific concepts to realworld applications for each of the subject areas listed below. (Mark one response on each line.)

	Not prepared	Somewhat prepared	Moderately prepared	Very well prepared
a. Biology	<input type="radio"/> n <input type="radio"/> m <input checked="" type="radio"/> l <input type="radio"/> k <input type="radio"/> j	<input type="radio"/> n	<input type="radio"/> n	<input type="radio"/> n
b. Earth Science	<input type="radio"/> m <input checked="" type="radio"/> l <input type="radio"/> j	<input type="radio"/> m	<input type="radio"/> m	<input type="radio"/> m
c. Space Science	<input type="radio"/> n <input type="radio"/> m <input checked="" type="radio"/> l <input type="radio"/> k <input type="radio"/> j	<input type="radio"/> n	<input type="radio"/> n	<input type="radio"/> n
d. Physics	<input type="radio"/> m <input checked="" type="radio"/> l <input type="radio"/> j	<input type="radio"/> m	<input type="radio"/> m	<input type="radio"/> m
e. Chemistry	<input type="radio"/> n <input type="radio"/> m <input checked="" type="radio"/> l <input type="radio"/> k <input type="radio"/> j	<input type="radio"/> n	<input type="radio"/> n	<input type="radio"/> n
f. Weather	<input type="radio"/> m <input checked="" type="radio"/> l <input type="radio"/> j	<input type="radio"/> m	<input type="radio"/> m	<input type="radio"/> m
g. Metrology*	<input type="radio"/> n <input type="radio"/> m <input checked="" type="radio"/> l <input type="radio"/> k <input type="radio"/> j	<input type="radio"/> n	<input type="radio"/> n	<input type="radio"/> n

NIST Summer Institute: Post-survey for Non-participants

7. How important are each of the following teaching practices to you as a science teacher.

(Mark one response on each line.)

	Not Important	Somewhat Important	Moderately Important	Very Important
a. Using realworld examples to introduce science concepts		m1 j		m1 j
nm1kj	nm1kj			m1j
b. Using realworld examples to motivate student interest in science				m1j
m1j	m1j	m1j		
c. Connecting new science concepts to previous science concepts				
nm1kj	nm1kj	nm1kj	nm1kj	
d. Creating analogies for scientific concepts		m1j	m1j	m1j
e. Addressing students' misconceptions			nm1kj	nm1kj
nm1kj	nm1kj			
f. Having students collect data		m1j	m1j	m1j
m1j				
g. Providing direct instruction to help students understand a scientific concept		nm1kj	nm1kj	nm1kj
			m1 j	
h. Asking students to compare the results of an experiment to their original predictions		m1j	m1j	m1j
				m1j
i. Asking students to explain their conclusions and/or reasoning			m1 j	m1 j
m1 j				
j. Increasing student interest in science careers				m1j
m1j	m1j	m1j		
k. Increasing student interest in the role of science in everyday life				
m1 j	m1 j	m1 j	m1 j	

NIST Summer Institute: Post-survey for Non-participants

8. What is your level of preparedness to use the following teaching practices in your classroom. (Mark one response on each line.)

	Not prepared	Somewhat prepared	Moderately prepared	Very well prepared
a. Using realworld examples to introduce science concepts	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/> b. Using realworld examples to motivate student interest in science	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input checked="" type="radio"/> c. Connecting new science concepts to previous science concepts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/> d. Creating analogies for scientific concepts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/> e. Addressing students' misconceptions	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input checked="" type="radio"/> f. Having students collect data	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/> g. Providing direct instruction to help students understand a scientific concept	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/> h. Asking students to compare the results of an experiment to their original predictions	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/> i. Asking students to explain their conclusions and/or reasoning	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/> j. Increasing student interest in science careers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/> k. Increasing student interest in the role of science in everyday life	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

NIST Summer Institute: Post-survey for Non-participants

9. Approximately how often did you have students engage in the following learning activities during the current school year? (Mark one response on each line.)

