

**Reviewer Notes:**

This is a shortened version of the full HPOG 2.0 COVID-19 Short-Term Follow-up Survey (CTS). It will be administered to reluctant respondents in an effort to maximize response rates for critical items only. In most sections of the survey we reduced the length of the section by dropping several questions. In other sections, we dropped all of the questions. The questionnaire overview indicates whether the section reduced the number of questions asked or was dropped entirely.

Variable names are noted in RED brackets e.g. <DOBMM>, <DOBDD>, <DOBY>

**Questionnaire overview:**

This survey instrument has nine sections. The content of each section is as follows:

- 1) Section A: training experiences and employment history from the point of random assignment through the interview date.—REDUCED.
- 2) Section B: school experiences—DROPPED.
- 3) Section C: credential attainment.—REDUCED.
- 4) Section D: conditions of current (or most recent) employment-REDUCED.
- 5) Section E: household composition—REDUCED.
- 6) Section F: income and financial well-being—REDUCED.
- 7) Section G: 21<sup>st</sup> century and cognitive skills—DROPPED.
- 8) Section I: COVID-19 experiences—REDUCED.
- 9) Section H: respondent and secondary contact information—REDUCED.

**Defining text substitutions**

Throughout the instrument, there are places where the CAPI software will insert text to customize the question for the respondent. A couple of key text inserts are defined here:

**[RAD]:** This is the random assignment date for all participants. The random assignment date indicates the date that the person became a participant in the HPOG 2.0 National Evaluation.

**General notes**

CAPI notes, which begin with **CAPI:** are instructions for the programmers. They are noted in bold font and the skip logic for CAPI is noted with numeric values, for example: **CAPI: IF B2≠6 SKIP TO B7.**

**Refused and Don't Know** responses are valued at -1 and -2 if the field is numeric; otherwise the values are 7 and 8 or 97 and 98 depending on how many other precoded responses there are. For example, in a yes, no, refused, don't know response set, refused and don't know have values of 7 and 8. If the question asks for total hours worked, refused and don't know would be -1 and -2 respectively. If the question asked about highest grade obtained, there would be more than 6 responses—thus, the refused and don't know values would become two-digit values of 97 and 98 respectively.

**Plain text descriptions of who is asked each question are noted in bold font in orange text boxes.** Skip logic for plain text descriptions are noted with alpha values, for example: **Ask B6 if they were self-employed (B2=Self-**

employed).

**INTRODUCTION**

Hello, my name is [ ]. May I please speak with \_\_\_\_\_?

*IF RESPONDENT COMES TO THE PHONE: I'm calling on behalf of the [PROGRAM NAME].*

*IF PHONE OR IN-PERSON: I work for Abt Associates, or Abt, which is an independent research company. Abt is helping the Administration for Children and Families (ACF) in the U.S. Department of Health and Human Services (HHS) with its evaluation of the Health Profession Opportunity Grants (HPOG) program. We are conducting interviews with people like you who agreed to be in a study about a program offered at [PARENT GRANTEE SITE] called [PROGRAM NAME]. Thank you for taking the time to talk with me today.*

*This interview will include questions on your employment and education activities, your use of services, and your overall well-being. This interview will take about 20 minutes to complete. When we are done, we will send you a link to access a \$40 gift certificate to a store of your choice, as a token of appreciation. You agreed to be part of the study around [RAD] when you signed a consent form to let researchers collect information from you. We need to talk with people who got into the program and those who did not. Your participation in this study will help policymakers and program operators better understand how to help people attain educational credentials and find and keep jobs.*

*Before we begin the survey, I would like to assure you that all of your responses on this survey will be kept private and only used for studies about the different types of education and employment trainings and services that are the focus of this study. Any data sets that are developed for sharing with other researchers will be stripped of information that would make it possible to identify you. Your name will not appear in any written reports we produce. Your responses to these questions are completely voluntary. That means you may choose not to answer any question, or you may stop the interview if you wish, but we hope you don't. Your responses to these questions will in no way affect your participation in any programs or your receipt of any kinds of public benefits or services. By participating in this study, you will help the government learn if and how programs like [PROGRAM NAME] make a difference in people's lives and how to improve programs in the future. As we mentioned at the time of enrollment, we will continue to collect information from data sources such as the National Directory of New Hires and the National Student Clearinghouse so researchers can learn more about your future employment, earnings, and post-secondary education until the end of HHS's research on HPOG grants, or when you choose to withdraw permission.*

*According to the Paperwork Reduction Act (PRA), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information without approval from the Office of Management and Budget or OMB. This approval is called an OMB control number. The OMB control number for this collection is 0970-0462 and it expires 07/31/2024. If you have comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, please send them to Radha Roy, Abt Associates, Inc., 6130 Executive Boulevard, Rockville, MD 20852; Attn: OMB-PRA 0970-0462. Do you have any questions before we begin?*

*Let's begin now.*
