Thank you for your participation in this survey!

The purpose of this survey is to assess the workplace climate and identify the prevalence of harassment and discrimination at the National Institutes of Health (NIH). This survey is being administered to all eligible NIH federal employees, trainees, volunteers, and participating contractors. The results of this survey will help inform strategies towards an inclusive, diverse, and harassment-free NIH workplace.

This survey should take approximately 10-15 minutes to complete. Once completed, your survey responses will be given an anonymous code that will prevent them from being linked to your name, email address or other personal information. This means that any identifiable information will not be accessible by NIH or its staff. To support this survey, Westat has been contracted by NIH to distribute the survey, collect responses, and present aggregated survey responses back to NIH.

Contractors participating in this survey should respond to questions in the context of interactions with NIH staff associated with their NIH work. This survey is not a means to evaluate contractor performance or the work environment of contracting companies.

General questions or technical issues about the survey can be directed to NIHWorkplaceCES@mail.nih.gov.

You may leave at any time and return to the survey, but you must use the same device and browser with which you started the survey.

Please click "next" below, to begin the survey.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-xxxx*). Do not return the completed form to this address.

This survey asks questions about your personal experience with harassment and discrimination that some may find uncomfortable or unsettling. For information on who to contact for support, or to learn more about making a formal complaint of harassment or discrimination, please visit our [Resources Page](#).
