

OSAC Registry Implementation Survey

The Organization of Scientific Area Committees (OSAC) for Forensic Science wants to better understand how the standards on the OSAC Registry are being used, the challenges around standards implementation, and what support is needed to improve it. The OSAC Registry Implementation Survey is a tool we use to collect this information on an annual basis.

OSAC needs to hear from the nation's forensic science service providers! Please help us by completing the 2022 OSAC Registry Implementation Survey which provides an assessment of 95 standards posted on the OSAC Registry through June 2022.

By entering your email address below, you will receive a copy of your survey response. Your email address will remain confidential.

Respondents can prepare for the survey by reviewing a list of the standards represented in this survey here: <https://www.nist.gov/osac/osac-registry-implementation-survey>.

For more information about OSAC visit: <https://www.nist.gov/osac>.

The OSAC Program Office within the National Institute of Standards and Technology (NIST) Special Programs Office is managing this survey. If you have any questions about the survey or need assistance please e-mail forensics@nist.gov.

OMB Control Number: 0693-0033 -- Expiration Date: 07/31/2022

* Required

1. Email *

THE SURVEY WILL CLOSE AUGUST 12, 2022.

ONLY ONE (1) SURVEY RESPONSE SHOULD BE SUBMITTED PER LOCATION (For example, a state laboratory with multiple regional laboratories should submit a separate response for each of its locations.) THE SURVEY WILL TAKE APPROXIMATELY 15-60 MINUTES TO COMPLETE. YOUR PARTICIPATION IS VOLUNTARY.

SURVEY INFORMATION SHEET is available for survey participants which explains this study. You should read the Information Sheet at <https://www.nist.gov/osac/osac-registry-implementation-survey>. Upon completion, select the option below that applies.

2. I understand the description of the research and the risks and benefits associated with my participation as a research subject. I understand that by proceeding and selecting I AGREE, I am choosing to take part in this research voluntarily with this survey. *

Mark only one oval.

- I AGREE
- I DO NOT AGREE

**Respondent
Information**

This survey may be received by multiple individuals within the same organization.

We are requesting that only ONLY ONE (1) SURVEY RESPONSE BE SUBMITTED PER LOCATION (i.e., City, State).

3. First Name - Last Name of Respondent. [This will remain confidential.] *

4. Name of Organization. [This will remain confidential.] *

5. City and State of Organization. Submit one response per location (i.e., City, State). [This will remain confidential.] *

6. Respondent's Position in Organization. *

Mark only one oval.

- Director/Deputy Director/Administrator
- Manager/Section Head/Technical Leader
- Medical Examiner/Coroner - Deputy Medical Examiner/Coroner
- Practitioner/Examiner
- Quality Manager
- Other: _____

7. Organization Type *

Mark only one oval.

- U.S. Federal Government
- U.S. State Government
- U.S. County Government
- U.S. City Government
- U.S. Private
- U.S. Academic
- Non-U.S. Organization
- None of the Above

OSAC Registry
Implementation:
Awareness,
Priority, &
Challenges

The following questions will help OSAC better understand a Forensic Science Service Provider's (FSSP)¹ current awareness of the OSAC Registry and the priority and challenges they see regarding standards implementation.

1) A forensic science agency or forensic science practitioner providing forensic science services. Source: ASTM E1732-22, Standard Terminology Relating to Forensic Science

8. Is your organization aware of the OSAC Registry? *

Mark only one oval.

- Yes
- No

9. What priority does the Organization identify for implementation of the applicable standards on the OSAC Registry? (Select One Response) *

Mark only one oval.

- High Priority/Very Important
- Medium Priority/Important
- Low Priority/Somewhat Important
- Not a priority/Not important at this time
- Not Applicable

Key Challenges

10. Please select the key challenges or reasons preventing implementation of the OSAC Registry standards at this organization (Please select up to 5). If guidance documents from other organizations are used, identify them in the space below.

Check all that apply.

- NO Key challenges. My organization supports implementation policies.
- My organization supports implementation policies but can't implement at this time.
- My organization does not have the available personnel to allocate to this task.
- My organization does not have the available instruments and/or facility to support implementation.
- My organization does not have the training to support implementation.
- My organization does not have the funding to support implementation.
- My organization has not completed validation required by these standards.
- My organization does not know how to update our standard operating procedures/quality manual to incorporate OSAC Registry standards.
- My organization does not understand the need for standards on the OSAC Registry.
- My organization does not feel the standards on the OSAC Registry will add value over what is already implemented.
- My organization does not agree with standards on the OSAC Registry.
- My organization is not required to implement standards on the OSAC Registry.
- The OSAC Registry does not have any applicable standards for my organization.
- My organization currently uses other guidance documents that are not on the OSAC Registry.

11. If other guidance documents from other organizations are used, identify them below.

12. Has the organization implemented ANY of the standards on the OSAC Registry? *

Mark only one oval.

YES

NO Skip to question 55

OSAC
Registry.

As of June 2022, the OSAC Registry contains 95 standards. These standards are categorized alphabetically by forensic disciplines and can be referenced here:
<https://www.nist.gov/system/files/documents/2022/06/15/2022%20OSAC%20Registry%20Implementation%20Survey.pdf>

Provide only one (1) response for each of the standards that follow. Responses will be saved along the way, and you can return to the survey at a later time to complete it, if needed.

Anthropology

13. Does the organization perform services in Anthropology? *

Mark only one oval.

Yes

No Skip to question 15

Anthropology
Standards

PROVIDE ONLY ONE (1) RESPONSE FOR EACH OF THE STANDARDS LISTED.

OPTIONAL (click 'NEXT' to skip this section): Forensic Science Service Provider (FSSP) Self-Declaration of Standards Implementation

In addition to this survey, OSAC has developed an Implementation Declaration Form that FSSPs can complete to inform OSAC of their current compliance or self-adoption of the applicable standards on the OSAC Registry in their SOPs or quality manual. A FSSP that has completed and submitted this form is eligible to receive an OSAC Registry Implementer Certificate.

54. Should OSAC acknowledge this survey as your self-declaration and send your organization an OSAC Registry Implementer Certificate?

Mark only one oval.

Yes. Thank you for completing the survey and choosing to be an implementer. Continue to submit your survey.

No. Thank you for completing the survey. Continue to submit your survey.

Thanks for participating.

Thanks for volunteering to participate in the OSAC Registry Implementation Survey and for the time and effort to complete it. Time is one of the most valuable things we have and the OSAC Program Office expresses a sincere appreciation for the time given to this activity. We are hopeful that we will get clear responses that indicate whether we are on the correct path to improving implementation of the standards on the OSAC Registry.

55. Provide any additional feedback for the OSAC Program Office below.

**Program Evaluation Data Collections; OMB Control #0693-0033. Expiration Date:
07/31/2022**

A Federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with an information collection subject to the requirements of the Paperwork Reduction Act of 1995 unless the information collection has a currently valid OMB Control Number. The approved OMB Control Number for this information collection is 0693-0033. Without this approval, we could not conduct this survey/information collection. Public reporting for this information collection is estimated to be approximately 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the information collection. All responses to this information collection are voluntary. Send comments regarding this burden estimate or any other aspect of this information collection, including suggestions for reducing this burden to the National Institute of Standards and Technology at: 100 Bureau Drive Gaithersburg, MD 20899, Attention: Organization of Scientific Area Committees (OSAC) forensics@nist.gov.