	Weekly	Monthly	Annually	Never
a. Conduct investigations (e.g., doing lab activities or using manipulatives)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Consider a realworld problem relevant to the course and develop a plan to address it	<input checked="" type="radio"/>	<input checked="" type="radio"/>	<input checked="" type="radio"/>	<input checked="" type="radio"/>
c. Use technical passages (from news or science journals) to investigate current issues or new developments in science or technology	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Listen to guest speakers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Go on field trips relevant to the curriculum	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Investigate possible career opportunities in mathematics, science, or technology	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Design and implement their own scientific investigation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Use "stateoftheart" equipment or technologies	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

NIST Summer Institute: Post-survey for Non-participants

10. Consider only science teachers within your school: How often did you do the following with them during the current school year? (Mark one response on each line.)

	12 times a week	12 times a month	12 times a year	Never
a. Discuss general ideas for how to teach specific science concepts	m 1 j	m 1 j	m 1 j	
b. Share a specific science lesson that was very effective for teaching a concept	m 1 j	m 1 j	m 1 j	
c. Share strategies for making science accessible to all students	m 1 j	m 1 j	m 1 j	
d. Have my classroom observed by other science teachers to demonstrate how to teach a specific science lesson, activity, or concept	m 1 j	m 1 j	m 1 j	
e. Demonstrate a specific science lesson, activity, or concept for students in another teacher's classroom	m 1 j	m 1 j	m 1 j	

11. Consider only science teachers outside your school: How often did you do the following with them during the current school year? (Mark one response on each line.)

	12 times a week	12 times a month	12 times a year	Never
a. Discuss general ideas for how to teach specific science concepts	m 1 j	m 1 j	m 1 j	
b. Share a specific science lesson that was very effective for teaching a concept	m 1 j	m 1 j	m 1 j	
c. Share strategies for making science accessible to all students	m 1 j	m 1 j	m 1 j	
d. Have my classroom observed by other science teachers to demonstrate how to teach a specific science lesson, activity, or concept	m 1 j	m 1 j	m 1 j	
e. Demonstrate a specific science lesson, activity, or concept for students in another teacher's classroom		m 1 j	m 1 j	
		m 1 j	m 1 j	
		m 1 j		

NIST Summer Institute: Post-survey for Non-participants

12. When you had a science-content question related to your teaching responsibilities during the current school year, how often did you use the following information sources to obtain answers? (Mark one response on each line.)

	12 times a week	12 times a month	12 times a year	Never
a. A teaching colleague within my middle school	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. A teaching colleague at another middle school	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. A science supervisor from within my school district	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Someone from a professional science teaching organization (e.g., NSTA)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. A professional scientist of my acquaintance (e.g., a former professor)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. My school district's science website	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. My state's science website	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. A targeted Google search	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. A federal agency website (e.g., NSF, NASA, NOAA, NIST)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
j. Specific science websites (e.g., Why Files, Exploratorium)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
k. Other	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

13. If you selected "Other" in Question 12, please specify the "Other" information source(s) in the space below:

5

6

NIST Summer Institute: Post-survey for Non-participants

14. Indicate the extent to which you agree or disagree with each of the following statements for the current school year. (Mark one response on each line.)

	Strongly Disagree	Disagree	Agree	Strongly Agree
a. The quality of my teaching influences my students' interest in science	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. The quality of my teaching influences my students' achievement in science	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. I continually find better ways to teach science	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. I know how to motivate my students to learn science	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. I influence the quality of science instruction for students outside of my own classroom	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. I am currently in a position to influence the number of my students that know about sciencerelated careers.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. I am currently in a position to influence the number of my students that find STEM subjects interesting.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. I am currently in a position to influence the number of my students that view science as being relevant to their lives.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

NIST Summer Institute: Post-survey for Non-participants

If you are not finished with the survey, select the "Previous" button to navigate the survey and complete your responses.

If you are ready to submit your survey now, select the "Done" button. After you submit, you will NOT be able to reenter the survey.
