## Proposed Grants Tab Layout

The **Proposed Grants** tab contains all grant applications that the grantee is working on or has submitted to OLDCC. This is where any changes or additions will be made if the Project Manager (PM) sends the application back during review. For any new grant applications, the grantee must be invited by the PM to submit an application (this includes supplemental grants).

A grant is officially awarded when the Director approves a Grant Agreement, not an application. It is possible for a community to turn down an award after it has been approved by the Director. If the community's Authorizing Official does not return a signed Grant Agreement, no money will be obligated.

***Community users are “applicants” until a grant is awarded, then they become “grantees.”***

## Contacting OLDCC

The old version of the OLDCC website ([www.oldcc.gov](http://www.oldcc.gov)) had an Inquiry page, where applicants could submit a request for assistance. This capability is not currently on the new website; if it is added back this manual will be updated. To reach out to OLDCC with questions on a specific program, use either one of the following two options:

1. Click the **Our Programs** drop-down menu then click **Program Overview**. Select the desired program type and use the contact information at the bottom.
2. Click **Contact Us**.

## Verify Organization Profile

Once OLDCC has completed their review of a grant request and approved it, they will send an application invitation email to the PDA. The application will also show up under the **Proposed Grants** tab.

Before completing the grant application, the PDA should complete or verify their organization's profile by following the steps below.

1. Click the **Organization Profile** link located in the upper right-hand corner of the screen.

2. The organization page will appear.
3. The **Profile Information** tab has two sections for data entry. The top section contains basic location details, while the bottom section, **Administration**, is where the EIN and DUNS numbers can be found.

4. The **Contacts** tab contains a list of all contacts currently assigned to the organization. This tab cannot be edited by the community user. If contacts are out of date, contact the Project Manager.

The screenshot shows the 'Application Narrative' tab selected in the 'Test February' application. The tab is circled in red. The page includes a sidebar with 'Main', 'Notes', 'Contacts', and 'More...'. These can be found at the Federal Funding Accountability and Transparency Act Sub-award Reporting System (FSRS) at the following url: <https://www.fsrs.gov>.

### ■ Adding Grant Deliverables

- A grant deliverable is a work product that can be measured or tracked. At the end of the grant, the grantee should be able to provide proof so OLDCC can verify the work was completed in accordance with the Grant Agreement.

The screenshot shows the 'Test February' application page. The 'Grant Deliverable List' section is active, displaying a table with columns for Name, Description, and Deliverable Date. A blue button labeled 'Add Grant Deliverables' is highlighted with a red circle. Below the button, the text reads: '\* Goals related to OLDCC mission instructions'. A mission statement is provided: 'Mission: Provide a community-based program of financial and technical assistance in coordination with other domestic Federal programs to help communities respond to Base Realignment and Closure (BRAC) and other military base closures or realignments'. Below the mission statement are several checkboxes for goals, including 'N/A', 'Assist local governments and states to organize, plan and implement successful responses to BRAC downsizing actions', 'Enable local designation/formation of community organization that can speak with one voice on behalf of affected stakeholders, and be the single point of contact for all Federal efforts', 'Support preparation of a community-driven redevelopment plan crafted to better understand and address adverse economic impacts, evaluate a variety of ways to respond to the closure and redevelopment challenges and identify resource requirements', and 'Enable impacted communities to reuse BRAC property, create jobs, and meet other public needs'.
